

Revision and Errata List—June 2018

AISC Seismic Provisions for Structural Steel Buildings, July 12, 2016

The following list represents corrections incorporated in the June 2018 revision of the 2016 *AISC Seismic Provisions for Structural Steel Buildings*.

Page(s)	Item
9.1-29	In Section D2.6b(c), revise $0.7F_yZ/(\alpha_s H)$ to $0.7F_yZ/(\alpha_s H)$.
9.1-68	The first sentence of Section F2.6c should be revised to read, “The required strength in tension, compression and flexure...”
