

### RISA Technologies—Marketing and Support Engineers

RISA Technologies has openings for marketing and technical support engineers. This position involves marketing, client presentations and support for RISA Technologies' many industry-leading software products.

We're looking for candidates with at least a BS degree in structural or civil engineering with two or more years of practical design experience. Professional registration is a plus, as is an MS degree. Good communication skills, both written and verbal, are required. This position involves some travel and attendance at client facing events. Generous salary and benefits. If you are looking for a position in a dynamic, fast-growing company in beautiful Southern California, this may be the job for you! Receive a \$1,000 referral fee if you recommend someone we hire!

E-mail resumes to: resumes@risatech.com  
Fax resumes to: 949.951.5848

Be sure to include a cover letter explaining why you want to work for RISA Technologies.

#### DETAILER WANTED

## Career Opportunities

### Position Available:

#### Fabrication Shop Manager for Cianbro's Baltimore Plant

The Baltimore Fabrication and Coatings Shop Manager will be expected to implement the current initiatives and efforts with continuous improvements in safety and productivity. He/she will be expected to grow the current team for fabricators, welders, and painters, doing about \$10 million per year in volume to double in size within the next 2-3 years by increasing customer base, training, and coaching and mentoring current team members. He/she will also be expected to maintain Cianbro values of accountability and continuous improvement while treating all team members with dignity and respect.

### The ideal candidate would have the following qualifications:

- Proven track record setting and achieving safety and productivity standards
- Three to four years' experience as a working fab shop foreman
- Fifteen years' minimum hands-on steel fabrication experience
- Extensive experience with beam and column work and plate work
- Knowledge of Fabtrol Project Management Systems is helpful
- Knowledgeable in fabrication unit costs and pricing
- In-depth knowledge of fabrication means and methods and best practices
- Proven track record in meeting schedules and budgets

Send resumes to:

### CIANBRO

## Florida Area Marketing Representative

Are you a **sales and marketing professional** looking for a new challenge that is different and exciting? Are you good at promotion, overcoming roadblocks, working with diverse teams, juggling multiple tasks, and managing numerous high-level relationships? Are you ready to take the lead in growing the Florida construction market for structural steel?

The **American Institute of Steel Construction**, founded in 1921 as the trade association for the structural steel industry, is looking for the right person as a Florida Area Marketing Representative. Your success will depend on your ability in developing and maintaining relationships with key influencers, pursuing projects, working with local media, and coordinating local promotional opportunities. The ideal candidate will be a seasoned sales and marketing professional possessing a bachelor's degree with at least eight years of experience marketing solutions to building owners, developers, architects, general contractors, and structural engineers. Strong communication and computer skills are a must.

**To submit your resume for consideration and request a full description of this Florida-based position, please contact John Cross, Vice President, AISC Marketing LLC at [cross@aisc.org](mailto:cross@aisc.org). EOE**
