Do you think you need
a consultant
to become AISC Certified?
Think again!

Visit www.qmconline.com for samples of most of the documentation required for AISC Certification. You'll find:

- a sample quality manual, including instructive comments
- sample procedures, with guidance on writing procedures
- required references for your library
- sample equipment lists and facility plans
- samples of internal audits

For useful tips on finding the right consultant, visit www.qmconline.com/thinkagain.

And if you have questions about becoming AISC Certified, contact 312.670.7520. At Quality Management Company, we're here to help!

Sales Manager/Marketing Engineer

Established AISC Certified structural steel fabricator, specializing in design-build projects, is searching for a Sales Manager/Marketing Engineer to run our Denver/Northern Colorado office. Qualified candidates must have a strong working knowledge of structural steel design and must be able to communicate effectively with our customers (general contractors, architects, and engineers).

Position requires a self-motivated individual with high customer management skills who will be responsible for actively pursuing negotiated design-build and design-assist projects through early involvement assistance in structural design.

Individual must be able to provide rough budgetary numbers and offer alternative and creative solutions to structural design problems and concerns for projects in their early stages, provide value engineering ideas and figures in later stages, and must help to develop, coordinate, and present final sales proposals, including follow-up and answer questions.

Individual must have the ability to work with design teams outside the company; must become a valued, essential, and necessary member of our customer's design team, as well as represent our own design-build team.

P.E. is preferred. Some travel is required. Salary to six digits; health and dental; 401k; paid vacations.

Please send resume to: eric.lewis@pumasteel.com or
