EMPLOYMENT NATIONWIDE IN STRUCTURAL/MISCELLANEOUS/ and STEEL BRIDGE FABRICATION

ProCounsel is in communication with over 3,000 Structural, Miscellaneous and Steel Bridge Fabricators. There is a big, urgent demand for your knowledge and your years of experience. We can market your skills to the steel fabrication industry without identifying you. Further, we can target a specific geographic area. So we can place you in the city or state of your choice, at the right money, in the right job for you. The employer pays the employment fee and the interviewing and relocation expenses. If you've been thinking of making a change, now is the time to do it. The right location, the right job, at the right money.

Industry Mobilization Director

Are you a **sales and marketing professional** looking for a new challenge that is different and exciting? Do you enjoy thinking strategically, working against long term goals, helping others transition their skill sets, juggling multiple tasks, and managing numerous high-level relationships? Can you motivate volunteers to achieve new goals and help strengthen an entire industry? Do you understand how to reach key project decision makers? Are you ready to step out of your comfort zone and learn more about structural steel than you ever dreamed there was to learn?

The structural steel industry is looking for the right person to take the lead in **mobilizing industry sales resources** to focus their talents on making structural steel the material of choice. This will involve training and motivating sales professionals to look outside of their typical customer base and develop upstream relationships with owners, general contractors, architects and engineers.

The **American Institute of Steel Construction**, founded in 1921 as the trade association for the structural steel industry, is pioneering a new Industry Mobilization initiative and looking for a seasoned sales and marketing professional as initiative director. The ideal candidate will have a bachelor's degree with at least 10 years of experience marketing solutions to building owners, developers, architects, general contractors and structural engineers. An exposure to structural engineering and the use of structural steel in construction would be beneficial. Strong communication, teaching and computer skills are a must. The position is Chicago based but will require significant travel throughout the United States.

To submit your resume for consideration or to request a full job description, please contact John Cross, Vice President, AISC Marketing LLC at cross@aisc.org.

STRUCTURAL ENGINEER and DRAFTPERSON

The **New Columbia Joist Company** is a steel joist manufacturer located in Central Pennsylvania at the intersection of Routes 80 and 15. We supply fabricated steel joist products for use in commercial and institutional facilities. We are currently seeking to expand our technical staff. Please see our home page for more information about our company: www.njb-united.com

STRUCTURAL ENGINEER

Primary responsibilities of the position include analyzing, designing and preparing documents for use in the fabrication process. Other duties include occasional travel to job sites and involvement with industry associations.

Position requires extensive knowledge of structural steel design. A degree in Civil or Architectural Engineering or Technologies is ideal. Professional registration a plus, but not required.

DRAFTPERSON

This position requires the use of AutoCad to prepare steel joist detail drawings. Detail drawings consist of placement plans, connection details and bills of material for steel joists and joist-related products. This position reviews structural, architectural, and contract documents. The ability to learn technical information regarding structural steel is required to succeed in this position. An Associates Degree in Computer Aided Drafting is preferred; experience in construction or steel detailing and strong Excel skills are a plus.

We offer competitive salary, profit sharing, benefit package and tuition reimbursement. Please direct resumes to:
