The President
The White House
1600 Pennsylvania Avenue, N.W.
Washington, DC 20500

Dear Mr. President:

On behalf of the American Institute of Steel Construction (AISC) and the National Steel Bridge Alliance (NSBA), we thank you for your support of the domestic steel industry, and specifically the Executive Orders dated March 31 and April 18, and the Presidential Memorandum dated April 20.

Established in 1921 and based in Chicago, AISC is a national, not-for-profit, non-partisan, technical institute and trade association serving the structural steel design community and construction industry. AISC and our bridge division NSBA represent nearly 1,000 U.S. businesses that fabricate and install the structural steel that make up America's great steel bridges, infrastructure projects and skylines. NSBA is primarily focused on the domestic bridge market.

Our members and their employees know the high quality of U.S. fabricated steel – and the challenges of selling into markets that are impacted by illegally subsidized and illegally dumped steel that is fabricated offshore. We very much appreciate the attention of the Administration to the interests of the American steel industry, and look forward to working with the Administration and the agencies on these important issues.

Most respectfully,

A handwritten signature in blue ink, appearing to read "Charles J. Carter". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Charles J. Carter
President
