

2006 Structural Steel Detailers

AISC and NISD Members

MODERN STEEL CONSTRUCTION'S 2006 STEEL DETAILER LISTING features up-to-date contact information for AISC Associate member detailers and NISD members, as well as AISC Active member fabricators that indicated they provide outside detailing services.

This listing is meant to serve as a reference for members of the steel design and construction community as they seek out detailing services for upcoming projects.

Next year, this listing is planned to exclusively feature AISC Associate member detailers and AISC Active members that provide outside detailing services. The detailer survey—which in the past provided information about the responding firms' sizes, detailing capabilities, and software experience, among other information—will also return to present a detailed look at AISC's member detailing firms.

If you would like to become an AISC Associate Member detailer, please contact Kelly Butler, AISC Membership Services Assistant, at butler@aisc.org or at 312.670.5409 for more information.

Key to Membership (Mem.) Abbreviations

- A** AISC Associate Member detailer
- N** NISD Member
- A-ACT** AISC Active Member fabricator accepting detailing work.
