

AISC Educator Awards
Nomination for

Early Career Faculty Award

The Early Career Award provides recognition to individuals who demonstrate promise in the areas of structural steel research, teaching and/or other contributions to the structural steel industry. This award honors full time faculty in Civil Engineering, Architectural Engineering, Architecture, Construction or Construction Management at North American Universities who are on the tenure track or have received tenure within the last three years.

See <http://www.aisc.org/awards> for additional award guidelines and a list of past winners.
