AutoSD Steel Detailing

AutoSD Steel Detailing runs inside AutoCAD 14 - 2005, LT 2000 - 2005 and IntelliCAD for detailing structural and miscellaneous steel, roof frames, embedded items, beams, columns, bracing, stairs, stair rails, wall rails, ramp rails, ladders, hip and valley, creating erection drawings and general editing.

Automatic detailing is done with a minimum of input. You configure the program to your detailing requirements. It has Beam to Beam, Beam to Column and Vertical brace to Column connection matching. Carry through piece marks. Import dxf files created by SDS/2, Xsteel, Steelcad and CVSPRO for editing. Extract shop bill information for import into material manager program by E. J. E. Industries and FabTrol. Extract CNC data for Franklin drill line and Peddimat. Backed by a 45 day money back guarantee and free telephone support.

Are you thinking of becoming AISC Certified?

Quality Management Company can help!

Writing your own Quality Manual may be easier than you think. QMC Online (www.qmconline.com) has a multitude of free resources that can save you time and money preparing your documentation required for AISC Certification. At QMC Online, you'll find:

- A downloadable sample quality manual geared to both large and small fabricators, that includes instructive comments from QMC
- Sample procedures with guidance on how to write them effectively
- Required references that meet current codes and standards for your library
- Answers to over 100 frequently asked questions
- Samples of internal audits and more

Make QMC Online your first stop when considering AISC Certification, or call 312.670.7520.

Real3D-Analysis 2.5...

The most user-friendly, most accurate structural analysis and design software is now affordable to any structural engineer...

- frame, plate/shell and solid elements with static, p-delta and frequency analyses
- unique, extremely accurate 128-bit floating point solver (in addition to 64-bit solver)
- concrete design module including exact column p-mx-my interaction diagrams
- multiple documents may be opened and worked on simultaneously
- easy to use command window as well as graphical or spreadsheet modes
- quality interactive graphical display built upon industrial strength OpenGL® engine

WANTED

QUALITY-CONSCIOUS, GOAL-ORIENTED, AND PROACTIVE STRUCTURAL STEEL FABRICATORS COMMITTED TO QUALITY WANTED FOR AISC QUALITY CERTIFICATION PROGRAM. AISC is looking for capable fabricators of any size interested in reinforcing their positive reputation within their local market by implementing a quality management system addressing all aspects of their business processes. Candidates must be willing to subject themselves to a rigorous annual third-party independent audit. Successful candidates will become AISC Certified, proving to specifiers, contractors and owners that they have the personnel, experience, equipment and knowledge to deliver a quality product. All interested applicants please contact AISC at 312.670.7520 or certinfo@aisc.org.

Nesting Software

The **Optimal Cutting Program (OCP)** by SoftLOGIX for nesting (Mulling) linear material can use on-hand material and provide a list of material to be ordered in stock lengths. Piece mark, length and quantity to be cut from each ordered or on-hand material is indicated.

OCP requires no set up and is immediately useable. Configurable units for Feet-inches, Millimeters and Decimals. OCP can accept data from a KISS file, a SteelLOGIC file or manual entry. Only \$279.95 for manual entry and \$349.95 for the KISS version.

To download a free trial version go to www.SoftLogix.com.

Detailers & Checkers

Are you interested in working on the largest industrial and commercial steel projects in the country? Due to the tremendous continued growth of our company, Merrill Iron & Steel, Inc., needs to expand our group of highly motivated, quality driven Steel Detailers and Checkers. If you are looking to be part of a fun, flexible working environment and earn up to \$65,000+ per year, depending on experience, this opportunity is for you.

We work on a variety of projects, from large industrial ductwork and structural steel, to sports complexes and high-rise buildings. Our group of Detailers and Checkers are well trained and motivated to provide the highest quality drawings. Opportunities to advance are available and encouraged and we promote from within. We offer a flexible work schedule, excellent benefits with the Company paying over 85% of the premium cost for health and dental insurances. Also included are 401(k) with company match, paid holidays and vacation time. You will also enjoy excellent job security with our company – we have been in business for 44 years.

We are looking for meticulous, detailed oriented individuals in the steel detailing industry, who enjoy working with others on challenging projects. We prefer applicants with technical training in structural steel with related job experience. Experience in industrial, structural, and ductwork detailing and checking, as well as SDS/2, are tremendous assets. Please forward this ad to other appropriate friends and colleagues that may be interested. We keep all inquires confidential, so please apply.

Applications can be sent, for your convenience, by fax to (715)-355-0495, email to jobs@merrilliron.com, or mail to:

Steel Solutions Center Advisor

Creative! Helpful! Competent! Quick! Computer Savvy! Aggressive!

If those words describe you as a structural engineer, then the **AISC Steel Solutions Center** is the next step in advancing your career. We currently have an opening for a Solutions Advisor. You will work with design and construction industry professionals in identifying and proposing innovative steel solutions for real world projects. Using your technical design experience and skills you will create conceptual solutions and identify ways of lowering costs and accelerating project schedules. In the Steel Solutions Center you will regularly be exposed to dozens of projects and develop professional contacts with industry leaders.

The **Steel Solutions Center** is looking for a graduate structural engineer with a minimum of three years of design experience. AISC is a great working environment offering professional development opportunities, flexibility, excellent resources and a competitive salary with an excellent benefit package.

Send resumes to Jason Ericksen at ericksen@aisc.org.

Regional Engineer – Pacific Northwest

Are you an engineering professional looking for a new challenge that is different and exciting? Are you good at promotion, overcoming roadblocks, working with diverse teams, juggling multiple tasks and managing numerous high level relationships? Are you ready to take the lead in growing the construction market in the Pacific Northwest for structural steel?

The **American Institute of Steel Construction, Inc.**, founded in 1921 as the trade association for the structural steel industry, is looking for the right person to take the lead in promoting the use of structural steel in Washington, Oregon, Northern California, Idaho, Montana and Alaska. Your success will depend on your ability in developing and maintaining relationships with key influencers, pursuing and influencing projects, working with owners and architects, making presentations, conducting seminars, assisting structural steel fabricators with promotional and business development programs and serving on key industry committees. The ideal candidate will be a civil or structural engineer with a minimum of five years experience in building design, construction and/or fabrication and a passion for consultative marketing. Strong communication and computer skills are a must.

To submit your resume for consideration and request a full description of this position, please contact John Cross, Vice President, AISC Marketing LLC at cross@aisc.org. e/o/e
