EMPLOYMENT NATIONWIDE
IN STRUCTURAL/MISCELLANEOUS/ and STEEL BRIDGE FABRICATION

ProCounsel is in communication with over 3,000 Structural, Miscellaneous and Steel Bridge Fabricators. There is a big, urgent demand for your knowledge and your years of experience. We can market your skills to the steel fabrication industry without identifying you. Further, we can target a specific geographic area. So we can place you in the city or state of your choice, at the right money, in the right job for you. The employer pays the employment fee and the interviewing and relocation expenses. If you’ve been thinking of making a change, now is the time to do it. The right location, the right job, at the right money.

Taylor Technical Publications & Consultants
Helping steel fabricators comply with the
AISC Standard for Certification of Steel Building Structures
You may choose to have one of our Certification & Compliance Specialists work with you to complete any or all of the following:
• Conduct a GAP analysis of your documentation to the standard.
• Bring your quality manual and procedures into compliance.
• Conduct a pre-audit assessment to prepare your shop.
• Provide assistance during your formal audit.

Please contact Janette Taylor at 480/423-7072 or jtaylor@ttpcinc.com
Structural Design Engineer

SMI Joist Company is seeking to fill six (6) engineering positions at various locations in Arkansas and Nevada. Positions are available in Hope, AR; Jacksonville, AR; Rogers, AR; and Reno, NV.

Responsibilities for our Structural Design Engineers include, but are not limited to, designing and modifying steel joists and girders for stores, offices, churches, schools, casinos, convention centers, hospitals, gymnasiums, etc.

SMI Joist is a division of Commercial Metals Company (NYSE:CMC). CMC is a worldwide leader in the manufacturing, processing, trading, and distributing of steel, and primary and secondary metals. The CMC steel group, of which SMI is a part, consists of four steel minimills, 30 steel fabrication plants, five steel joist plants, and a castellated beam fabricating facility. CMC operating facilities are located in the United States and in Europe.

SMI Joists designs and fabricates open web steel joists and joist girders per the Steel Joist Institute’s (SJI) Standard Specifications. SMI Joist is an equal employment, affirmative action employer. Applicants will be considered for employment without regard to race, national origin, religion, age, sex, disability, or veteran status. Applicants should possess a BSCE degree and have a strong interest in designing steel structures. A successful applicant will be expected to achieve a passing score on the NCEES Engineering Intern Exam prior to or subsequent to employment. They should also be good self-motivators who are willing to work hard to assure that a task is completed correctly and on schedule. Mail, fax, or e-mail a copy of your resume to: Emily Gaughan (emily.gaughan@cmcsg.com) or Dr. Tom Straughan, P.E. (tom.straughan@cmcsg.com).

AutoSD Steel Detailing

AutoSD Steel Detailing is a program written to run inside AutoCAD 13-2002, LT 2000-2002 and IntelliCAD 98-2001 for detailing structural and miscellaneous steel, erection drawings, roof frames, embedded items and general editing, beams, columns, bracing, stairs, stair rails, wall rails, ramp rails, ladders and hip and valley.

Automatic detailing is done with a minimum of input. You configure the program to your detailing requirements. It has Beam to Beam, Beam to Column and Vertical Braces to Column connection matching. Carry beam, column, and brace connection marks, perform piece carry match, import detail files created by SDS/2, Kistel, SteelCAD and CVSpro for editing. Extract shop bill information for import into material manager program by E. J. E. Industries and FabTrol. Backed by a 45 day money back guarantee, no maintenance fees, and free telephone support to ensure your satisfaction.
