

# Student Steel Bridge Competition FACULTY ADVISOR EXPECTATIONS

As the faculty advisor for a Student Steel Bridge Competition (SSBC) team, I agree to the following:

1. Verify that all students on the team are students enrolled at my school for part of or all of the 2018-2019 academic year.
2. Submit a roster of students to AISC by March 1, 2019.
3. Promote an inclusive and positive environment for all students participating in the program where learning is the desired outcome.
4. Encourage students to make design decisions and fabricate their bridge on their own as much as possible in order to maximize learning.
5. Attend the Regional Event with my team or send a substitute faculty member in my place.
6. Ensure that students exhibit good sportsmanship and professional behavior at regional and national levels of the SSBC in order to give my school the opportunity to participate in future competitions.

**Smarter.  
Stronger.  
Steel.**
