

## Looking to Improve Your Quality Management Systems?

**Pre-Assessment and Gap-Analysis Services will give you the guidance you need.**

Do you have a quality management system (QMS) that needs help? Are you looking to apply for AISC Certification? Are you looking to change your current AISC Certification scope? Or are you simply looking to evaluate your QMS for specific improvements? Then the Pre-Assessment and/or Gap-Analysis Services are for YOU.

Our services provide an assessment of your QMS and remove gaps within your system. We provide guidance on what areas, procedures, or processes need to be addressed before you make the next step.

At the site meeting, a Quality Management Company (QMC) team member will assist your management team in understanding the core principles of an effective QMS. Specific areas covered are:

- Understanding and Practice of Procedure Writing
- Setting Goals and Objectives
- Internal Audits and Internal Auditor Training
- Corrective Action Process and nonconformance process
- Management Review Process

Upon completion of the Pre-assessment and/or Gap-Analysis, you will receive a comprehensive report that identifies the strengths and weaknesses (gaps) in your QMS. By resolving these findings, you will be better prepared for the certification process and increase the overall strength of your QMS.

If you have questions or are interested in learning more about these services, please contact us at 312.670.7520. Or if you would like to apply, please complete and submit an application to [application@aisc.org](mailto:application@aisc.org). We will then follow up with you directly on the next step.
