Competitive salary, benefits and retirement plan. Visit www.sspa.biz to browse our portfolio. Send resume to:

Structural Solutions, PA.
5921-G West Friendly Ave., Greensboro, NC 27410
fax to 336-856-2687 or e-mail to jobs@sspa.biz.

AutoSD Steel Detailing

AutoSD Steel Detailing runs inside AutoCAD 14 - 2005, LT 2000 - 2005 and IntelliCAD for detailing structural and miscellaneous steel, roof frames, embedded items, beams, columns, bracing, stairs, stair rails, wall rails, ramp rails, ladders, hip and valley, creating erection drawings and general editing.

Automatic detailing is done with a minimum of input. You configure the program to your detailing requirements. It has Beam to Beam, Beam to Column and Vertical brace to Column connection matching. Carry through piece marks. Import dxf files created by SDS/2, Xsteel, Steelcad and CVSpr for editing. Extract shop bill information for import into material manager program by E. J. E. Industries and FabTrol. Extract CNC data for Franklin drill line and Peddimat. Backed by a 45 day money back guarantee and free telephone support.

AutoSD, Inc. 8203 LIZELIA RD, MERIDIAN, MS 39305

EMPLOYMENT NATIONWIDE IN STRUCTURAL/MISCELLANEOUS/ and STEEL BRIDGE FABRICATION

ProCounsel is in communication with over 3,000 Structural, Miscellaneous and Steel Bridge Fabricators. There is a big, urgent demand for your knowledge and your years of experience. We can market your skills to the steel fabrication industry without identifying you. Further, we can target a specific geographic area. So we can place you in the city or state of your choice, at the right money, in the right job for you. The employer pays the employment fee and the interviewing and relocation expenses. If you've been thinking of making a change, now is the time to do it. The right location, the right job, at the right money.

POSITION OPEN

President—American Institute of Steel Construction, Inc.

AISC seeks a dynamic leader to advance the industry's efforts to grow steel's share of the construction market. AISC's president has direct responsibility for establishing and updating the Institute's Long Range Strategic Plan as well as overall responsibility for all AISC departments and activities. The successful candidate will have a track record of success in managing a complex and expanding organization and in maintaining and growing profit centers. The president must be able to lead a high-energy, aggressive, technical and marketing staff and must have both technical and financial expertise. A familiarity with AISC and the steel industry is important—but equally critical is a vision for the future of the Institute. Fabrication or steel industry experience is needed and a civil/structural degree is preferred. Please send resume and cover letter to Jim Stori, AISC Chairman, c/o STS Steel, 301 Nott Street, Bldg. #304, Schenectady, NY 12305.

Regional Engineer—Northeast

Have you ever thought about utilizing your structural engineering background and knowledge in a different way? **RAM International**, a leading structural engineering software company, is looking for a self-motivated and dynamic structural engineer to join our sales staff of Regional Engineers. Job location: Northeast United States.

Qualified candidates for this position will have:

- A bachelor's or advanced degree in structural engineering
- 3+ years of practical design experience in any type of structural design
- Professional Engineer's registration
- Extensive experience with engineering software products in general and RAM International software products in particular
- Experience with AutoCAD is not required but is desirable
- Sales experience is not required—extensive sales training will be provided
- An aptitude for excellent customer service and attention to detail
- Excellent written, verbal, and interpersonal communications skills
- Extensive travel required

This is a highly responsible and largely independent position. If you are interested in joining our team and you meet the qualifications above, please send us your resume to gus@ramint.com. See our website at www.ramint.com.

RAM International provides a full benefits package including health plan, tuition reimbursement and 401K.

Structural Steel Estimator

Well-established steel fabricator in Coastal Mid-Atlantic region is seeking an estimator with 5 to 10 years' experience with SDS II and/or Fabtrol estimating programs. Steady employment with paid vacations and holidays, health and life insurance, 401-K profit sharing and dental plan. Salary commensurate with experience.

Fax resume and salary requirements to: 757.628.0145
