Modern Steel Construction

As the official monthly magazine of the American Institute of Steel Construction (AISC), Modern Steel Construction provides our readers with in-depth information on the newest and best uses of structural steel, focusing on innovative and cost-effective designs and the products and companies that help bring them to life.

Modern Steel is directed exclusively toward professionals in the construction industry who make and influence purchasing decisions—whether they are engineers, architects, building owners, contractors, or those employed directly by the domestic steel industry. It is the magazine of choice for people designing structural steel framing systems and reaches 45,000 U.S.-based structural engineers—more than any other publication. This includes 32,000 AISC professional members plus all members of ASCE’s Structural Engineering Institute and nearly every other person that buys AISC’s Steel Construction Manual.

In addition, every major domestic structural steel fabricator receives Modern Steel. These approximately 5,300 individuals (representing roughly 1,000 AISC full member companies) are responsible for more than three-quarters of all steel-framed buildings and bridges constructed in the U.S. And of course, the magazine also reaches thousands of others, including architects, steel detailers, erectors, contractors, code officials, and building inspectors.

On top of that, www.modernsteel.com is seen by countless additional readers thanks to its comprehensive archives section (dating back to the 1960s), daily Steel in the News items, an online Career Center, a weekly quiz, podcasts, and more.

readers respond

Year after year, surveys show that *Modern Steel Construction* is regarded as the premier magazine for the steel building and bridge industries.

Our subscriber surveys (including our most recent one, in August 2021) provide insightful information on how readers use our print and online content.

Engaging content.

55%

of our readers find practical information that they can apply in their daily work in most if not all issues of *Modern Steel*—and nearly 100% of our readership extracts useful information throughout the year.

86%

of our readers share articles/links with others throughout the year, and one-quarter of our readers share articles/links from *nearly every issue*.

A new view.

57%

of our readers have accessed *Modern Steel* content via our new monthly *First Look* e-newsletter.

Attention-grabbing ads.

50%

of our readers contact or research a company after seeing its ad in *Modern Steel*.

92%

of these readers contact/research the company via its website or social media outlets.

Need for Speed: Fabrication and Detailing Software

A Note on 2022 Products Coverage

The goal of AISC's Need for Speed initiative is to increase the speed at which a steel project (either a building or a bridge) can be designed, fabricated, and erected by 50% by the end of 2025 (visit aisc.org/needforspeed to learn more). This year's product coverage will focus on how various products, software, and equipment can contribute to achieving this goal.

You can peruse our editorial guidelines online at modernsteel.com/getpublished. For more information or to submit an article or an item to be considered for our online Steel in the News section, contact Geoff Weisenberger.

Modern Steel Construction is written by the steel industry for the steel industry. We tell steel success stories, offer practical advice and design tips, introduce innovative ideas, and promote effective products and technologies—all in an effort to improve and expand the footprint of American fabricated structural steel.

While most of our feature articles focus on specific building and bridge projects, we also highlight ideas that are relevant to the steel industry and AISC’s mission. These include trends pieces, technical articles, and product- and facility-related write-ups. In addition to feature stories, every issue includes the following:

- **Q&A**: Steel Interchange provides answers to technical questions sent to AISC’s Steel Solutions Center.
- **Steel Quiz**: tests readers’ design and technical know-how.
- **Our Field Notes**: podcast column features conversations with people from all corners of the structural steel industry with interesting stories to tell.
- **SteelWise**: provides practical technical information that readers can use right away.
- **News**: keeps readers in tune with AISC activities and announcements and provides a glimpse of what’s going on in the world of structural steel.
- **Marketplace & Employment**: lists jobs and other steel industry opportunities.
- **New Products**: a free monthly section featuring a collection of products from across the structural steel industry—from coatings to job-site tools to design and detailing software to fabrication equipment. Send releases and images of new and updated products to Geoff Weisenberger (weisenberger@aisc.org) for consideration.
- **Business Issues and Economics**: columns discuss steel industry and construction trends and offer business and management advice for the office, shop, or project site.
- **Data Driven**: highlights market trends, economic forecasts, or other relevant numbers that affect steel design and construction.
- **Marketplace & Employment**: lists jobs and other steel industry opportunities.
- **News**: keeps readers in tune with AISC activities and announcements and provides a glimpse of what’s going on in the world of structural steel.

**First Look**

Modern Steel’s monthly First Look e-newsletter announces the availability of the current month’s issue. Each e-newsletter promotes a handful of specific articles, recent news items, and the monthly Field Notes section. Contact Stephanie Kogel at skogel@mrvica.com for details on sponsorship opportunities.

**Product/Technology Focus**

In addition to the New Products section, we periodically feature a product- or technology-related article, either in the form of a facility tour or a more technical article about a designated type of product, software, or service (e.g., welding products, fabrication machinery, safety equipment, or BIM software). These include articles on technologies that are new to the industry as well as articles offering practical advice for a specific type of product or service (e.g., best practices for progressive-dip galvanizing jobs). In addition to the technology types listed in our Editorial Calendar, we will consider other product/technology/service-related articles as well. Contact Geoff Weisenberger (weisenberger@aisc.org) if you have an idea for a topic.

**Special Sections**

A number of special sections make appearances annually:

- **Previews of interesting NASCC: The Steel Conference sessions**, as well as the full list of **exhibitors**, are included in the first few issues of the year. If you’re interested in exhibiting at NASCC, contact Renae Gurthet at renae@gurthetmedia.com.
- **AISC’s IDEAS2 Awards** program celebrates the synergy between structural steel and architecture. Winners are featured every May. For specifics about entering, visit aisc.org/ideas2.
- **The August issue includes Hot Products** selected from NASCC exhibitors, as well as the winner and finalists of AISC’s **Forge Prize** competition.
- **In December, our What’s Cool in Steel section presents a compendium of fun, typically smaller projects built with structural steel, as well as other “cool” people or goings-on in our industry.**
- **Every other year (including 2022!), the NSBA Prize Bridge Awards recognize the best of the steel bridge world.** For details, visit aisc.org/prizebridge.
Modern Steel Construction offers competitive advertising rates to fit any program budget. All rates are per issue, per insertion and in U.S. dollars. Insertions must occur during the 2022 calendar year for these rates.

Black-and-white company logos may appear in ads for an additional $25 charge per insertion.

**Marketplace Advertisements for products and services**

**Employment Ads for employment and recruiting firms**

**Print Advertising**

Modern Steel Construction offers competitive advertising rates to fit any program budget. All rates are per issue, per insertion and in U.S. dollars. Insertions must occur during the 2022 calendar year for these rates.

**Inserts, etc.**

Special rates apply for supplied inserts, tip-ins, gatefolds, etc. Prices available upon request. Samples may be required prior to approval.

**AISC Member Discount**

AISC full and associate members receive a 20% discount on gross billing. There is no discount for AISC professional members.

**Issuance Dates**

Modern Steel is published 12 times a year and mails within the last week of the previous month. For example, the January issue is usually mailed the last week of December.

**Payment Terms**

All rates are in U.S. dollars. Advertisers are responsible for payment. Terms are net 30 days. If invoices are not paid within 60 days, a service charge of 2% of the entire bill, per month, may be assessed. Payments not received within 60 days may result in loss of AISC membership.

**Cancellations**

Ads cannot be cancelled after the closing dates published on the editorial calendar. Advertisers who fail to fulfill a frequency contract will be short-rated to reflect actual frequency rate earned.

**Receipt of Materials**

Current ad materials will run at the publisher’s discretion if new materials are not received by the material submission deadline published on the editorial calendar. Send materials by email to account manager Stephanie Kogel, skogel@mrvica.com.

**Use of AISC Logos in Ads**

AISC member advertisers are advised to check the members area of the AISC website at www.aisc.org for up-to-date logos and guidelines. For questions about logo usage, contact Kristin Hall, Graphic Design Manager: hall@aisc.org | 773.636.8543

Modern Steel Construction | 2022 Media Guide | 6 of 8
web advertising

The redesigned [www.modernsteel.com](http://www.modernsteel.com) features multiple opportunities for advertisers to connect with our readership online.

Enhanced Online Experience

Our website, [www.modernsteel.com](http://www.modernsteel.com), is organized to provide a streamlined online experience. In addition to easy access to the current issue, daily news items, popular articles and links, a career center, the product directory, the entire archive of Modern Steel issues, and more, current iteration of our web presence also includes the following new sections:

- **Project Extras.** Additional photos, details, animations, videos, and other items tied to articles from the print magazine, as well as occasional web-exclusive content.

- **Field Notes.** Engaging monthly podcasts, typically around 20 minutes, with interesting folks from the design and construction industry. An abbreviated transcript of each podcast appears in the print magazine.

- **Weekly Steel Quiz.** A fun opportunity for site visitors to test their steel knowledge—and win prizes!

---

**Online Banner Ads**

Modern Steel Construction’s website accepts online ads. Ads are available in various sizes and placement options. Rates are per month of exposure. AISC full and associate Members receive a 20% discount for online ads.
