

CERTIFICATION PROGRAMS

Certification Bulletin:	2024-03
Issue Date:	May 22, 2024
Effective Date:	Immediately
Supersedes:	2023-02
Bulletin Title:	Updates to the <i>Governing Requirements for Certification Programs</i>
Inquiries:	certification@aisc.org
To:	All Participants/Applicants

AISC Certification has published the annual update to the *Governing Requirements for Certification Programs (GRs)*. The updates will take effect for all applicants and certified participants on June 15, 2024.

Please refer to the preface of the *GRs* and the *Supplemental Requirements* for a list of changes.

To maintain your certification, you must ensure your quality management system (QMS) meets the updated *GRs*. Auditors will begin issuing Corrective Action Requests (CARs) for nonconformance with the updated *GRs* on June 15, 2024.

Why update the *GRs*?

Our industry is constantly evolving--that's one of the things that keeps steel on the cutting edge! We update the *GRs* each year to provide additional clarity and keep up with the pace of innovation. You can expect similar updates each spring, with changes taking effect in June each year.

As a reminder, the *GRs* govern the administration of the certification program from application to certificate determination. They should be your go-to reference for compliance with our program and administrative processes. Please visit our [Certification Updates](#) page for the updated requirements for each certification and endorsement.

If you have any questions, please contact AISC Certification directly at certification@aisc.org or 312.670.7520.
