The NASCC: The Steel Conference is the place for engineers, fabricators, detailers and erectors to learn about structural steel design and construction, to interact with their peers and to see the latest products for steel buildings and bridges. The Steel Conference offers more than 130 technical sessions and is the premier educational event for structural engineers, fabricators, erectors and detailers. In addition to practical seminars on the latest design concepts and construction techniques, the conference offers an extensive trade show (featuring products ranging from structural software to machinery for cutting steel beams) and plentiful networking opportunities. It's a once-a-year opportunity to learn the latest techniques, see the most innovative products and network with your peers and clients.

Please help us take the steps necessary to have this individual obtain a visa in order to attend The Steel Conference in St. Louis, Missouri, April 3-5, 2019. Please contact me directly if I can be of further help.

Best regards,
