www.coreslab.com

Manufacturers of 4", 6", 8" and 10" hollow-core slabs for use in elevated floor and roofs, mezzanines, and parking decks.

FINTECH PRECAST, INC.

6761 Clear Creek Rd.
Redding, CA 96001
Ph: 530.241.8397
Fax: 530.241.3557
mdavis@fintechprecast.com
fintechprecast.com

For over 10 years, Fintech Precast, Inc. has supplied clients in southern Oregon, California and western Nevada with precast floor planks. They provide in-house design and engineering services and operate their own quality-control lab.

EAGLE PRECAST COMPANY

6087 W 5400 S
Salt Lake City, Utah 84118
Ph: 801.966.1060
eagleprecast.com

Eagle fabricates 8"- and 12"-thick by 8'-wide Spandek Brand hollow-core plank.

GATE CONCRETE PRODUCTS COMPANY (FLORIDA)

402 Heckscher Dr.
Jacksonville, FL 32226
Ph: 904.757.0860
Fax: 904.751.5435
jrichey@gatepetro.com
www.gatepetro.com

Gate produces a full line of prestressed and precast concrete products servicing the southeast United States. Included are 4", 6", 8", 10", 12", and 16" hollow-core plank.

Gate produces over 2,000,000 sq. ft of plank yearly.

GATE CONCRETE PRODUCTS COMPANY (NORTH CAROLINA)

3800 Oxford Loop
Oxford, NC 27565
Ph: 919.603.1633
Fax: 919.603.0580
dsadler@gatepetro.com
www.gateconcrete.com

Gate Concrete Products produces Gate-Core prestressed hollow-core slabs that come in various depths and are used as floor and roof units for hotels, motels, dormitories, apartments, prisons, jails and military housing.

GATE CONCRETE PRODUCTS COMPANY (TEXAS)

3201 Veterans Drive
Pearland, TX 77584
Ph: 281.485.3273
Fax: 281.485.7644
gatetexas@aol.com

Gate Concrete Products Company produces 4", 6", 8", 10" and 12" hollow-core plank. The 12"-thick material is capable of spanning a distance of 40' and supporting 100 lb. per sq. ft.

IOWA PRESTRESSED CONCRETE

601 SW 9th St.
Des Moines, IA 50309
Ph: 515.243.5118
Fax: 515.243.5502
ddoran@iowaconcrete.com
www.iowaconcrete.com

Hollow-core plank in 8", 10" and 12" depths, 4'-0" wide.

KERKSTRA/SPANCRETE GREAT LAKES

1330 Chicago Dr.
Jenison, MI 49428
Ph: 800.434.5830
Fax: 616.224.2651
spancrete@kerkstra.com
www.kerkstra.com

Kerkstra/Spancrete Great Lakes produces and erects hollow-core plank products in the Great Lakes Region. They have a design and engineering team available for assistance in building projects.

MID-STATES CONCRETE PRODUCTS COMPANY

P.O. Box 58
Beloit, WI 53512
Ph: 800.236.1072
Fax: 815.389.2339
hagen@midstatesconcrete.com
www.midstatesconcrete.com

Mid-States Concrete Products Company serves the Midwest construction market. The company manufactures Flexicore prestressed concrete slabs with 4'-wide extruded hollow-core elements.

MOLIN CONCRETE PRODUCTS CO.

415 Lilac St.
Lino Lakes, MN, 55014
Ph: 651.786.7722
Fax: 651.786.0229
sales@molin.com
www.molin.com

Molin produces 6", 8" 12", and 16" prestressed hollow-core concrete plank for floors and roofs. They have been producing precast/prestressed concrete products since 1952. Molin offers a drafting and engineering staff to provide CAD shop drawings and has seven installation crews.

PRODUCT HIGHLIGHTS

Concrete Plank Producers

NITTERHOUSE CONCRETE PRODUCTS, INC.

2655 Molly Pitcher Highway South
Chambersburg, PA 17201
Ph: 717.267.4505
Fax: 717.267.4518
MTaylor@Nitterhouse.com
www.Nitterhouse.com

Nitterhouse hollow-core plank is a precast concrete plank produced with normal-weight, high-strength (5,000 psi minimum) concrete. As decking, hollow-core provides a finished ceiling surface that can be used as installed, or painted or sprayed with an acoustical (or textured) spray. Hollow-core slabs can be drilled or shot to install electrical fixtures, and HVAC.

Hollow-core plank needs minimal concrete topping or leveling coat for applying smooth floor finishes (tile, marble or linoleum). For carpeting, even less preparation is required, depending upon camber. Typically, all that's required is feathering the joints with a latex cement or grout. The surface is then ready for application of a separate 48 oz. pad and carpet for a completely finished floor.

RINKER MATERIALS

Locations in NM, OK, KS, MO, IN, CO, NE, & KY
Ph: 800.840.5847
Fax: 816.802.3871
prestress@rinker.com
www.rinkerprestress.com

Rinker Materials produces 8"-thick hollow-core slabs in 4' to 8' sections depending on the producing plant capabilities. Contact the plant nearest you for product availability.

THE SPANCRETE GROUP, INC.

16 W23415 Stoneridge Drive
Waukesha, WI 53188
Ph: 414.290.9000
Fax: 414.290.9125
info@spancrete.com
www.spancrete.com

The Spancrete Group, Inc. is the parent company to Spancrete Industries, Inc., Spancrete, Inc., Spancrete of Illinois, Inc. Spancrete provides prestressed, precast hollow-core plank for buildings throughout the Midwest, including

parking structures, offices, schools, hotels, multi-family housing, hospitals, retail buildings, justice and manufacturing facilities.

STRESCORE, INC.

24445 State Road 23
South Bend, IN 46614
Ph: 574.233.1117
Fax: 574.288.0050
sales@strescore.com
www.strescore.com

Strescore provides precast prestressed hollow-core panels.

PRODUCT CASE STUDY

Milwaukee Marriott West

The Milwaukee Marriott West is a full-service hotel catering mostly to business clientele in the Waukesha, WI area. The steel framework, fabricated by AISC-member Merrill Iron and Steel of Schofield, WI, provides vertical stability, while hollowcore plank ties the beam lines together, preventing lateral movement. The steel frame and precast plank system meets the design requirements of this

large-scale project. Spancrete Industries, Inc. supplied the precast concrete materials for the hotel. The plank was used for the five above-ground levels as well as the roof of the hotel. Once the plank was installed and grouted, it provided cohesion and stability for the structure. Overall, Spancrete provided 180,000 sq. ft of hollow-core floor plank for this project. ★

Tulsa Dynaspan Inc. (TDI) produces precast/prestressed hollow-core plank at its 46-acre manufacturing site.

GOT A GREAT PRODUCT? TELL MODERN STEEL CONSTRUCTION!

Modern Steel Construction is seeking articles about innovative products that have important applications in the structural steel industry. If your company has a product that fits this description, and you'd like to see it in an upcoming issue of *MSC*, please submit a brief written description (no more than 500 words) of a real-life example of your product in action for *MSC*'s "Product Case Study" section. Photos should accompany all submissions. Stories, ideas, questions or concerns can be sent to Beth Pollak at pollak@modernsteel.com.
