## AISC

### Structural Engineer

AISC needs your technical expertise and creativity in the Steel Solutions Center. As an Advisor, you will work with design and construction industry professionals in identifying and proposing innovative steel solutions for real-world projects. Using your technical design skills you will create conceptual framing solutions and identify ways of lowering costs and accelerating project schedules. Make AISC the next step in advancing your career and help us serve the needs of the construction industry.

The Steel Solutions Center is looking for a structural engineer with a minimum of three years of experience in consulting design or project management. AISC is a great working environment offering flexibility, professional development opportunities, excellent resources, and a competitive salary with an excellent benefit package.

Send resumes to Jason Ericksen, S.E., at [ericksen@aisc.org](mailto:ericksen@aisc.org).

## THE WEITZ COMPANY

### Project Manager

The Weitz Company is a leading \$1.1 billion employee owned construction services organization located throughout the United States. For 150 years The Weitz Company has operated with honesty, integrity, and performed with absolute reliability. Our future, like our past, is built on successful relationships and by exceeding our customers' expectations. We are currently seeking an experienced Project Manager for our Construction Products Distributors/RW Metals Business Unit located in Des Moines, IA.

#### Summary

The Project Manager will be responsible for profitably managing all administrative and field construction activities related to assigned projects. In addition, responsibilities will include preparing procedures and/or job progress reports, monitoring job cost & work status, preparing a project safety plan, maintaining a working relationship with owners/architects/vendors/subcontractors, creating project schedules, and change orders management.

#### Qualifications

- An industry related college degree is highly preferred.
- 5+ year's extensive construction experience in all facets of the project including project management.
- Experience in safety/preconstruction/staff development & retention/customer interaction.

Interested candidates may apply online at [www.weitz.com](http://www.weitz.com). Weitz Company is a drug free working environment.

## Regional Engineer – Pacific Northwest

Are you an engineering professional looking for a new challenge that is different and exciting? Are you good at promotion, overcoming roadblocks, working with diverse teams, juggling multiple tasks and managing numerous high level relationships? Are you ready to take the lead in growing the construction market in the Pacific Northwest for structural steel?

The **American Institute of Steel Construction, Inc.**, founded in 1921 as the trade association for the structural steel industry, is looking for the right person to take the lead in promoting the use of structural steel in Washington, Oregon, Northern California, Idaho, Montana and Alaska. Your success will depend on your ability in developing and maintaining relationships with key influencers, pursuing and influencing projects, working with owners and architects, making presentations, conducting seminars, assisting structural steel fabricators with promotional and business development programs and serving on key industry committees. The ideal candidate will be a civil or structural engineer with a minimum of five years experience in building design, construction and/or fabrication and a passion for consultative marketing. Strong communication and computer skills are a must.

To submit your resume for consideration and request a full description of this position, please contact **John Cross, Vice President, AISC Marketing LLC** at **cross@aisc.org**. e/o/e

## Regional Sales

Novum Structures is a leader and innovator in specialty glass/steel structures, framing and cladding systems. Our reach is international, our imagination and technical skill much admired. We are expanding our professional US sales team. These individuals will be responsible for:

- cultivating /developing regional architects, key engineering and commercial accounts;
- developing formal presentations, tracking bid dates and bid strategies;
- qualifying and defining client service requirements.

The positions require current knowledge of engineering, materials and contracting requirements, and demonstrated knowledge of high-profile commercial construction. Locations in Miami and Chicago.

Direct resume/salary information to **resumes@novumstructures.com** and learn about us at **www.novumstructures.com**. We respect all EOE and AA guidelines in support of a diverse workforce.

## ATTENTION STRUCTURAL ENGINEERS

**Do you have a "road map" for your career plans?**

**How can you use your abilities to improve your career?**

Have you charted out a path to further your career development? Every person has different goals and talents. I've worked with thousands of structural engineers and can assist you in finding ways to exceed your goals!

My qualifications:

- 11+ years experience at a leading structural software company helping thousands of structural engineers
- Prior experience as a structural design engineer
- A licensed engineer that understands the competencies unique to structural engineering

If you are wondering how to put your career in overdrive, **call me TODAY** to discuss how SE Solutions can help you put together a plan to dramatically exceed your career goals.
