

Quality

CERTIFIED

2005 listing

Erectors

Each June, *Modern Steel Construction* publishes a list of AISC Quality Certified erectors. For an up-to-the-minute listing and more detailed information on Quality Certification, visit [AISC Quality Certification on the web at www.aisc.org/quality](http://www.aisc.org/quality) or send an e-mail to certification@aisc.org.

What is a Certified Steel Erector (CSE)?

- Erection contractors providing services necessary for erection of structures, including, but not necessarily limited to, schools, shopping centers, light manufacturing plants, warehouses, low-rise beam-and-column structures, light truss structures, simple non-continuous bridges, and steel-framed buildings up to 10 stories high.
- Management has expressed its commitment to quality and safety.

What is an Advanced Certified Steel Erector (ACSE)?

- Erection contractors providing services necessary for erection

of structures, including, but not necessarily limited to, large public and institutional buildings, heavy manufacturing plants, bunkers and bins, major bridges, continuous-girder bridges, railroad bridges, power houses, major industrial facilities, locks and dams, high-rise structures greater than 10 stories, and repair and rehabilitation of existing steel structures. Complex site-specific erection plans are typical, as well as the ability to erect over water.

- Management has expressed its commitment to quality and safety.
- The organization understands the procedures involved and has ready access to the requisite talent, resources, and experience necessary to erect complex steel structures involving techniques such as construction from water, staged construction for maintaining traffic, coordination with railroads, composite construction, concrete-core construction, close tolerance erection (as in architecturally exposed structural steel), and use of gantry and other specialized crane systems. ★

Certified Steel Erectors (CSE)

Company	Location	Phone
Building Erection Services Co., Inc.	Olathe, KS	913.764.5560
C.S.E. Inc.	Williston, VT	802.864.1812
D&E Steel Services, Inc.	Denver, CO	303.427.4804
D.E.W. Steel Contractors, Inc.	Hollsopple, PA	814.479.2275
Doherty Ornamental Iron, Inc.	Paola, KS	913.557.9200
Keith Mosley Construction, Inc.	Saraland, AL	251.679.0265
Lawson Steel Erection Company	Belton, MO	816.322.2624
