Are you thinking of becoming AISC Certified?

Quality Management Company can help!

Writing your own Quality Manual may be easier than you think. QMC Online (www.qmconline.com) has a multitude of free resources that can save you time and money preparing your documentation required for AISC Certification. At QMC Online, you'll find:

- A downloadable sample quality manual geared to both large and small fabricators, that includes instructive comments from QMC
- Sample procedures with guidance on how to write them effectively
- Required references that meet current codes and standards for your library
- Answers to over 100 frequently asked questions
- Samples of internal audits and more

Make QMC Online your first stop when considering AISC Certification, or call 312.670.7520.

AISC

Structural Engineer

AISC needs your technical expertise and creativity in the Steel Solutions Center. As an Advisor, you will work with design and construction industry professionals in identifying and proposing innovative steel solutions for real-world projects. Using your technical design skills you will create conceptual framing solutions and identify ways of lowering costs and accelerating project schedules. Make AISC the next step in advancing your career and help us serve the needs of the construction industry.

The Steel Solutions Center is looking for a structural engineer with a minimum of three years of experience in consulting design or project management. AISC is a great working environment offering flexibility, professional development opportunities, excellent resources, and a competitive salary with an excellent benefit package.

Send resumes to **Jason Ericksen, S.E.**, at ericksen@aisc.org.

Regional Engineer – Pacific Northwest

Are you an engineering professional looking for a new challenge that is different and exciting? Are you good at promotion, overcoming roadblocks, working with diverse teams, juggling multiple tasks and managing numerous high level relationships? Are you ready to take the lead in growing the construction market in the Pacific Northwest for structural steel?

The **American Institute of Steel Construction, Inc.**, founded in 1921 as the trade association for the structural steel industry, is looking for the right person to take the lead in promoting the use of structural steel in Washington, Oregon, Northern California, Idaho, Montana and Alaska. Your success will depend on your ability in developing and maintaining relationships with key influencers, pursuing and influencing projects, working with owners and architects, making presentations, conducting seminars, assisting structural steel fabricators with promotional and business development programs and serving on key industry committees. The ideal candidate will be a civil or structural engineer with a minimum of five years experience in building design, construction and/or fabrication and a passion for consultative marketing. Strong communication and computer skills are a must.

To submit your resume for consideration and request a full description of this position, please contact **John Cross, Vice President, AISC Marketing LLC** at cross@aisc.org. e/o/e
