AMERICAN INSTITUTE OF STEEL CONSTRUCTION (AISC) DIRECTOR OF TECHNOLOGY INITIATIVES

We are looking for a talented individual with project management experience, preferably in the architectural, engineering, and construction industry.

Essential duties and responsibilities include the following:

- As secretary of the AISC Information Technology Committee, work closely with the Chairman to coordinate meetings, strategic planning review, and all sub-committee activity.
- Proactively identify and communicate information technologies that support AISC business goals and strategies in conjunction with AISC IT Committee.
- Define and present recommended initiatives to the Strategic Planning Committee for funding.
- Manage full life cycle development of approved AISC IT Strategic Initiatives including CAD interoperability standards, XML e-commerce standards, and web-related technologies.
- Give presentations on AISC IT Initiatives at industry-related conferences, meetings and events.
- Identify, procure and manage all required vendors and consultants for AISC Technology Initiatives.

Requirements:

- Minimum 3 years architectural, engineering, and/or construction project management experience or
- Minimum 3 years CAD design or drafting experience or
- Minimum 3 years XML-based e-commerce development
- Construction industry-related standards experience preferred
- Bachelor of Science in IT, Engineering, or Project Management with Masters degree preferred

We offer a competitive salary and excellent benefits package.
Send resumes and salary requirements to DirTechInitiatives@aisc.org.

**EMPLOYMENT NATIONWIDE
IN STRUCTURAL/MISCELLANEOUS/ and STEEL BRIDGE
FABRICATION**

ProCounsel is in communication with over 3,000 Structural, Miscellaneous and Steel Bridge Fabricators. There is a big, urgent demand for your knowledge and your years of experience. We can market your skills to the steel fabrication industry without identifying you. Further, we can target a specific geographic area. So we can place you in the city or state of your choice, at the right money, in the right job for you. The employer pays the employment fee and the interviewing and relocation expenses. If you've been thinking of making a change, now is the time to do it. The right location, the right job, at the right money.

AutoSD Steel Detailing

AutoSD Steel Detailing runs inside AutoCAD 14 - 2005, LT 2000 - 2005 and IntellCAD for detailing structural and miscellaneous steel, roof frames, embedded items, beams, columns, bracing, stairs, stair rails, wall rails, ramp rails, ladders, hip and valley, creating erection drawings and general editing.

Automatic detailing is done with a minimum of input. You configure the program to your detailing requirements. It has Beam to Beam, Beam to Column and Vertical brace to Column connection matching. Carry through piece marks. Import dxf files created by SDS/2, Xsteel, Steelcad and CVSPRO for editing. Extract shop bill information for import into material manager program by E. J. E. Industries and FabTrol. Extract CNC data for Franklin drill line and Peddimat. Backed by a 45 day money back guarantee and free telephone support.

Structural Design Engineer

SMI Joist Company is seeking to fill six (6) engineering positions at various locations in Arkansas and Nevada. Positions are available in Hope, AR; Jacksonville, AR; Rogers, AR; and Reno, NV.

Responsibilities for our Structural Design Engineers include, but are not limited to, designing and modifying steel joists and girders for stores, offices, churches, schools, casinos, convention centers, hospitals, gymnasiums, etc.

SMI Joist is a division of Commercial Metals Company (NYSE:CMC). CMC is a worldwide leader in the manufacturing, processing, trading, and distributing of steel, and primary and secondary metals. The CMC steel group, of which SMI is a part, consists of four steel minimills, 30 steel fabrication plants, five steel joist plants, and a castellated beam fabricating facility. CMC operating facilities are located in the United States and in Europe.

SMI Joist designs and fabricates open web steel joists and joist girders per the Steel Joist Institute's (SJI) Standard Specifications. SMI Joist is an equal employment, affirmative action employer. Applicants will be considered for employment without regard to race, national origin, religion, age, sex, disability, or veteran status. Applicants should possess a BSCE degree and have a strong interest in designing steel structures. A successful applicant will be expected to achieve a passing score on the NCEES Engineering Intern Exam prior to or subsequent to employment. They should also be good self-motivators who are willing to work hard to assure that a task is completed correctly and on schedule. Mail, fax, or e-mail a copy of your resume to: Emily Gaughan (emily.gaughan@cmcs.com) or Dr. Tom Straughan, P.E. (tom.straughan@cmcs.com).

SMI Joist Company
P.O. Box 2000
Hope, Arkansas
