## Quality Management Company can help!

Writing your own Quality Manual may be easier than you think. QMC Online ([www.qmconline.com](http://www.qmconline.com)) has a multitude of free resources that can save you time and money preparing your documentation required for AISC Certification. At QMC Online, you'll find:

- A downloadable sample quality manual geared to both large and small fabricators, that includes instructive comments from QMC
- Sample procedures with guidance on how to write them effectively
- Required references that meet current codes and standards for your library
- Answers to over 100 frequently asked questions
- Samples of internal audits and more

Make QMC Online your first stop when considering AISC Certification, or call 312.670.7520.

## WANTED

**QUALITY-CONSCIOUS, GOAL-ORIENTED, AND PROACTIVE STRUCTURAL STEEL FABRICATORS COMMITTED TO QUALITY WANTED FOR AISC QUALITY CERTIFICATION PROGRAM.** AISC is looking for capable fabricators of any size interested in reinforcing their positive reputation within their local market by implementing a quality management system addressing all aspects of their business processes. Candidates must be willing to subject themselves to a rigorous annual third-party independent audit. Successful candidates will become AISC Certified, proving to specifiers, contractors and owners that they have the personnel, experience, equipment and knowledge to deliver a quality product. All interested applicants please contact AISC at 312.670.7520 or [certinfo@aisc.org](mailto:certinfo@aisc.org).

## AISC Engineering & Research Dept. Senior Engineer

How would you like to help write the next AISC Manual? If you are looking for the next step in your career, have excellent people skills, and like new challenges, AISC is the place for you. AISC is now seeking applicants for a Senior Engineer position in the AISC Engineering & Research Dept. This is a unique opportunity to apply your design experience in developing AISC's Specifications, Manuals, Design Guides, and other technical publications. You will work with the top engineers, educators and leaders in the North American steel design and construction industry, and will be in a position to establish yourself as an expert in steel design. The position will allow you to use your technical expertise and background to develop tools that benefit the entire structural engineering community and structural steel industry.

Applicants should have a BS degree with structural emphasis in architectural or civil engineering, with an MS or M. Eng. preferred, and a minimum of 3 to 5 years of design experience is required. AISC provides a great working environment offering professional development opportunities, flexibility, excellent resources and a competitive salary with an excellent benefit package.

Send resumes to Cynthia Duncan at [duncan@aisc.org](mailto:duncan@aisc.org).

## PAPP IRON WORKS, INC. Misc. Metals Estimator

One of New Jersey's leading miscellaneous iron fabricator/erectors with 60-year history of winning performance seeks an experienced estimator with proven ability. Candidate should have minimum 4 years experience with miscellaneous metal take-offs, pricing and sales. Engineering knowledge helpful. Great opportunity. Full benefits including 401(k), company paid medical and life insurance, plus a signing bonus. Send resume along with salary history to:

### Project Manager/Detailers/Checkers

**SteelStar Corporation** is an aggressively growing detailer/fabricator/erector (16-20 Million/Annually) in the Denver Metro area along the beautiful Front Range of Colorado.

#### Project Manager (\$65-95K Annually)

We are currently seeking an aggressive and skilled project manager with experience in low to mid rise commercial/industrial, miscellaneous and architectural/ornamental metals projects from 500-2000 Tons.

The successful candidate must have a minimum of five years experience in construction project management. Requirements to include, but are not limited to; excellent computer/technical skills, organizational skills, scheduling skills and documentation skills as well as great communication and customer service skills. Most important of all, the successful candidate must have a great attitude! An Associates or Bachelors degree is required; this may be waived in lieu of experience. Relocation to Colorado Required. Must have excellent references and project track record.

#### Detailers/Checkers (\$15-\$35 Per/Hour)

We are currently seeking (3) skilled Tekla (Xsteel) and (4) AutoCAD/AutoSD detailers & checkers with experience in low to mid rise commercial/industrial, miscellaneous and architectural/ornamental metals projects up to 2000 Tons.

The successful candidate must have a minimum of (3) year's structural and/or miscellaneous steel detailing experience. Requirements include, but are not limited to; excellent computer/technical skills and Tekla or AutoCAD experience. Most important of all, the successful candidate must have a great attitude! Relocation to Colorado Required. Candidate must be able to provide excellent references and drawing examples. All candidates must be currently eligible to work in the United States.

**We offer** the security of a financially stable company, profit sharing, competitive wages, relocation reimbursement, medical benefits, 401K, paid holidays and paid leave time, and most of all, a fun place to work with opportunity for advancement. Please send resume to: SteelStar Corporation, P.O. Box 218 - Dacono, CO 80514 Attn: Employment - Fax 303.828.4092 or email [employment@steelstar.com](mailto:employment@steelstar.com). Visit us @ [www.steelstar.com](http://www.steelstar.com).

### The Steel Deck Institute – Technical Director

The Steel Deck Institute (SDI), the trade association responsible for setting standards for the steel deck industry, is currently seeking qualified candidates for the position of Technical Director. The Technical Director is responsible for coordinating the Institute's technical committees and research programs, the presentation of technical seminars, representing SDI and participating in activities of other organizations such as AISI, AISC and ICC, providing engineering assistance to design professionals and managing special projects such as updating ANSI/SDI standards.

Qualified candidates should possess a BS in Civil or Structural Engineering. Professional Engineer's License or the ability to be registered is required. Experience in cold-formed steel design or metal building industry is also a plus. Strong communication, organizational, presentation and computer skills a must as well as the ability to work with limited supervision. Relocation to the Chicago, IL suburban area is preferred.

We offer a competitive compensation package including medical insurance and paid vacation.

Applicants should mail, fax or email resumes (in confidence) to:

Steel Deck Institute
