

### Aarbee Structures Pvt. Ltd.

#### Booth 1102

Bangalore, Karnataka  
India  
Ph: 732.579.6180; 91.80.28513730  
Fax: 91.80.28513732

[www.aarbeesteeldetail.com](http://www.aarbeesteeldetail.com)

Well established Structural Steel detailing company having 150 civil engineers including detailers, checkers and designers. Aarbee have 101 Tekla full licenses, 11 SDS2 & AutoCAD and having vast experience in servicing to US clients for more than 12 years. We have successfully executed more than 800 projects both industrial and commercial ranging from 100 to 18000 ton. Our present facility and vast experience can handle sizable projects with less turnaround time.

### AceCad Software Inc.

#### Booth 713

Exton, PA  
Ph: 610.280.9840  
Fax: 610.280.9841

[www.acecadsoftware.com](http://www.acecadsoftware.com)

AceCad Software is a major provider of integrated technologies including the world's leading 3D CAD software, StruCad and an unparalleled MRP system, StruM.I.S. The new StruWalker viewer has arrived; allowing any CIS/2 files to be imported and improving project efficiency with access to structural content and status through the supply chain, and across dispersed teams. Together these systems make up AceCad's complete Fabrication Information Modeling package which is focused on delivering productivity advantages across all stages of the steelwork project. AceCad's commitment to providing a complete technological solution has resulted in the most productive software on the market today.

### AISC Certification

#### Booth 1337

Chicago, IL  
Ph: 312.670.7520  
Fax: 312.896.9022

[www.aisc.org/certification](http://www.aisc.org/certification)

AISC Certification sets the quality standard for the steel industry and is the most recognized national quality Certification program for the industry. Facilities that are AISC Certified have been through a rigorous initial evaluation, and are subject to annual reviews. Our independent auditing company, Quality Management Company, LLC, confirms that facilities have the personnel, knowledge, organization, equipment, experience, capability, procedures, and commitment to produce the required quality of work for a given Certification category.

### ALFRA USA

#### Booth 635

East Dundee, IL  
Ph: 847.844.8900  
Toll Free: 877.992.5372  
Fax: 847.844.8950

[www.alfra.us](http://www.alfra.us)

ALFRA USA is an ISO9001:2000 European Manufacturer of Metal-Coring and Sawing Products. Since our company was founded in 1913, our focus has been to manufacture the most consistent, high-quality tooling and machines for punching, bending, cutting, drilling and deburring in the industry. We continuously invest our resources into the Research & Development of new products so that we can provide you with the latest cutting-edge innovations of metal-working technology!

### Allied Machine & Engineering Corp.

#### Booth 507

Dover, OH  
Ph: 330.343.4283  
Toll Free: 800.321.5537  
Fax: 330.602.3400

[www.alliedmachine.com](http://www.alliedmachine.com)

Allied Machine and Engineering Corp. (AMEC) provides solutions for hole-making in structural steel materials. The exclusive Structural Steel Drilling System is now available as a standard offering. Designed specifically for use on I-beams and steel plating materials, this patent-pending tooling—drill inserts and holders—delivers outstanding results. AMEC Structural Steel drill inserts are available in the following geometries: T-A thin wall geometry, ideal for materials up to and including 7/16 in. thick; T-A Notch Point geometry inserts, designed for material greater than 7/16 in. thick; and the T-A 150° Notch Point Structural Steel drill insert, especially designed to reduce exit burrs, best suited in materials greater than 7/16 in. thick.

### American Galvanizers Association

#### Booth 1210

Centennial, CO  
Ph: 720.554.0900  
Fax: 720.554.0909

[www.galvanizeit.org](http://www.galvanizeit.org)

The American Galvanizers Association (AGA) is a non-profit trade association dedicated to serving the needs of after-fabrication galvanizers, fabricators, architects, specifiers, and engineers, providing technical support on today's innovative applications and state-of-the-art technological developments in hot-dip galvanizing for corrosion control.

### American Institute of Steel Construction (AISC)

#### Booth 1337

Chicago, IL  
Ph: 312.670.2400  
Fax: 312.896.9022

[www.aisc.org](http://www.aisc.org)

Learn about AISC's products and solutions, including information about our ePubs program. Chat with AISC staff and meet our Steel Solutions Center team.

### American Punch Company

#### Booth 513

Euclid, OH  
Toll Free: 800.243.1492  
Fax: 800.261.6270

[www.americanpunchco.com](http://www.americanpunchco.com)

American Punch manufactures the world's finest punches, dies, and shear blades for steel fabrication. Our reputation for quality tools and knowledgeable customer service has catapulted us to a major worldwide supplier. To keep us in the forefront, we offer portable punch units, magnetic base drills, CobraCut annular cutters and CobraCut structural steel drills. Our products have proven to be the best in their class and enable us to add even more value to our customers.

### American Welding Society

#### Booth 1503

Miami, FL  
Ph: 305.443.9353  
Toll Free: 800.443.9353  
Fax: 305.443.7559

[www.aws.org](http://www.aws.org)

The American Welding Society (AWS) was founded in 1919 as a multifaceted, non-profit organization with a goal to advance the science, technology and application of welding and related joining disciplines. From factory floor to high rise construction, from military weaponry to home products, AWS continues to lead the way in supporting welding education and technology development. Among the American Welding Society's activities are standard development, personal certification, trade show management, magazine and much more.

### Applied Bolting Technology, Inc.

#### Booth 1131

Bellows Falls, VT  
Ph: 802.460.3100  
Toll Free: 800.552.1999  
Fax: 802.460.3104

[www.appliedbolting.com](http://www.appliedbolting.com)

Applied Bolting makes direct tension indicators (DTIs) user friendly. With the introduction of Squirter DTIs, made in accordance with ASTM F959, we have all but eliminated the need for feeler gages. By eye, one can tell when the bolts are tight. Erectors ask for them by name. Millions of Squirters have been spec'ed and installed on power plants, HRSGs, SCRs, LNG facilities, DOT bridges, commercial buildings, and stadiums.

### ArcelorMittal International

#### Booth 1013

Chicago, IL  
Ph: 312.899.3500  
Fax: 312.899.3766

[www.arcelormittal.com](http://www.arcelormittal.com)

ArcelorMittal is the world's largest producer of structural steel shapes, having served the U.S. market for over 75 years. Our ASTM A913 Grade 50 and Grade 65 steel offer superior beam characteristics, including higher yield strength, excellent toughness, and outstanding weldability—in most cases without preheating. We produce all domestically rolled WF beams in addition to numerous deep W36, W40, and heavy W14s unavailable domestically.

### Atema Inc.

#### Booth 1424

Chicago, IL  
Ph: 312.861.3000  
Fax: 216.373.7297

[www.atema.com](http://www.atema.com)

Atema can help you prepare for any challenges with AISC certification assistance. We can help create the documentation necessary either on-site or through web conferences. If you already have the quality management system and need help in implementation, we can train your employees for success. Our programs address ongoing quality concerns which fit the needs of fabricators and DOTs across industry lines.

### Atlas Tube, Inc.

#### Booth 913

Harrow, ON  
Canada  
Ph: 519.738.5000  
Toll Free: 800.265.6912  
Fax: 519.738.3537

[www.atlastube.com](http://www.atlastube.com)

With the largest size range and the shortest cycle times in the industry, Atlas Tube has four manufacturing plants strategically located in the USA and Canada and can supply all of your HSS tubing requirements delivered on time when you want it. 33 different rounds sizes, 21 squares and 56 rectangles are available in a variety of gauges and lengths. Atlas Tube is ISO 9001-2000 certified manufacturing to North American specifications A500, A252, A847 and CSA G40.21.

### Azco Steel Company

#### Booth 914

S. Plainfield, NJ  
Ph: 908.754.8700  
Toll Free: 800.221.7781  
Fax: 908.754.8728

[www.azcosteel.com](http://www.azcosteel.com)

Service center specializing in large Jumbo beams, A588, A572, and A992 structurals, and hard-to-find items. We deliver to all parts of North America. With locations in Blytheville, Ark, S. Plainfield, NJ, Pomona, Ca, and Birmingham, AL.

### AZZ Galvanizing Services

#### Booth 1331

Fort Worth, TX  
Ph: 817.810.0095  
Fax: 817.336.5354

[www.azgalvanizing.com](http://www.azgalvanizing.com)

AZZ Galvanizing Services, a division of AZZ incorporated., headquartered in Fort Worth, Texas owns and operates 22 hot dip galvanizing plants strategically located across the U.S. AZZ operates kettles ranging from 25' to 58' in length. With the company's network of plants they are able to accommodate the largest projects with customized turnaround time at a competitive price. "GalvXtra," their unique nickel-zinc alloy process, helps meet the highest quality standards that are necessary in the highly competitive after-fabrication steel market.

### BDS VirCon

#### Booth 1113

Tempe, AZ  
Ph: 480.615.1700  
Fax: 480.615.1717

[www.bdsvircon.com](http://www.bdsvircon.com)

With more than 165 detailers and modelers in seven offices, in six countries, BDS VirCon is recognized as one of the most technically advanced detailing and BIM modeling companies in the world. The group has the capacity, technology, and technical ability to undertake major assignments requiring teams of detailers and to successfully manage multiple projects across different offices in different time zones while meeting strict deadlines and quality standards. When quality and schedule are critical, BDS VirCon is recognized as the detailing company of choice.

### Behringer Saws, Inc.

#### Booth 216

Morgantown, PA  
Ph: 610.286.9777  
Toll Free: 888.234.7464  
Fax: 610.286.9699

[www.behringersaws.com](http://www.behringersaws.com)

Behringer Saws, Inc. designs, manufactures and installs high quality, cost-effective bandsaws, circular cold saws, structural fabricating equipment and integrated material handling systems for the metalworking and structural steel industries. Behringer is a world wide respected leader in providing solutions and services to the metal cutting and fabricating industries.

## BendTec, Inc.

**Booth 1511**  
Duluth, MN  
**Ph:** 218.722.0205  
**Toll Free:** 800.236.3832  
**Fax:** 218.722.6598  
[www.bendtec.com](http://www.bendtec.com)

BendTec, Inc. is a LEADER in the bending, fabrication, design, and engineering of large and small piping & structural steel for structural & architectural applications. BendTec is AISC certified in compliance with Simple Steel and Major Steel Bridges, Fracture Critical Endorsement & Sophisticated Paint Coating Endorsement. Services Provided Engineering, including AISC joint design, layout, detailing, and weld procedure development. Hot and Cold Bending, Welding, Machining, Heat Treating, Blasting & Paint, Non-Destructive Examination. More information: [www.bendtec.com](http://www.bendtec.com).

## Bentley Systems, Incorporated—RAM/STAAD Solution Center

**Booth 1119**  
Exton, PA  
**Ph:** 610.458.5000  
**Toll Free:** 800.Bentley

[www.bentley.com/structural](http://www.bentley.com/structural)

Now with RAM, STAAD, and ProSteel on the Bentley team, we offer the most comprehensive structural solutions in the industry. Bentley's flexible and scalable products allow seamless workflow of analysis, design, detailing, documentation, and BIM for building, plant, and civil applications. Completely integrated solutions are available for reinforced concrete, post-tensioned concrete, steel, wood, cold-formed steel, aluminum, and masonry.

## BimSoft Inc.

**Booth 1302**  
Milton, ON  
Canada  
**Ph:** 514.731.0008  
**Fax:** 514.739.0002

[www.bimsoftinc.com](http://www.bimsoftinc.com)

BIMSoft provides Autodesk-based applications running on Revit, Inventor, and AutoCAD platforms. BIMSoft is recognized for providing engineering software with a particular focus on the engineering, detailing, and fabrication of wood, steel, and light-gauge structures. Our BIM-compliant and integrated applications allow the user to seamlessly take a project from conceptual architecture all the way to fabrication and construction. Our CMS application works stand-alone, with Autodesk Inventor, and or SolidWorks. It creates, edits and manages DSTV files and supports W, C, T, Angle, and plate steel shapes.

## Birmingham Fastener Inc.

**Booth 1212**  
Birmingham, AL  
**Ph:** 205.595.3511  
**Toll Free:** 800.695.3511  
**Fax:** 256.382.9670

[www.bhamfast.com](http://www.bhamfast.com)

Birmingham Fastener is a leading manufacturer and distributor of fasteners for structural steel fabrication, metal building manufacturers, transportation, water works and utilities, original equipment manufacturers, construction, MRO and more. With 10 regional operations located throughout the country, Birmingham Fastener and its subsidiaries: Alabama Aerospace, Huntsville Fastener, B-Fast Mobile, ProSouth Jacksonville, Dallas Fastener, Omaha Fastener, A-A Milwaukee and A-A Bridgeport offer strategically located service centers that provide sales, VMI managed inventory programs, and technical support.

## Boundary Layer Wind Tunnel Laboratory

**Booth 1403**  
London, ON  
Canada  
**Ph:** 519.661.3338  
**Fax:** 519.661.3339  
[www.blwtl.uwo.ca](http://www.blwtl.uwo.ca)

The Boundary Layer Wind Tunnel Laboratory and the Alan G. Davenport Wind Engineering Group have assisted designers of some of the tallest buildings and longest bridges in the world since its inception in 1965. Wind climates, wind-induced structural loads, cladding pressures, pedestrian level winds, ventilation requirements, rain and snow effects are examined through sophisticated wind tunnel studies. Testing facilities include two large boundary layer wind tunnels with state of the art instrumentation and computational services. Evaluations of dampers, full scale monitoring and customized instrumentation development are additional services offered to enable cost-effective solutions to aerodynamic issues.

## Brakewell Steel Fabricators, Inc.

**Booth 714**  
Chester, NY  
**Ph:** 845.469.9131  
**Toll Free:** 888.914.9131  
**Fax:** 845.469.7618  
[www.Brakewell.com](http://www.Brakewell.com)

AISC-certified custom fabrication job shop specializing in bridge components (barriers, railings, hoppers, scuppers, steel curbing), curved stairs, miscellaneous complex weldments, and many other custom fabrications. Established in 1969, our fabrications can be found at the NBA Hall of Fame, Trump Tower, the Tappan Zee Bridge, the Statue of Liberty and Ellis Island, Ground Zero, and at hundreds of other high-profile locations. Brakewell has AISC certifications for Building Structures, Simple Steel Bridges, & Bridge and Highway Components.

## Brown Consulting Services, Inc.

**Booth 1425**  
Houston, TX  
**Ph:** 281.260.9749  
**Fax:** 281.260.9771  
[www.steelconnectiondesign.com](http://www.steelconnectiondesign.com)

Professional Structural Engineering firm specializing in connection design calculations & shop drawing supervision for structural steel, steel stairs and miscellaneous steel projects. Licensed in 46 states & the U.S. Virgin Islands. BROWN offers additional services including: structural design, forensic engineering, expert witness testimony, light gauge steel calculations, project pricing, quick turnaround. Contact: [al@steelconnectiondesign.com](mailto:al@steelconnectiondesign.com). Make BROWN "Your Engineering Connection".

## Buckner Companies

**Booth 734**  
Graham, NC  
**Ph:** 336.376.8888  
**Toll Free:** 800.848.6234  
**Fax:** 336.376.8855

[www.bucknercompanies.com](http://www.bucknercompanies.com)

Since 1947, Buckner Companies has provided workmanship, met demanding schedules, and completed complex projects, including sport arenas, power plants, hospitals, pharmaceutical facilities and hangers. We are ranked number six by ENR's listing of Top Steel Erectors. Buckner Steel Erection is an AISC and PCI Certified Erector. Over 600 years of experience is encompassed in Buckner's management supervisory, and administrative teams. Buckner Heavy Lift Cranes has one of the largest and most versatile equipment fleets in the nation. Ranked by International Cranes as one of the Top Crane Companies in the world.

## Bug-O Systems/Cypress Welding Equipment

**Booth 610**  
Canonsburg, PA  
**Ph:** 412.331.1776  
**Toll Free:** 800.245.3186  
**Fax:** 412.331.0383

[www.bugo.com](http://www.bugo.com)

Bug-O Systems/Cypress Welding Equipment, a manufacturer of welding and cutting automation equipment, will display its newest innovations for increasing productivity. The Bug-O Gantry and Side Beam Units are custom-designed assemblies that are used in a variety of applications such as beam and stiffener fabrication. The Mini-Vert is a trackless battery powered fillet welder. The Uni-Bug II can produce stitch or continuous welds and will run on a variety of structural steel profiles.

## CAMBCO

**Booth 505**  
Houston, TX  
**Ph:** 713.781.9702  
**Fax:** 713.781.0193

[www.cambcocoinc.com](http://www.cambcocoinc.com)

CAMBCO developed the first commercially available cambering machine for the structural steel fabricating industry in 1984 to camber beams at a fraction of the cost of mill or heat cambering. Eight Models are available to fulfill any cambering requirement, from small commercial buildings to highway bridges. We manufacture COMPLETE machines and can provide all 8 models as "Do It Yourself" cambering machine kits. Please contact Matt Strum for details.

## Canam United States, a division of Canam Group Inc.

**Booth 701**  
Point of Rocks, MD  
**Ph:** 301.874.5141  
**Toll Free:** 800.638.4293  
**Fax:** 301.874.5685  
[www.canam.ws](http://www.canam.ws)

Canam United States is a leading designer and fabricator of open-web steel joists, girders, and bridging at our four U.S. plants certified by SJI, AISC, AWB, and CWB. Complex joists, including barrel, bowstring, scissor, double- and triple-pitched, and long spans up to 130 ft, are our feature products. Our joists are formed of small cold-formed channels to provide individual web members for most steel joists spanning more than 30 ft.

## Cast Connex Corporation

**Booth 837**  
Toronto, ON  
Canada  
**Ph:** 416.806.3521

[www.castconnex.com](http://www.castconnex.com)

Cast Connex Corporation is the North American leader in structural steel castings. Cast Connex® standardized products include a range of connectors for hollow structural section SCBF and OCBF bracing (High-Strength Connectors™) as well as clevis-type connectors for architecturally exposed structural use (Universal Pin Connectors™). Cast Connex Corporation also offers design and manufacturing services for custom cast steel structural components.

## Cerbaco LTD.

**Booth 1209**  
Frenchtown, NJ  
**Ph:** 908.996.1333  
**Fax:** 908.996.0023

[www.cerbaco.com](http://www.cerbaco.com)

Cerbaco will provide samples from its line of 500+ configurations of non-metallic weld backings that permit finished-quality, full-penetration welds from one side. For use with structural steel, shipbuilding, pipeline, pressure vessel and tank manufacturing. The backings work with MIG, TIG, Stick Electrode, Sub Arc and Flux Core welding processes to weld carbon and alloy steel, stainless steel, non ferrous metals and aluminum. Where one-sided welding is not desirable, the backings eliminate the need for arc gouging or heavy grinding prior to second-side welding. The company specializes in furnishing custom configurations and formulations. Technical assistance and free custom design services will be offered.

## Chatham Steel Corporation

**Booth 511**  
Savannah, GA  
**Ph:** 912.233.5751  
**Toll Free:** 800.546.2650  
**Fax:** 912.044.0236

[www.chathamsteel.com](http://www.chathamsteel.com)

Chatham Steel Corporation serves more than 3,000 customers throughout the Southeast from its five (soon to be six) strategically located service centers. Chatham stocks a breadth and depth of product lines for full-line service. Primary product lines include carbon, stainless, aluminum, high-strength, and alloy steel. Our complete in-house processing capabilities include plasma and flame shape burning and beveling, shearing and bending, sawing, drilling, and more.

## Chicago Metal Rolled Products-Chicago

**Booth 1430**  
Chicago, IL  
**Toll Free:** 800.798.4504  
Kansas City, MO  
**Ph:** 816.483.7575

[www.cmrp.com](http://www.cmrp.com)

Curving of every size of angle, bar, channel, tee, and beam up to W44x290 the hard way (x-x axis) on the world's largest beam bender. Tube and pipe bending up to 20 in. OD. Tight bends (radius = 2 x pipe OD; W6x12 hard way to 14 in. inside radius) to large sweeps. Rectangular tubing up to 20 in. x 12 in. Low deformation, thin-wall bending for weight-sensitive applications. Single-radius bending in one plane, as well as off-axis and multi-axis bends; multi-radius bends; true, helical coils; and plumb, circular stair stringers. Hard way, easy way, and every way in between.

## Cleveland City Forge

**Booth 638**  
Wellington, OH  
**Ph:** 440.647.5400  
**Fax:** 440.647.4185

[www.clevelandcityforge.com](http://www.clevelandcityforge.com)

Cleveland City Forge is a world leader in structural steel hardware. Products include clevises, turnbuckles, turnbuckle assemblies, threaded rod, adjustable yokes, eye nuts, eyebolts, and rod ends.

## Cleveland Punch and Die Company

**Booth 613**  
Ravenna, OH  
**Ph:** 330.296.4342  
**Toll Free:** 800.451.4342  
**Fax:** 800.451.6877

[www.clevelandpunch.com](http://www.clevelandpunch.com)

The Cleveland Punch & Die Company (CP&D) is celebrating its 130th Anniversary! CP&D is the true punch leader in the structural and fabricating industry. Quality punches, dies and shear blades since 1880. Service, delivery, and dependability unlike any other. Tooling for all ironworkers, anglelines, beamlines and portable punching machines.

## CMC Steel Products

**Booth 919**  
Rockwall, TX  
**Ph:** 972.772.0769  
**Toll Free:** 800.308.9925  
**Fax:** 972.772.0882

[www.cmcsteelproducts.com](http://www.cmcsteelproducts.com)

CMC Steel Products manufactures the SMARTBEAM®—an innovative, economical, and sustainable alternative to other structural systems. The SMARTBEAM® offers versatility and economy for all types of floor and roof structures. The beams are lightweight, have excellent load/deflection characteristics, and are manufactured from recycled steel. The SMARTBEAM® is an engineered product custom designed to meet the needs of your project. SMARTBEAM®—The Intelligent Alternative.

## CML USA, Inc. Ercolina

**Booth 1036**  
Davenport, IA  
**Ph:** 563.391.7700  
**Fax:** 563.391.7710

[www.ercolina-usa.com](http://www.ercolina-usa.com)

CML USA, Inc. manufactures Ercolina tube, pipe and profile bending machinery. We offer customers the highest quality tube and pipe benders and related metal fabrication equipment available today. Ercolina's affordable tubing benders and fabricating machinery are designed to reliably and accurately produce your applications increasing profit, improving product quality and finish. Ercolina products are marketed through a network of local distributors and representatives.

## Combilift Ltd.

**Booth 603**  
Greensboro, NC  
**Ph:** 336.378.8884  
**Toll Free:** 877.COMBI.56  
**Fax:** 336.378.8842

[www.combilift.com](http://www.combilift.com)

The Combilift is an engine-powered 4-directional forklift designed primarily for handling long loads in confined areas. Suitable for use both inside and out, the machine can operate in aisles as narrow as 80 in. The fully synchronized 4-way steering system provides excellent maneuverability. Capacities range from 5,000 lb to 50,000 lb, with a variety of attachments to cater to individual customer requirements.

## COMEQ, Inc.

**Booth 600**  
White Marsh, MD  
**Ph:** 410.933.8500  
**Fax:** 410.933.1600

[www.comeq.com](http://www.comeq.com)

World-renowned US distributor for a wide range of metal fabricating machinery, including GEKA Ironworkers and Automated Punching and Feeding Systems; PARMIGIANI Angle, Section, Beam and Plate Bending Rolls; AMERICOR Angle and Plate Bending Rolls; PRIMELINE Press Brakes and Shears; and much more. We offer sales, service, and parts with over 70 years of knowledge to assist in the purchase of an efficient and productive machine. Our mobile demo trucks travel throughout the country bringing Ironworker demonstrations to your business door. Call and schedule a visit today.

## Commercial Metals Company

**Booth 919**  
Irving, TX  
**Ph:** 214.689.4300  
**Fax:** 214.689.5886

[www.cmc.com](http://www.cmc.com)

Commercial Metals Company and subsidiaries manufacture, recycle and market steel and metal products, related materials and services through a network including steel minimills, steel fabrication and processing plants, construction-related product warehouses, a copper tube mill, metal recycling facilities and marketing and distribution offices in the United States and in strategic international markets.

## Computers & Structures, Inc.

**Booth 707**  
Berkeley, CA  
**Ph:** 510.649.2200  
**Fax:** 510.649.2299

[www.csiberkeley.com](http://www.csiberkeley.com)

Founded in 1975, CSI is recognized worldwide as the innovative leader in the development of software tools for structural & earthquake engineering. Products from CSI are used by thousands of engineering firms involved in the design of buildings, bridges and other major structures in over 160 countries. CSI products—which include SAP2000®, ETABS®, SAFE™, and PERFORM 3-D®—are the choice of sophisticated design professionals worldwide.

## Concrete Reinforcing Steel Institute

**Booth 1527**  
Schaumburg, IL  
**Ph:** 847.517.1200  
**Fax:** 847.517.1206

[www.crsi.org](http://www.crsi.org)

The Concrete Reinforcing Steel Institute (CRSI) is the authoritative resource for all items related to concrete construction using reinforcing steel (rebar). CRSI serves architects, engineers, contractors and other construction professionals through our membership opportunities, design manuals, technical publications, and educational seminars. CRSI members include producers, fabricators and placers of steel reinforcing bars—as well as individual professional members. The nationwide CRSI Region Manager network provides local marketing, technical and membership support.

Concrete Reinforcing Steel Institute

## Connected Structural Group

Las Vegas, NV  
**Ph:** 702.804.1535  
**Fax:** 702.405.1229

[www.connectedsg.com](http://www.connectedsg.com)

Connected Structural Group offers full-service steel detailing and structural engineering. We provide 3D modeling, erection, and shop drawings using SDS/2 steel detailing software. We have licensed structural and professional engineers to provide complete structural design. Whatever materials are used, our structures are designed with fabrication and erection in mind to save the owner, fabricator, and contractor both money and time. We support and encourage building information modeling (BIM) projects.

## Controlled Automation

**Booth 425**  
Bryant, AR  
**Ph:** 501.557.5109  
**Fax:** 501.557.5618

[www.controlledautomation.com](http://www.controlledautomation.com)

Controlled Automation specializes in the manufacture of automated structural steel drilling, punching, and shape cutting machinery. Material handling systems are also available to complement each type of machine we offer. As well as new machinery, Controlled Automation is the industry leader in retrofitting control systems and remanufacturing existing structural steel fabricating machinery. All machines, software, and controls are designed, manufactured, and supported entirely in the United States of America.

## Core Brace, LLC

**Booth 911**  
West Jordan, UT  
**Ph:** 801.280.0701  
**Fax:** 801.280.3231

[www.corebrace.com](http://www.corebrace.com)

CoreBrace is a proven, proprietary buckling restrained brace. These unique structural steel braces have been independently tested and implemented in numerous buildings. The CoreBrace technology is technically superior, more cost-effective, and more readily available than other buckling restrained systems.

## Cosen Saws

**Booth 122**  
Charlotte, NC  
**Ph:** 704.943.1030  
**Toll Free:** 877.SAWING.1  
**Fax:** 704.943.1031

[WWW.COSEN.COM](http://WWW.COSEN.COM)

Cosen Saws is a leading bandsaw manufacturer with over 30 years of sawing experience under its belt. Competitively priced, Cosen's saw line stretches over 87 models across 6 product lines (including Coldsaws, Horizontal and Vertical Bandsaws), with capacities ranging from 8" to 80", offering near customization to fulfill any cutting requirement.

## CSC, Inc.—Chicago

**Booth 1201**  
Chicago, IL  
**Toll Free:** 877.710.2053  
**Fax:** 312.321.6489

[www.cscworld.com](http://www.cscworld.com)

Structural software solutions from CSC include TEDDS and FASTRAK. See how TEDDS uniquely automates detailed calculations in MS Word whilst being specifically focused on the needs of structural engineers. Not all steel buildings are square boxes! See how FASTRAK will speed up the detailed design of buildings, no matter what the geometry. Visit Booth 800 to find out more about TEDDS and FASTRAK.

## DACS, Inc.

**Booth 1324**  
Portsmouth, VA  
**Ph:** 757.393.0704  
**Toll Free:** 866.286.6215  
**Fax:** 757.393.9461

[www.dacsinc.com](http://www.dacsinc.com)

Manufacturers of steel roof and floor deck, with locations in Baltimore, MD and Portsmouth, VA. One of the fullest product lines in the industry, specializing in deep roof deck and cellular type decks. Emphasizing customer service and quality products.

## DAITO USA, Inc.

**Booth 230**  
Elk Grove Village, IL  
**Ph:** 847.437.6788  
**Fax:** 847.437.6789

[www.daitousa.com](http://www.daitousa.com)

DAITO is focused on metal cutting and drilling machines and has become the most technologically advanced machine producer in its field. Along with being the world's top manufacturing in its field, DAITO is geared towards customer satisfaction by supporting our customers with our knowledgeable and responsive sales, applications and our sales personnel.

## Delta Structural Steel Services Group

**Booth 1207**  
Idaho Falls, ID  
**Ph:** 208.528.6110  
**Fax:** 208.529.5621

[www.degroupp.com](http://www.degroupp.com)

Delta Structural Steel Services was established in 1991 to meet the detailing and engineering needs of local steel fabricators and erectors. Since 1991, Delta has expanded its customer base across the country, from Alaska to South Carolina. Delta uses state-of-the-art computer technology, including SDS-2 software, to provide accurate detailing and design to our customers, while striving to lower the overall project costs. Delta's projects are as varied as the Arizona Cardinal Stadium to Waste Water Facilities and range in size from 50 tons to 2,400 tons.

## Design Data

**Booth 925 and 1101**

Lincoln, NE

**Ph:** 402.441.4000

**Toll Free:** 800.443.0782

**Fax:** 402.441.4045

[www.sds2.com](http://www.sds2.com)

Design Data produces innovative software for the steel industry's fabrication, detailing, and engineering sectors. Design Data's SDS/2 steel detailing software is the only product with the built-in intelligence to automatically design connections using a 3D model, with a multitude of options for beams, columns, bracing, and joists. The EAD/2 engineering system, Design Data's newest product, is a quick, easy way to perform simple finite element analysis and design on steel structures in the comfortable environment of SDS/2.

## Design-Build Institute of America

**Booth 1431**

Washington, DC

**Ph:** 202.682.0110

**Fax:** 202.682.5877

[www.DBIA.org](http://www.DBIA.org)

The Design-Build Institute of America (DBIA) promotes the value of design-build project delivery and teaches successful integration of design and construction services to owners as well as design and construction practitioners. At DBIA, integration is our foundation.

## DGS Technical Services, Inc.

**Booth 910**

Roselle, IL

U.S. and India

**Ph:** 630.872.5000, x8277

**Fax:** 630.582.3700

[www.dgsts.com](http://www.dgsts.com)

DGSTS is an Illinois-based ISO 9001:2000 certified company with multiple steel detailing locations in India. Employees: 200; software used: Tekla Structures, PRO Steel, and AutoCAD. Detailing experience in high-rise buildings, bridges, connection design, and miscellaneous. We can provide on-site detailers when needed and set up dedicated teams in India.

## Dowco Consultants Ltd.

**Booth 719**

Surrey, BC

Canada

**Ph:** 604.606.5800

**Toll Free:** 866.773.6926

**Fax:** 604.574.3827

[www.dowco.com](http://www.dowco.com)

Fabrication shops, engineering firms and contractors all over the world rely on Dowco Consultants, Ltd. for pre-construction, detailing, 3D modeling, and connection design services. In just over 40 years, Dowco Consultants has grown from a three-man operation in Vancouver, Canada to become one of the largest fully automated 3D modeling detailing companies in the world. Dowco Consultants is a proud member of the Dowco Group of Companies which currently employs more than 300 staff spread across 7 offices around the world (Canada, India, USA, and UK). In 1998, Dowco received ISO 9001 certification and this quality management system is an integral part of daily routine.

## Eastern Pneumatics & Hydraulics, Inc./McCann Equipment Ltd.

**Booth 1300**

Salem, NH

**Ph:** 603.893.7662

**Toll Free:** 800.356.5624

**Fax:** 603.893.7745

[www.ephptools.com](http://www.ephptools.com)

Specializing in steel erectors' torque-related tools. Tone TC shear tools and a complete line of electric, hydraulic, and pneumatic torque wrenches. Skidmore torque tension testers, erectors' reamers, drift pins, and structural wrenches. Repairs, rentals, sales, calibrations, and certifications to ISO 17025 standards.

## eCADsystems, LLC

**Booth 1310**

Troy, MI

**Ph:** 248.564.5600

**Fax:** 248.659.1579

[www.ecadsystems.com](http://www.ecadsystems.com)

eCADsystems is an engineering service provider offering a comprehensive range of services that are delivered from concept to manufacturing. Our services include structural steel detailing, mechanical design, product data management, software customization, and electronic design services. We support various industry segments including construction, automotive, industrial automation, consumer appliances, medical equipments, ship building, agricultural equipment, and general engineering. Our construction projects include airports, automobile plants, convention centers, hospitals, office buildings, and industrial and power plant projects. This January eCADsystems was acquired by DGS Technical Services, a Chicago based company. This acquisition has created broader customer base and offers a wider and enhanced services to the structural construction industry.

## Engineering Ministries International (eMI)

**Booth 1507**

Colorado Springs, CO

**Ph:** 719.633.2078.

**Fax:** 719.633.2970.

[www.emiusa.org](http://www.emiusa.org)

Engineering Ministries International (eMI) is an organization of engineers and architects who offer a free technical design service to Christian missionaries serving the poorest of the poor in third world countries. The volunteers pay their own trip expenses, don't charge for their design services, and come alongside a missionary who wants to build something that is complicated enough to require professional expertise. The services are offered on short-term mission trips.

## ESAB Welding & Cutting Products

**Booth 1012**

Florence, SC

**Ph:** 843.669.4411

**Toll Free:** 800.ESAB.123

**Fax:** 843.664.4459

[www.esabna.com](http://www.esabna.com)

With more than 100 years of experience, ESAB Welding and Cutting Products is one of the world's largest and most knowledgeable manufacturers of welding and cutting equipment and welding filler metals. To ensure customer satisfaction, many ESAB products carry a 100% satisfaction guarantee. Recognized as the technological leader in the industry, ESAB is committed to providing customized solutions for its customers.

## Essar Steel Algoma

**Booth 1319**

Sault Ste. Marie,

Ontario, Canada

**Ph:** 905.331.3400

**Toll Free:** 800.387.9495

**Fax:** 905.331.3408

[www.essarsteelalgoma.com](http://www.essarsteelalgoma.com)

Essar Steel Algoma is dedicated to being North America's leading supplier of hot rolled sheet, plate and welded shape products through continuing innovation and improvement of our products, processes and people. Our mission is to deliver quality products that meet or exceed our customers' expectations and support their success in the markets they serve.

## Fab Tool Technologies

**Booth 537**

Bridgeville, PA

**Ph:** 412.257.1908

**Fax:** 412.257.1984

[www.fabtooltechnologies.com](http://www.fabtooltechnologies.com)

Fab Tool Technologies LLC offers a wide range of tools for the Steel Fabricator. Our unique, high quality tools offer solutions to reduce costs and increase productivity. They are designed and engineered for long term, heavy industrial use and are built to the highest quality standards of ISO 9001. Fab Tool Technologies product line includes Magnetic Drilling Machines, Annular Cutters, Weld Preparation/Beveling Machines, Stationary Grinders, Magnetic Lifters and Welding/Cutting Automation Equipment.

## Fabreeka International, Inc.

**Booth 1225**

Stoughton, MA

**Ph:** 781.341.3655

**Toll Free:** 800.322.7352

**Fax:** 781.341.3983

[www.fabreeka.com](http://www.fabreeka.com)

Fabreeka's experience in vibration control includes the dynamic response of steel fabrications and support structures. Services include measuring building floor vibration, displacement response of floors/mezzanines and modeling of structures to predict performance. Fabreeka's capabilities include NASTRAN and finite element analysis programs to analyze the static and dynamic conditions of our customers' vibration problems.

## FabSuite LLC

**Booth 811**

Williamsburg, VA

**Ph:** 757.645.0842

**Fax:** 757.645.0896

[www.fabsuite.com](http://www.fabsuite.com)

FabSuite offers a collection of Steel Fabrication Management Software programs that can help you improve your speed and efficiency with regards to your everyday challenges that you face as a Steel Fabricator. FabSuite delivers a smooth and continuous flow of information from a project's inception all the way through its final completion and job-costing. FabSuite also provides complete traceability of all important job and project information details within the Project Management program.

## FabTrol Systems, Inc.

**Booth 819**

Eugene, OR

**Ph:** 541.485.4719

**Toll Free:** 888.FABTROL

**Fax:** 541.485.4302

[www.fabtrol.com](http://www.fabtrol.com)

FabTrol MRP is the global leader in steel fabrication management software. With integrated estimating, drawing management, material management, production control, and shipping, FabTrol MRP automates the steel fabrication process. FabTrol MRP was designed by steel fabricators for steel fabricators and is proven to help increase revenues, reduce costs, improve quality, and shorten project schedules.

## Faccin USA, Inc.

**Booth 607**

Tampa, FL

**Ph:** 813.664.8884

**Fax:** 813.664.4544

[www.faccin.com](http://www.faccin.com)

A world leader in the production of heavy-duty bending rolls for plate and structural sections, as well as dished-end equipment.

## Ficep Corporation

**Booth 324**

Forest Hill, MD

**Ph:** 410.588.5800

**Fax:** 410.588.5900

[www.ficepcorp.com](http://www.ficepcorp.com)

Ficep is currently the world's largest manufacturer of CNC systems for the fabrication of structural steel and plates. The product range covers 70 different models so the ideal CNC system can be matched to the specifics of a fabricator's application. Ficep has twelve different subsidiaries located throughout the world to address the specific needs of the local market with the required customer service and sales support.

## Fisher & Ludlow Grating Products

**Booth 1001**

Florence, KY

**Ph:** 859.282.7767

**Toll Free:** 800.334.2047

**Fax:** 859.282.7702

[www.fisherludlow.com](http://www.fisherludlow.com)

Fisher & Ludlow is a full line manufacturer of Bar Grating, Safety Grating and Expanded Metal Products. Our 11 locations provide rapid delivery of both standard panels and custom gratings that are fabricated specifically for your project. Fisher & Ludlow manufactures bar grating in more North American locations than any other grating company ensuring timely delivery to your jobsite, where ever it is located.

## Florida Structural Engineers Association, Inc. (FSEA)

### Booth 1136

Orlando, FL  
Ph: 407.592.7876

[www.FLSEA.com](http://www.FLSEA.com)

The Florida Structural Engineers Association (FSEA) was formed in 1996 to enhance the profession of structural engineering in the state of Florida. FSEA provides input and leadership on building codes and their enforcement, sponsors technical seminars and roundtable discussions, and organizes informal mixers to facilitate networking between peers. FSEA's goal is to join together all Florida structural engineers and to address common concerns of the profession.

## Fyfe Co., LLC

### Booth 1037

San Diego, CA  
Ph: 858.642.0694  
Fax: 858.444.2982

[www.fyfeco.com](http://www.fyfeco.com)

Fyfe Company is the manufacturer of the Tyfo® Fibrwrap® Carbon Fiber system. This versatile, light-weight fiber reinforced polymer can be applied to enhance structural value and load bearing capacity. Fyfe Company provides engineering support, and has the expertise to assist in a wide range of projects including seismic upgrade, pipeline strengthening, load capacity enhancement, blast mitigation, structural defects, and comprehensive concrete restoration. The Tyfo® Fibrwrap® system has been used on thousands of successful projects worldwide -for more information and a no-obligation consultation visit us at [www.fyfeco.com](http://www.fyfeco.com).

## G.W.Y., Inc.

### Booth 1418

Greenfield, NH  
Ph: 603.547.3800  
Toll Free: 888.838.6500  
Fax: 603.547.3801

[www.gwyinc.com](http://www.gwyinc.com)

G.W.Y., Inc. is celebrating its 35th year of distributing installation tools for structural bolting. G.W.Y. has a full line of installation wrenches for both TC bolts and standard structural bolts. Like the TC wrenches, G.W.Y.'s installation wrenches for heavy hex head structural bolts are constant speed electric tools which allow the bolts to be tightened from one side by one person. The new Turn of Nut Installation Wrench automatically shuts down when the pre-set degree of rotation is reached. In addition to new wrench sales, G.W.Y. also rents installation tools. G.W.Y.'s extensive spare parts inventory enables us to provide same day service for most tool repairs.

## Gantrex, Inc.

### Booth 1505

Pittsburgh, PA  
Ph: 412.655.1400  
Toll Free: 800.242.6873  
Fax: 412.655.3814

[www.Gantrex.com](http://www.Gantrex.com)

Gantrex, a member of The Gantry Group, is a provider of solutions for crane runways. Our products include crane rail and clips, rail pad, girder tie-backs and hydraulic bumpers. We are the world's leading manufacturer of runway components for all types of rail-mounted cranes and equipment. We offer products and services for overhead, gantry and container crane runways, including concrete-supported rail systems. Our engineered solutions are the industry standards for runways, and have been for over 30 years. Gantrex: Quality on Track.

## Gaule Detailing

### Booth 1312

Creston, IA  
Ph: 641.352.5334  
Fax: 641.352.5335

[www.GauleDetailing.com](http://www.GauleDetailing.com)

Gaule Detailing details structural and miscellaneous steel per your standards. We use SDS/2 stations and AutoCAD when the situation dictates. Our group of 5 employees has 99 years of experience in the steel fabrication industry. We were incorporated in 1981 and are a member of AISC and NISD. Give us a call. We'd appreciate the opportunity to do business with you.

## Gerdau Ameristeel

### Booth 1125

Midlothian, TX  
Ph: 972.779.1201  
Toll Free: 800.527.7979  
Fax: 972.779.1236

[www.gerdauameristeel.com](http://www.gerdauameristeel.com)

Gerdau Ameristeel is helping to shape the world as a leader in the steel industry in production, service, and quality and as one of the largest structural and engineered shape manufacturers and concrete reinforcing steel fabricators in North America. We manufacture a diverse and balanced mix of recycled steel products for use in a variety of industries including construction, cellular and electrical transmission, automotive, mining, and equipment manufacturing.

## Girder-Slab Technologies, LLC

### Booth 1224

Cherry Hill, NJ  
Ph: 856.424.7880  
Toll Free: 888.478.1100  
Fax: 856.424.6880

[www.girder-slab.com](http://www.girder-slab.com)

The Girder-Slab System is a recipient of an AISC Special Achievement Award. The unique low profile D-Beam, which only projects 9/16" below the precast hollow core slabs, offers an economical alternative to a cast in place concrete structure. This non proprietary system is available for use by all design professionals and is distributed by your preferred steel contractors.

## Graitec

### Booth 1009

Lowell, MA  
Ph: 450.674.0657  
Toll Free: 800.724.5678  
Fax: 450.674.0665

[www.graitec.com](http://www.graitec.com)

GRAITEC is a major software developer committed to providing a complete CAD and Analysis solution dedicated to Structural Engineering and Construction. GRAITEC's Advance Steel was specifically developed for industry professionals that require a comprehensive and completely integrated package in AutoCAD®. Advance Steel is an affordable, user-friendly software solution that automates the entire structural CAD process (fabrication & erection drawings, reports), creates NC fabrication data, and has a bidirectional link to Revit.

## Grating Fasteners, LLC

### Booth 831

Harvey, LA  
Ph: 504.361.3471  
Toll Free: 800.227.9013  
Fax: 504.361.9059

[www.gclips.com](http://www.gclips.com)

Grating Fasteners, LLC specializes in manufacturing and distributing the G-Clip line of grating clips, which are used to fasten bar grating to structural members. Our G-Clips are a family of devices that are designed to be installed from above the grating surface quickly, easily, and economically. With G-clips, power tools are not needed for installation, as they can be installed with simple hand tools. Certain G-Clips feature materials that resist damage in highly corrosive environments.

## GT STRUDL

### Booth 936

Atlanta, GA  
Ph: 404.894.2260  
Fax: 404.894.8014

[www.gtstrudl.gatech.edu](http://www.gtstrudl.gatech.edu)

GT STRUDL Structural Design & Analysis program developed by the Georgia Tech-CASE Center offers a wide range of frame and finite element capabilities. Linear/nonlinear static and dynamic analysis features include moving load generation. Response spectrum, transient, and pushover analysis, plastic hinges, tension and compression-only members, and nonlinear connections. Steel and reinforced concrete design, graphical modeling and result display capabilities. New Multi-Processor Solvers (for models with over 300,000 DOF) and Base Plate Analysis Module are also available.

## Halfen Anchoring Systems

### Booth 912

Converse, TX  
Ph: 210.658.4671  
Toll Free: 800.323.6896  
Fax: 210.658.7908

[www.HalfenUSA.com](http://www.HalfenUSA.com)

Halfen offers a complete line of adjustable anchoring systems. Cast-in anchor channels are based on hot-rolled profiles with I-anchors welded on backside of channel. Carbon steel and stainless anchor channels are available from 6" to 20' long, along with Matching T-head bolts. Toothed channels and bolts offer high longitudinal and dynamic load. Common applications: Curtainwall connections with 3D adjustability / dimension stone cladding / architectural precast / concealed lintel systems for brick / elevator guide rails / waste-water treatment plants, etc.

## Haydon Bolts, Inc.

### Booth 909

Philadelphia, PA  
Ph: 215.537.8700  
Fax: 215.537.5569

[www.haydonbolts.com](http://www.haydonbolts.com)

Haydon Bolts, Inc. has been serving structural fabricators and large construction companies for 146 years. We are a major distributor of a full line of heavy hexagon and tension control structural bolts. Haydon specializes in custom manufactured anchor bolts, tie rod assemblies, u-bolts etc., in diameters from 1/2 in. through 4 in. and up to 40 feet in length and in various grades of steel. Haydon operates out of its 45,000-sq-ft. manufacturing and distribution facility in Philadelphia. Haydon is a charter member of the Industrial Fasteners Institute (IFI), the trade organization of the leading fastener manufacturers in North America, as well as an associate member of AISC.

## Hercules Bolt Company

### Booth 609

Madison, TN  
Ph: 615.321.5020  
Toll Free: 877.321.5020  
Fax: 615.321.2401

[www.herculesbolt.com](http://www.herculesbolt.com)

Hercules Bolt Company is a Veteran owned company that has been a leading source for anchor rod assemblies, fasteners, and accessories for the structural steel industry through out the United States since 1998. We manufacture anchor bolts, all thread rod, swedge bolts, square plates, and rod assemblies with clevis's and turnbuckles to your specifications in all material grades, including ASTM F1554 Grades 36, 55, 105, and stainless steel. We also stock a wide range of A325 and A490 bolts and tension-control bolt assemblies, anchors, studs, epoxy, and the Blind Bolt.

## High Steel Structures, Inc.

### Booth 1409

Lancaster, PA  
Ph: 717.207.4303  
Fax: 717.399.4102

[www.highsteel.com](http://www.highsteel.com)

Lancaster, PA-based High Steel Structures, Inc. is one of the largest fabricators of structural steel in the United States. AISC Certified for major bridges and buildings, High Steel fabricates a wide range of steel plate components for transportation, building, industrial and manufacturing projects. The company welcomes requests from steel fabricators and erectors for supplemental fabrication of heavy building components, such as plate girders, crane steel, and building frames.

## Hilti

### Booth 702

Tulsa, OK  
Ph: 800.879.8000  
Toll Free: 800.879.5000  
Fax: 800.879.7000

[www.us.hilti.com](http://www.us.hilti.com)

Hilti is the global leader of quality, innovative products and services for engineering and construction professionals, focusing on the needs of steel fabricators and erectors with over 50 engineers and 1,000 trained salespeople in the U.S. and Canada, with others in more than 120 countries. Call now for design software, free submittals, design & install training for metal decking with mechanical fastening as well as anchor or powder-actuated safety training and custom CEU courses.

## Hodell-Natco Industries, Inc.

**Booth 1506**  
Houston, TX  
**Ph:** 713.856.6800  
**Toll Free:** 800.275.2658  
**Fax:** 713.856.6849  
[www.hodell-natco.com](http://www.hodell-natco.com)

For more than 120 years Hodell-Natco Industries has serviced the fastener and chain industries. We have 8 strategically located warehouses that encompass over 500,000 sq. ft. of warehouse space. We specialize in A325/A490 structural bolts, but also offer a full assortment of construction related fasteners. Our diverse inventory consists of a complete line of hot dip galvanized, mechanical galv. and zinc plated fasteners with same day delivery. All of our products are available in both imported and domestic material, with complete mill test reports available.

## Holtec Consulting Private Limited

**Booth 1133**  
Gurgaon, Haryana  
India  
**Ph:** 91.124.4693200  
**Fax:** 91.124.4693103  
[www.holteconet.com](http://www.holteconet.com)

Holtec is an ISO-9001 certified engineering & detailing company with over 500 professionals. From its main engineering centers in India, it offers a wide range of services in civil/structural, mechanical, electrical engineering & detailing to its customers, who are located in over 80 countries. Its structural steel detailing group uses Tekla Structures, SDS/2 and AutoCAD to cost-efficiently detail projects ranging from 50 – 30,000 tons for leading US & Canadian fabricator clients.

## Hougen Manufacturing, Inc.

**Booth 611**  
Swartz Creek, MI  
**Ph:** 810.635.7111  
**Toll Free:** 800.426.7818  
**Fax:** 810.635.8277  
[www.hougen.com](http://www.hougen.com)

Hougen Manufacturing produces a full line of portable magnetic drills, Rotabroach annular cutters, and other holemaking products for use in fabrication, production and maintenance applications. Hougen's products are for use onsite or in the shop to help make holes easier, faster, and safer.

## Indiana Gratings Pvt. Ltd.

**Booth 1104**  
Mumbai, Mah  
India  
**Ph:** 00.91.22.28504743 / 28505857  
**Fax:** 00.91.22.28505154  
[www.indianagroup.com](http://www.indianagroup.com)

Indiana Gratings Pvt. Ltd. is a part of Indiana Group which is located in INDIA. It has an experience of four decades in the field of manufacturing and exporting of bar gratings, cable trays and cable ladders to various countries in the world. The company is approved by leading companies in the world and has experience of working with companies such as BECHTEL, KBR, Chevron, F. L. Smith, Fooster Wheeler, GASCO, Saudi Aramco, Technip and CB&I.

## Industrial Galvanizers America

**Booth 1003**  
Tampa, FL

Steel joists, joist girders, composite floor joists, special profile steel joists, and floor & roof deck. Vulcraft facilities are located in South Carolina, Nebraska, Alabama, Texas, Indiana, Utah & New York.

## Nucor-Yamato Steel Company

### Booth 901

Blytheville, AR  
**Ph:** 870.762.5500  
**Toll Free:** 800.289.6977  
**Fax:** 870.763.9107

[www.nucoryamato.com](http://www.nucoryamato.com)

Manufacturer of wide flange structural steel shapes (up through W14x730 columns, and W44 beams), H-piles (including HP16 & HP18), sheet piling, angles, channels, and car building shapes. Grades include ASTM A36, ASTM A572, ASTM A588, ASTM A690, ASTM A709 & ASTM A992.

## Ocean Machinery Inc.

### Booth 201

Fort Lauderdale, FL  
**Ph:** 954.956.3131  
**Toll Free:** 800.286.3624  
**Fax:** 954.956.3199

[www.oceanmachinery.com](http://www.oceanmachinery.com)

Ocean Machinery provides compact affordable and versatile fabricating solutions for small to medium fabricators. Ocean's CNC machines are ideal for small shops looking to improve productivity, reduce man-hours, and eliminate errors and back charges. With more than 500 installations in North America, our products include the Ocean Avenger CNC beam drill line, the Ocean Clipper CNC angle Line, the Ocean Liberator CNC beam coping machine, the Ocean Terminator structural band saws, and the Ocean Eliminator modular material handling system.

## Omnitech Associates

### Booth 825

Piedmont, CA  
**Ph:** 510.658.8328  
**Toll Free:** 888.8DESCON  
**Fax:** 510.595.0373

[www.desconplus.com](http://www.desconplus.com)

Omnitech Associates (a California Corporation) develops steel structures seismic and non-seismic connection design software DESCONWIN and DESCONBRACE, based on the ANSI/AISC 360-05 Specification. Both programs are available in ASD and LRFD in metric and U.S. customary measurement units. Prequalified seismic moment connections using ANSI/AISC 358-05 and FEMA-350 design procedures, and seismic design of braced frame connections based on ANSI/AISC 341s1-05 Seismic Provisions, are available.

## P2 Programs

### Booth 718

Dripping Springs, TX  
**Ph:** 512.858.2007  
**Toll Free:** 800.563.6737  
**Fax:** 512.858.2008

[www.p2programs.com](http://www.p2programs.com)

P2 Programs continues to set the industry standard when it comes to bar coding and tracking your structural steel. We have 22+ years of experience using Auto-ID technology to improve manufacturing process tracking and warehouse operations. Using our "real-time" update capabilities with FabSuite, FabTrol and Romac and NEW Inspection routines, P2 Programs is the company with the knowledge you should look to for answers to help improve productivity and your bottom line!

## Pan Gulf Technologies Pvt. Ltd.

### Booth 1111

Mumbai, Maharashtra  
 India  
**Ph:** 00.91.22.67107085  
**Toll Free:** 00.91.98.70950040  
**Fax:** 00.91.22.67107089

[www.panguliftech.com](http://www.panguliftech.com)

Pan Gulf Technologies Pvt. Ltd. is an Engineering Services company, with significant international clientele. Our services include 'Structural Steel' & 'Process Equipment' Design & Detailing. Our team of 125 engineers and detailers, carry out structural analysis as per AISC, BS and IS codes and Process Equipment designs are carried out as per ASME, API 650, TEMA, UL, etc. standards. Over 125,000 MT of structural steel detailing work done up to date, with detailing capacity of 4500 MT per month. We serve the Oil & Gas, Petrochemical, Chemical, LNG, Power, Steel, Cement, Infrastructure and Commercial sector. Our endeavor to constantly innovate technologically helps increase client productivity, efficiency and profitability.

## Pannier Corporation

### Booth 629

Pittsburgh, PA  
**Ph:** 412.323.4900  
**Toll Free:** 877.PANNIER;  
 877.726.6437  
**Fax:** 412.323.4962

[www.pannier.com](http://www.pannier.com)

Pannier offers a wide variety of marking systems for permanent identification of structural steel. Automatic, heavy-duty stampers make deep marks that remain legible after cleaning and coating. Embossed metal tags withstand galvanizing and painting. Industrial ink-jet systems ensure easy, reliable piece marking. With over 100 years of experience, we can help you solve your most challenging product identification needs. Visit [www.pannier.com/steelfab](http://www.pannier.com/steelfab) for more information.

## Paramount Roll & Forming, Inc.

### Booth 1532

Santa Fe Springs, CA  
**Ph:** 562.944.6151  
**Fax:** 562.941.8102

[www.paramount-roll.com](http://www.paramount-roll.com)

Since 1963, PParamount Roll & Forming has provided structural steel rolling, forming and bending for aerospace, architectural, industrial, transportation and commercial uses. We bend tubes, pipes, channels, beams, tracks, and railings and specialize in spiral staircases. Our heavy industrial structural rolling and bending company serves various markets in the US and Mexico.

## Pat Mooney Saws

### Booth 533

Addison, IL  
**Ph:** 630.543.6222  
**Toll Free:** 800.323.7503  
**Fax:** 630.543.5584

[www.patmooneysaws.com](http://www.patmooneysaws.com)

Pat Mooney Saws is the North American representative of Danobat Sawing and Drilling Systems and Plasma 3D Coping Machines for Structural Steel. Danobat offers engineered solutions for handling large structural steel work pieces. These solutions can include a mitre band saw with in feed conveyor and exit conveyor: a drilling machine with material handling, as well as 3D Coping Machines.

## Pearl Insurance

### Booth 836

Peoria Heights, IL  
**Ph:** 309.688.9000  
**Toll Free:** 800.447.4982

[www.asceplinsurance.com](http://www.asceplinsurance.com)

The ASCE Professional Liability Program—marketed and administered by Pearl Insurance—gives you access to high-quality coverage that helps protect against the financial consequences of claims. Offering a wide range of deductible and limit options, plus special, members-only group rates, it's the only professional liability plan endorsed by ASCE for its members. Visit us at Booth 1236—or [www.asceplinsurance.com](http://www.asceplinsurance.com)—to learn more about this valuable member benefit!

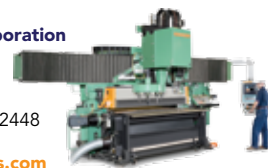

## Peddinghaus Corporation

### Booth 400

Bradley, IL  
**Ph:** 815.937.3800  
**Toll Free:** 800.786.2448  
**Fax:** 815.937.4003

[www.peddinghaus.com](http://www.peddinghaus.com)

Peddinghaus Corporation is the acknowledged global leader in machine tool technologies for the structural steel fabrication industries. At NASCC 2010 in Orlando, Peddinghaus will again introduce new equipment for the steel construction market. Attendees will be able to witness first hand the inauguration of a NEW multi-tool carbide drilling machine, a NEW mitring band saw, and introducing the REVOLUTION 833 detail profiler! With corporate headquarters in Bradley, IL USA, Peddinghaus has served the industry since 1903.

## Peikko Group

### Booth 1419

Quebec City, QC  
 Canada  
**Ph:** 418.263.2023  
**Toll Free:** 888.734.5561  
**Fax:** 418.263.2024

[www.peikkousa.com](http://www.peikkousa.com)

Peikko is the world's leading supplier of composite slim floor systems for multi-story building and a diversified manufacturer of pre-engineered products in over 25 countries. For more than 40 years, Peikko has developed innovative products such as the Deltabeam, an ultra-slim and fireproof composite beam able to span up to 45 feet. Today the Peikko Group is continuously developing groundbreaking products for the wind industry, infrastructures and superstructures.

## Perimeter Protection Products, LLC

### Booth 1521

Middlesex, NJ  
**Ph:** 732.469.5626  
**Fax:** 732.271.9460

[www.perimeterprotectionproducts.com](http://www.perimeterprotectionproducts.com)

Perimeter Protection Products, LLC is a company that manufactures a common sense approach to fall protection. Our products are versatile, reuseable, cost effective, and reduce perimeter exposure by 87%.

## Piereseach

### Booth 1229

Arlington, TX  
**Ph:** 817.277.8566  
**Toll Free:** 800.656.0472  
**Fax:** 817.275.2335

[www.piereseach.com](http://www.piereseach.com)

Piereseach manufactures special concrete accessories to keep a rebar cage centered and off of the floor of a drilled shaft, e.g. drilled pier, caisson, cast-in-place-hole, etc.

## PPG Protective and Marine Coatings

### Booth 706

Pittsburgh, PA  
**Ph:** 888.9PPGPMC  
**Fax:** 888.9PPGPMC

[www.ppgpmc.com](http://www.ppgpmc.com)

PPG Protective and Marine Coatings (PMC) is a world leader in protective coatings. PMC products protect customers' assets in some of the world's most demanding conditions and environments. PMC's Amercoat brand features production friendly technology and proven products including; Dimetecote, Amerlock and the patented PSX 700 polysiloxane.

## Prothious Engineering Services

### Booth 1318

Ventura, CA  
**Ph:** 310.589.6200  
**Fax:** 310.362.8899

[www.prothious.com](http://www.prothious.com)

Prothious Engineering Services is one of the largest and most successful detailing companies in the world, with over a thousand engineers, detailers, and estimators. Prothious has assembled some of the most experienced teams in the industry with an annual detailing capacity of several hundred thousand tons. Our services include steel connection design, BIM modeling, steel joist and steel deck detailing.

## PythonX-Burlington Automation

**Booth 519**

Hamilton, ON  
Canada

**Ph:** 905.689.7771

**Fax:** 905.689.7773

[www.PythonX.com](http://www.PythonX.com)

Burlington Automation manufactures the PythonX Structural Fabrication System Beam Line which is replacing old fashioned technology like beam drill lines and band saws for fabrication of structural steel. The PythonX uses the latest in robotics and plasma technology to fabricate Beams, Channels, HSS, Angle and Strip Plate all on one machine. The PythonX can produce AISC approved Bolt Holes, Copes, Slots, Cutouts, Cut to length, Miter cut, Produce T-Beams, and scribe part/layout marks all in one place eliminating countless hours of material handling in between operations. Also, because everything is in done on one machine, you save valuable shop space. The PythonX instantly automates every structural steel fabrication in your plant.

## Quality Management Company, LLC

**Booth 1337**

Chicago, IL

**Ph:** 312.670.7521

**Fax:** 312.896.9202

[www.qmconline.com](http://www.qmconline.com)

Quality Management Company provides independent, quality audits for AISC's Certification Program. With experience in fabrication and/or erection, QMC auditors conduct rigorous examinations to evaluate a company's quality management system (rather than the specific product). This process provides specifying engineers with the assurance that an AISC Certified fabricator or erector encompasses the proper procedures, personnel, organization, experience, knowledge, equipment, capability, and commitment needed to successfully fabricate or erect their project.

## Quebec Detailing Connection

**Booth 1017**

Montreal

Canada

**Toll Free:** 866.677.6161

[www.quebecconnection.com](http://www.quebecconnection.com)

Make your dream of precise, flawless shop drawings come true, using the Quebec Detailing Connection. In-house qualified and experienced detailing staff, numbering close to 200, managed and supported by North American steel industry veterans, guarantee that quality, speed, and hassle-free management are what you get, TIME AFTER TIME. Catch your dream by calling 866-677-6161.

## Quincy Joist Company

**Booth 1211**

Quincy, FL

**Ph:** 850.875.1075

**Toll Free:** 800.277.1075

**Fax:** 850.875.5826

[www.quincyjoist.com](http://www.quincyjoist.com)

Manufacturer of open-web, steel joists and joist girders located in Quincy, FL and Buckeye, AZ. Our company has sales offices located throughout the U.S. to assist our customers with design, value engineering and assistance with their joist and deck needs. We provide complete joist/deck packages for all size projects.

## Radley Corporation

**Booth 728**

Grand Rapids, MI

**Toll Free:** 800.968.8208

**Fax:** 616.554.9008

[www.radley.com](http://www.radley.com)

Error-proof your shipping and experience real-time progress tracking with instant access to accurate information. Validate your processes while simplifying data entry. Integrated with FabTrol MRP, Radley's WorkForce Productivity Solutions, incorporating an easy-to-use mobile data collection system, provide real-time labor data so you can compare actual hours to your estimates. Visit Booth 728 at 2010 NASCC and ask us how Radley's new stand-alone Inventory Management solution can improve your inventory accuracy.

## RISA Technologies

**Booth 931**

Foothill Ranch, CA  
**Ph:** 949.951.5815

**Toll Free:**

800.332.RISA

**Fax:** 949.951.5848

[www.risa.com](http://www.risa.com)

RISA Technologies has been developing leading edge structural design and optimization software for over 20 years. Our products are used by 24 of the top 25 US design firms in over 70 countries around the world for towers, skyscrapers, airports, stadiums, petrochemical facilities, bridges, roller coasters and everything in between. The seamless integration of RISAFloor, RISA-3D and RISAFoundation creates a powerful, versatile and intuitive structural design environment, ready to tackle almost any design challenge.

## RIX USA

**Booth 633**

East Dundee, IL

**Ph:** 847.844.8900

**Toll Free:** 877.992.5372

**Fax:** 847.844.8950

[www.rix-mehring.de](http://www.rix-mehring.de)

RIX-SAWS is an ISO9001 European Manufacturer of precision bandsaw blades. Since our company was founded in 1913, we continue to strive to be second-to-none with our service, quality, performance, and of course, innovation! Our newly-developed "SPF" (Six-Point Finish) and "SPF Formula 1" processes are two examples of our commitment to bring you the "cutting-edge innovation" of the bandsawing industry!

## Roctest Ltd.

**Booth 928**

St-Lambert, QC

Canada

**Ph:** 450.465.1113

**Toll Free:** 877.762.8378

**Fax:** 450.465.1938

[www.roctest.com](http://www.roctest.com)

Roctest designs, manufactures and markets sensors and high-precision measuring instruments for the civil engineering market and other applications. Roctest and its subsidiaries, FISO Technologies, Telemac, and Smartec offer an unparalleled range of customized solutions combining both traditional vibrating wire technology and state-of-the-art fiber optics for new or ageing infrastructure, such as bridge, tunnel, dam, waterway, high-rise building and pipeline as well as fully integrated monitoring solutions and web-based data analysis.

## Ronstan Tensile Architecture

**Booth 1114**

Portsmouth, RI

**Ph:** 401.293.0539

**Fax:** 401.293.0538

[www.ronstanarchitectural.com/arch\\_us/](http://www.ronstanarchitectural.com/arch_us/)

Ronstan manufactures cable & tie rod systems for structural architectural applications. Stainless steel and carbon systems up to 5" in diameter for cable and rod systems are available. All systems are pre-engineered and load rated. Innovative tamper-resistant cable rail designs are unique, preventing sagging cables and theft. Finished cable and rod systems are available for easy installation by your team.

## Royal USA, Corp.

**Booth 1031**

Carlton, OR

**Ph:** 971.237.0958

[www.royal-usa.com](http://www.royal-usa.com)

Hate Rust! Rovalize It! Royal manufactures quality zinc rich cold galvanizing sprays and Low VOC brush-on compound for touch-up and repair of galvanized material, steel structures and welds. Royal has a high 96% zinc content in its dry film and its anti-corrosion performance is equivalent to that of hot-dip galvanizing.

## Scotchman Industries, Inc.

**Booth 236**

Philip, SD

**Ph:** 605.859.2542

**Toll Free:** 800.843.8844

**Fax:** 605.859.2499

[www.scotchman.com](http://www.scotchman.com)

Hydraulic Ironworkers: 45-150 tons, single and dual operator, Circular Cold Saws: manual to fully automatic, pivot & column. Band Saws: manual to fully automatic, horizontal swing-head and vertical contour. Scotchman® Advanced Measuring Systems designed to

give you quick, easy, accurate length setting. Scotchman Advanced Feed Systems can be used as a programmable stop or purchased with an advanced interlock kit that turns your machine into a fully automatic push feed system.

## Sen Consulting Corp.

**Booth 827**

Hicksville, NY

**Ph:** 516.248.9501

**Fax:** 516.248.9502

[www.sen-group.com](http://www.sen-group.com)

We are proud to announce that our team has reached a total of 30 employees, including 3 checkers and 2 P.E.s. Our clients include contractors, fabricators, and engineering and architectural firms. We are involved in all kinds of detailing services, as well as 3D modeling and 2D drafting services for engineers and architects. We use Tekla Structures, AutoCAD, and AutoCAD Revit.

## Sensr

**Booth 708**

Elkader, IA

**Ph:** 563.245.3750

**Fax:** 866.521.7417

[www.sensr.com](http://www.sensr.com)

Measuring a structure's motion, vibration and tilt angles are critical components for assessing and maintaining the safety and viability of a structure. SENSr's unique integrated solutions reduce the costs and complexities related to structural monitoring. SENSr will be displaying their new remote monitoring stations featuring the CX1 Dynamics Monitor. CX1s are now being deployed on bridges, buildings and towers all over the world.

## Sharon Stairs - A Worthington Industries Company

**Booth 731**

Akron, OH

**Ph:** 330.777.5377

**Toll Free:** 800.792.0129

**Fax:** 330.777.5350

[www.sharonstair.com](http://www.sharonstair.com)

"Sharon Stair", a Worthington Industries Company has nearly fifty years of experience in the manufacture of steel stairs systems and Sharon Stair is AISC Certified; Providing a pre-engineered product with a systems approach to egress stair requirements which offers superior service, quality and bottom line value. With it's world class manufacturing facility of 200,000 sq-ft Sharon Stair has the capacity, staff, technical resources and financial stability to service both projects domestically and internationally.

## Sherwin-Williams

**Booth 1132**

Cleveland, OH

**Ph:** 800.524.5979

**Toll Free:** 800.534.5979

**Fax:** 440.826.1989

[www.sherwin-williams.com/protective](http://www.sherwin-williams.com/protective)

From fast-drying primers to extreme chemical- and abrasion-resistant coatings, we have the solutions you need that protect against corrosion and extend the life of steel structures.

## Shop Data Systems, Inc.

**Booth 509**

Garland, TX

**Ph:** 972.494.2719

**Fax:** 972.272.7062

[www.shopdata.com](http://www.shopdata.com)

Shop Data Systems (SDS) has been servicing the steel fabrication industry for more than 30 years with CAD/CAM software solutions. The system will import flat plate components directly from your structural design software. System features: import file-embedded quantity and material; import multiple files in seconds; Import DSTV or DXF files; machine tool paths are applied automatically; tools with or without piece mark; automatic shape nesting; chain cutting; common line cutting; automatic plate trim; and personalized training and support.

## SidePlate Systems, Inc.

**Booth 1109**  
Laguna Hills, CA  
**Ph:** 949.305.7889  
**Toll Free:** 800.475.2077  
**Fax:** 949.305.6395  
[www.sideplate.com](http://www.sideplate.com)

SidePlate Systems creates steel frame solutions for structures in all design environments. With the advent of SidePlate FRAME™ connection technology, superior performance now comes with the least cost: • No CJP Welds & No UT Inspection = Shorter Construction Schedule • Saves 1-4psf in steel frame tonnage • 50% Less Shop Labor than before. Saves time and money on virtually any project when compared to alternative structural systems, regardless of whether wind, seismic or blast/progressive collapse governs.

## Skidmore Wilhelm

**Booth 1525**  
South Euclid, OH  
**Ph:** 216.481.4774  
**Fax:** 216.481.2427  
[www.skidmore-wilhelm.com](http://www.skidmore-wilhelm.com)

For over 60 years, Skidmore Wilhelm has provided clients with simple, durable, and reliable equipment to give them a cost effective and efficient way to verify bolt tension prior to installation. Our equipment is used all over the world with virtually every type of fastener. We also manufacture tools to measure torque output. Come by our booth and see the new Skidmore equipment designed to save you time and money and ask us about our "cash for clunkers" trade in program!

## SKM Industries, Inc.

**Booth 1203**  
Olyphant, PA  
**Ph:** 570.383.3062  
**Toll Free:** 800.851.8464  
**Fax:** 570.383.9482  
[www.skmproducts.com](http://www.skmproducts.com)

SKM Industries, Inc. is one of the largest manufacturers of industrial paint markers for metal, steel, welding, and galvanizing industries for over 25 years. SKM was successful in developing a "one of a kind formula" that solved major problems and costs for the galvanizing industry. SKM developed a product that would stay on the steel during fabrication and also withstands weather but will come completely off in the tank and not hinder the galvanizing process. No additional labor to remove marks. This is a big time and money savings for the industry.

## SmartTCP, Inc.

**Booth 124**  
Phoenix, AZ  
**Ph:** 248.227.0204  
**Fax:** 602.314.6687  
[www.smarttcp.com](http://www.smarttcp.com)

The robotic welding solution for structural steel fabrication, SmartTCP robotic welding solution is a unique gantry system that integrates software and hardware components to automate both the robot programming and the weld production, making it possible for job-shops and manufacturers to quickly and easily optimize the fabrication of structural steel parts in one-off and low volume production.

## SOFTEK Services Ltd.

**Booth 726**  
Richmond, BC  
Canada  
**Ph:** 604.273.7737  
**Fax:** 604.273.7731  
[www.s-frame.com](http://www.s-frame.com)

Since 1981, SOFTEK Services Ltd. has produced Analysis & Design software for structural engineers, establishing a solid reputation for quality and ease of use. Using the latest technology, we continue to deliver powerful and cost-effective solutions. Our products S-FRAME®, S-STEEL™, and S-CONCRETETM Version 9.x set new standards for Simple to Advanced Analysis and Integrated Steel Design. Please visit our booth for more information.

## Southern Chapter NISD

**Booth 805**  
Pinson, AL  
**Ph:** 205.681.3487, x100  
**Fax:** 205.681.3493

The Southern Chapter NISD consist of these firms; DDuck, Inc. (David Duckworth, 205-680-6500), Drafting Service (Morris T. Crow, 205-655-2168), K. Edward Byrd, P.E. (Ed Byrd, 662-844-9688), Nationwide Detailers, Inc. (Alan Blankenship, 205-681-3487), and Structural Technics (Joel Hicks, 205-956-4501).

## Southwest Detailers Association

**Booth 809**  
Dallas, TX  
**Ph:** 972.226.6433 x103  
**Toll Free:** 800.340.8542 x103  
**Fax:** 214.271.4725  
[www.southwestdetailers.org](http://www.southwestdetailers.org)

The Southwest Detailers Association is a Chapter of the NISD. The object of this Chapter shall be to create a better understanding and bond between other members of the steel construction community. We are dedicated to the principle that the steel detailer is a professional, who by virtue of his education, training and experience, is a vital part of the construction industry. It is also the intention of this organization to establish, maintain and uphold proper standards for the steel detailer.

## Spencer Reed Group, LLC

**Booth 1508**  
Mission, KS  
**Ph:** 913.327.2906  
**Toll Free:** 800.477.5035  
[www.srgsource.com](http://www.srgsource.com)

SRG originated in 1996 to aid conventional steel fabricators and metal building manufacturers with their additional workloads required for structural detailing services. Projects range from 5 – 2,500 tons utilizing SDS/2 software. Our diverse expertise, NISD QPP and IDC certifications, advanced computer technologies, experienced personnel, and client commitment result in a proven record of success and resource to our clients. Members ASIC. Visit [www.srgsource.com](http://www.srgsource.com) for examples of projects and drawings. Call Jill Smith 913-327-2906 for additional info.

## St. Louis Screw & Bolt

**Booth 906**  
Madison, IL  
**Ph:** 314.389.7500  
**Toll Free:** 800.237.7059  
**Fax:** 314.389.7510  
[www.stlouisscrewbolt.com](http://www.stlouisscrewbolt.com)

St. Louis Screw and Bolt is the oldest structural bolt manufacturer in the USA. We specialize in the manufacture of A325 and A490 structural bolts in types 1 and 3, A449 Hex Bolts, F1554 anchor bolts, sag and brace rods, and A325 and A490 TC bolts. We sell direct to structural steel fabricators and offer complete project support.

## Star Seismic

**Booth 1100**  
Park City, UT  
**Ph:** 435.940.9222  
**Fax:** 435.655.0073  
[www.star seismic.net](http://www.star seismic.net)

Star Seismic designs and manufactures the PowerCat and WildCat buckling restrained braces, the nation's most rapidly growing seismic system for structures. Not only do you get a superior seismic performance with the PowerCat and WildCat buckling restrained braces, but you save money with the system as well. Let the professionals at Star Seismic reduce your risk by assisting you as you step through the use of this superior seismic system on your next project.

## Steel Cast Connections LLC

**Booth 1405**  
Seattle, WA  
**Ph:** 206.250.7035  
**Fax:** 206.622.0115  
[www.steelcastconnections.com](http://www.steelcastconnections.com)

The Kaiser Bolted Bracket is now a prequalified special moment connection in the ANSI/AISC 358 code. It features an easy haunch design which is bolted in field erection. The retrofit version is bolted in both directions. Extensive savings are realized through lower initial costs plus hours saved in erection by bolting and the elimination of field welding.

## Steel Construction Group Inc., The

**Booth 1033**  
Austin, TX  
**Ph:** 512.402.9993  
**Fax:** 512.330.9961  
[www.steelconstruction.us](http://www.steelconstruction.us)

Sid Dickerson and The Steel Construction Group have been providing candid, honest advice to Designers, Owners and Fabricators since 2001. On subjects as varied as off-shore procurement, cost-effective use of structural steel framing or how best to avoid "Empty-shop" Syndrome, there is no better resource available today. Please stop by our booth for an opportunity to tap into our expertise with the confidence that any answer will be unbiased and well thought out.

## Steel Deck Institute

**Booth 1509**  
Fox River Grove, IL  
**Ph:** 847.458.4647  
**Fax:** 847.458.4648  
[www.sdi.org](http://www.sdi.org)

Trade association of manufacturers of steel floor and roof decks and manufacturers of related products used in the production or erection of steel decks. SDI provides uniform industry standards for the engineering, design, manufacture, and field usage of steel decks.

## Steel Erectors Association of America (SEAA)

**Booth 739**  
Greensboro, NC  
**Ph:** 336.294.8880  
**Fax:** 413.208.6936  
[www.seaa.net](http://www.seaa.net)

Founded in 1972, the Steel Erectors Association of America (SEAA) is the largest non-profit trade organization of its kind for steel erectors, bringing members access to the industry's most essential technical information, networking opportunities, and career development tools. The Steel Erectors Association of America provides support and representation on steel erection issues that serves the global needs of industry, government, and the public. Because of its strong membership, the SEAA is proactive in meeting industry needs and responsive to worldwide steel erection and construction issues.

## Steel Founders' Society of America

**Booth 1530**  
Crystal Lake, IL  
**Ph:** 815.455.8240  
**Fax:** 815.455.8241  
[www.sfsa.org](http://www.sfsa.org)

SFSA, akin to AISC, is a technical association. Members of SFSA are steel foundries who supply a range of cast steel products for demanding environments such as railroad, mining, construction, military, and nuclear. SFSA can provide assistance to you in utilizing steel castings in building construction. Steel castings offer performance, aesthetics, design freedom, and green manufacturing.

## Steel Joist Institute

**Booth 1433**  
Forest, VA  
**Ph:** 434.525.7377  
**Fax:** 434.525.7747  
[www.steeljoist.org](http://www.steeljoist.org)

Besides setting standards for the steel joist industry, SJI, a not-for-profit organization, works closely with major building code bodies to develop code regulations regarding steel joists and Joist Girders. We also invest thousands of dollars in ongoing research related to steel joists and Joist Girders and offer a complete library of publications and other training and research aids.

## Steel Recycling Institute

**Booth 1528**  
Pittsburgh, PA  
**Ph:** 412.922.2772  
**Toll Free:** 800.876.7274  
**Fax:** 412.922.3213  
[www.recycle-steel.org](http://www.recycle-steel.org)

The Steel Recycling Institute (SRI) is an industry association that promotes and sustains the recycling of steel products, including construction materials. In conjunction with the American Iron and Steel Institute and the American Institute of Steel Construction, the SRI educates architects, engineers, designers, and specifiers about the sustainable benefits of steel through the United States Green Building Council and other venues. Visit the SRI Website to download our brochure, "Steel Takes LEED® With Recycled Content".

## Strand7 Pty Limited

**Booth 619**  
Sydney, NSW  
Australia  
**Ph:** 252.504.2282  
[www.strand7.com](http://www.strand7.com)

Strand7 Pty Ltd researches and develops state-of-the-art engineering analysis software and provides consulting and training services to the engineering community worldwide. The Strand7 software is an advanced, general purpose, FEA system used worldwide by engineers, designers, and analysts for a wide range of structural analysis applications; it includes linear and nonlinear static and dynamic capabilities. A notable recent example is the structural optimization of the Water Cube for the 2008 Olympic Games, which was completely analysed with Strand7.

## Structural-Heavy Steel Construction, a division of Canam Group Inc.

**Booth 801**  
Point of Rocks, MD  
**Ph:** 301.874.5141  
**Toll Free:** 800.638.4293  
**Fax:** 301.874.5685  
[www.structal.ws](http://www.structal.ws)

Structural-Heavy Steel Construction specializes in the design and fabrication of heavy structural steel components for complex, large-scale construction projects for general contractors, engineering firms and building owners. Whether you are building a sports or industrial complex, convention center, multistory building, aluminum smelter, office tower or airport facility, Structural-Heavy Steel Construction has the cutting-edge design and fabrication capabilities needed to successfully execute your project.

## Structural Desktop, Inc.

**Booth 937**  
Van Buren, AR  
**Ph:** 479.471.5227  
**Toll Free:** 866.269.8394  
**Fax:** 479.471.5225  
[www.structuraldesktop.com](http://www.structuraldesktop.com)

Structural Desktop (SDT) integrates STAAD Pro, RISA 3D/RISAFloor, GT STRUDL, and SAP2000 with AutoCAD. The user can build his analytical model inside AutoCAD. Import that model into their analytical program for analysis and design. Then import that model back into SDT for automatic creation of annotated AutoCAD "DWG" contract drawings.

## Structural Engineering & Design

**Booth 1237**  
Deerfield, IL  
**Ph:** 224.632.8200  
**Fax:** 224.632.8266  
[www.gostructural.com](http://www.gostructural.com)

Structural Engineering & Design serves as a design and specification resource for practicing structural engineers and architects. Because it is the only magazine published exclusively for this audience that is not affiliated with a member-driven organization or association, it serves as an unbiased voice and an agent of change through editorial leadership. Structural Engineering & Design fulfills its mission by including articles covering many aspects of structural design, news stories, current product applications, and technology innovations into each issue.

# Structural Engineering & DESIGN

## Structural Engineering Institute/ ASCE

**Booth 1236**  
Reston, VA  
**Toll Free:** 800.851.2723  
**Fax:** 703.295.6361  
[www.seinstitute.org](http://www.seinstitute.org)

SEI is a vibrant, 21,000-plus community of structural engineers within the American Society of Civil Engineers that strives to serve the unique needs of the structural engineering community, both technical and professional. Members of SEI can take advantage of discipline-specific products, services, and activities while also receiving all of the benefits of ASCE membership. For more information on the hundreds of committees within SEI, please visit our website.

## Structural Stability Research Council

**Booth 1336**  
Rolla, MO  
**Ph:** 573.341.6610  
**Fax:** 573.341.4476  
[stabilitycouncil.org](http://stabilitycouncil.org)

The council provides support and technical counsel for stability research, holds regular meetings to report on research activities, and publishes the definitive work, *Guide to Stability Design Criteria for Metal Structures*. The SSR Annual Stability Conference provides up-to-date information and identifies where efficiencies exist in present understanding of structural behavior. Conference proceedings represent a primary source of highlights of the latest solutions to structural problems before they are eventually published in technical journals.

## Sumter Coatings, Inc.

**Booth 1227**  
Sumter, SC  
**Ph:** 803.481.3400  
**Toll Free:** 888.471.3400  
**Fax:** 803.481.3776  
[www.sumtercoatings.com](http://www.sumtercoatings.com)

Sumter Coatings' systems for the structural steel industry come from many years of experience in product development and service to steel fabricators. Sumter Coatings' products have been designed for ease of application and excellent protection, and to be environmentally compliant. Sumter Coatings' products are designed to meet VOC and HAPS-TAPS compliant standards. Sumter Coatings is a member of AISC.

## Surface Preparation Solutions & Technologies (P) Ltd

**Booth 1110**  
Indore, Madhya Pradesh  
India  
**Ph:** 942.593.3300  
**Fax:** 91.731.2424949  
[www.sptfzc.com](http://www.sptfzc.com)

Surface Preparation Solutions & Technologies popularly known as SPT is a pioneer in manufacturing of Shot Blasting equipments. The company was started by a group of engineers in UAE who came from different sectors related to Surface Preparation. SPT Specializes in manufacturing machines using airless technology which proves to be more efficient & effective than compressed air blasting particularly in case of uniform jobs. SPT is the only manufacturer that gives a free replacement guarantee of its spares if they last less than the life defined. SPT now operates globally with its major operation in UAE & India serving sectors like Railways, Ordnance Factories and other major structural steel manufacturers.

## Tata Steel International Americas (formerly Corus International Americas)

**Booth 1219**  
Schaumburg, IL  
**Ph:** 847.619.0400  
**Toll Free:** 800.542.6244  
**Fax:** 847.619.0468  
[www.tatasteelamericas.com](http://www.tatasteelamericas.com)

Tata Steel Group is one of the world's largest steel producers, a leading manufacturers of structural shapes and a provider of many innovative steel construction solutions such as Slimdek, Bi-Steel and a large range of cold- and hot-formed HSS. Tata Steel International Americas specializes in delivering product and service packages to contractors and designers throughout the world, blending industry knowledge and expertise that is specific to North, Central and South America.

## Taylor & Francis Group

**Booth 1108**  
Abingdon, Oxford  
England  
**Ph:** 44.207.0176000  
**Fax:** 44.207.0176336  
[www.taylorandfrancisgroup.com](http://www.taylorandfrancisgroup.com)

Building on two centuries' experience, Taylor & Francis has grown rapidly over the last two decades to become a leading international academic publisher. Operating from a network of 20 global offices, including New York, Philadelphia, Oxford, Melbourne, Stockholm, Beijing, New Delhi, Johannesburg, Singapore and Tokyo, the Taylor & Francis Group publishes more than 1,500 journals and around 1,800 new books each year, with a books backlist in excess of 20,000 specialist titles.

## Taylor Devices, Inc.

**Booth 908**  
North Tonawanda, NY  
**Ph:** 716.694.0800  
**Fax:** 716.695.6015  
[www.taylordevices.com](http://www.taylordevices.com)

Taylor Devices is the world leading manufacturer of Fluid Viscous Dampers, Lock-up Devices, Shock Transmission Units, Shock Absorbers, Cable Dampers and custom Tuned Mass Damping systems. These devices and systems can be used to protect building and bridge structures from the devastating vibrations caused by earthquakes, wind, hurricanes and other vibrational disturbances.

## TDS Industrial Services Ltd.

**Booth 710**  
Prince George, BC  
Canada  
**Ph:** 250.561.1646  
**Fax:** 250.562.8549  
[www.tdsindustrial.com](http://www.tdsindustrial.com)

For 30 years, TDS has been providing structural and miscellaneous steel detailing services to fabrication shops across North America. Based on what suits our customers' systems best, projects are modeled using Strucad 3D or Tekla Structures. We are also offering expertise in plate-work detailing, development, and layout using AutoCAD.

## TechFlow, Inc.

**Booth 930**  
Duluth, GA  
**Ph:** 770.495.1446; 770.881.8455  
**Fax:** 770.495.1448  
[www.techflowengg.com](http://www.techflowengg.com)

Techflow, Inc. group of Techflow Engineers (I) Pvt Ltd.; with 102 Tekla Structures licenses and 200 Engineers, has emerged to serve better services to our existing clients and to expand service area in the US and Canada. We are the service provider for automated structural steel detailing and designing to civil engineering projects in the public and private sector worldwide. Our engineers are qualified, experienced and conversant with AISC, BIS, IS, and OSHA standards, having a capacity of 12,000 tons per month.

## Technyx, a division of Canam Group Inc.

**Booth 801**  
Boucherville, QC  
Canada  
**Ph:** 450.641.4000  
**Toll Free:** 866.506.4000  
**Fax:** 450.641.4001  
[www.technyx.ws](http://www.technyx.ws)

Technyx, a business unit of Canam Group, markets technical outsourcing and project delivery services in the structural drafting and 3D modeling sectors. The company also offers BIM support services, including the management, housing and sharing of building models, as well as 3D previews during both the design and construction stage. In addition, Technyx exploits real-time management tools that allow for the efficient execution of complex, large-scale projects over multiple time zones. The company employs an international team of over 400 experts located across North America, Europe and Asia, and is a member of the NISD and the AISC.

## Tectonix Steel

**Booth 722**  
Mesa, AZ  
**Ph:** 480.834.0169  
**Toll Free:** 866.928.6349  
**Fax:** 480.834.0814  
[www.TECTONIXSTEEL.COM](http://www.TECTONIXSTEEL.COM)

Tectonix Steel is a structural steel detailing firm headquartered in Mesa, AZ, with a branch in Orem, UT. Tectonix uses Tekla Structures for all projects, allowing each project a BIM certification. Tectonix collaborates with its team between UT and AZ offices by using a VPN to work simultaneously on projects anywhere in the U.S.

## Tekla Inc.

**Booth 725**  
Kennesaw, GA  
**Ph:** 770.426.5105  
**Toll Free:** 877.835.5265  
**Fax:** 770.919.0574  
[www.tekla.com](http://www.tekla.com)

Tekla Structures is Building Information Modeling (BIM) software that streamlines the delivery process of design, detailing, fabrication, and construction organizations. The software easily integrates with other systems such as architectural and MEP process layouts, as well as analysis and design solutions. Use the same model to save time and ensure quality projects. Thousands of Tekla Structures users have successfully delivered BIM-based projects in more than 80 countries around the world.

## Tennessee Galvanizing®

**Booth 1232**  
Jasper, TN  
**Ph:** 423.942.1020  
**Toll Free:** 877.242.5848  
**Fax:** 423.942.1040

[www.tennesseegalvanizing.com](http://www.tennesseegalvanizing.com)

We are a leading provider for high-quality corrosion protection. We offer same-day service. With four lines, we can work with any lead time customers need. We ship and receive a minimum of 18 hours a day. ISO 9001-2000 Quality Control and ISO 14001-2004 Environmental. We use special high-grade zinc. Upon request, Tennessee Galvanizing will provide certification that your component or project was galvanized without producing hazardous waste.

## TENWIN Automation, Inc.

**Booth 712**  
Anaheim, CA  
**Ph:** 714.956.2700  
**Fax:** 714.956.2727

[www.tenwinautomation.com](http://www.tenwinautomation.com)

We are a manufacturer of industrial steel cutting machines. We also manufacture material handling, pipe cutting, and burn tables for plate cutting. Our latest machines include beam flipping devices, beam rotators, and auto welders. We cater mostly to the steel fabricating industry and we can and will customize our machines to fit into our customer's shop layout. Our machines are quality machines at very competitive prices. All of our machines are manufactured here in the USA.

## Tiger Supplies, Inc.

**Booth 829**  
Irvington, NJ  
**Ph:** 973.854.8623  
**Fax:** 973.854.8652

[www.tigersupplies.com](http://www.tigersupplies.com)

One of the leading suppliers in the U.S. for the steel industry, dealing with wide format supplies such as media and ink. Full line of Océ, KIP and Xerox original and compatible supplies with Dietzgin Paper. We are located in Irvington NJ in a 50,000 sq. ft. warehouse; most items are in stock and shipping is same day. Contact Sean White (email: [sean@tigersupplies.com](mailto:sean@tigersupplies.com) or phone: 973.854.8623) or visit [www.tigersupplies.com](http://www.tigersupplies.com).

## Totten Tubes, Inc.

**Booth 636**  
Azusa, CA  
**Ph:** 626.912.0220  
**Toll Free:** 800.882.3748  
**Fax:** 626.812.0113

[www.tottentubes.com](http://www.tottentubes.com)

Established in 1955, Totten stocks the largest range of HSS in North America and every unusual size shown in the AISC *Steel Construction Manual*. Services offered include saw and laser cutting, bending, and galvanizing. Free delivery anywhere in California and Arizona. Job Control accounts are welcome.

## Tracer Software, LLC

**Booth 1308**  
Belton, MO  
**Ph:** 248.875.9800

[www.steeltracer.com](http://www.steeltracer.com)

Are you looking to increase productivity and profitability in this market? Tracer drawing log software can help you achieve both on every project. The software helps in eliminating shop errors and providing real-time answers to your drawing questions. Don't spend time searching for information, use Tracer Software to find history instantly. The web application gives you and your customer access to view the drawings online from anywhere. Why retype all the drawing records and make mistakes? Tracer can download drawing information from your CAD software. Tracer drawing log software has many features to help you manage every project efficiently and your customers will be delighted to see project reports. Increase your customer satisfaction experience by using Tracer drawing log software on your next project. Visit our website [www.steeltracer.com](http://www.steeltracer.com) for more information.

## Trilogy Machinery, Inc.

**Booth 630**  
Belcamp, MD  
**Ph:** 410.272.3600  
**Fax:** 410.272.3601

[www.TrilogyMachinery.com](http://www.TrilogyMachinery.com)

Trilogy Machinery, Inc. is the Exclusive North American distributor for ROUND Angle and Plate bending rolls and USA Distributor for SUNRISE Ironworkers including CNC Models. Trilogy also distributes LEMAS Initial-Pinch Plate Bending Rolls. TRILOGY offers sales, service and support for every brand they sell including UNMATCHED experience selling, servicing and supporting Bending Rolls including over 100 years of experience with ROUND Bending Rolls.

## TurnaSure LLC

**Booth 1401**  
Langhorne, PA  
**Ph:** 215.750.1300  
**Toll Free:** 800.525.7193  
**Fax:** 215.750.6300

[www.turnasure.com](http://www.turnasure.com)

TurnaSure LLC is the manufacturer of a comprehensive range of Direct Tension Indicators strictly adhering to the ASTM F959 Standard. Now TurnaSure introduces the revolutionary TurnAnut™ fastener. This ingenious new tensioning device links a TurnaSure® DTI to an ASTM A563 DH nut. The benefits for users are immense. Now the nut, hardened washer, and Direct Tension Indicator become one piece; saving costs in transport, ease, and speed of assembly in the field without assembly errors.

## Unist, Inc.

**Booth 631**  
Grand Rapids, MI  
**Ph:** 616.949.0853  
**Toll Free:** 800.253.5462  
**Fax:** 616.949.9503

[www.unist.com](http://www.unist.com)

Unist, Inc. is the leading manufacturer of cutting tool lubrication systems which are used to promote Minimum Quantity Lubrication (MQL)/Near Dry Machining in all metal cutting applications. The environmentally friendly Unist solution eliminates the need for coolants, significantly extends tool life, and can increase production for steel fabricators.

## V & S Galvanizing

**Booth 1313**  
Columbus, OH  
**Toll Free:** 800.801.3648  
**Fax:** 614.449.8851

[www.hotdipgalvanizing.com](http://www.hotdipgalvanizing.com)

V & S Galvanizing is a leader in the Hot Dip Galvanizing industry, with many locations on the East Coast and Midwest, and over 70 locations worldwide. Specializing in corrosion protection of steel with zinc by Hot Dip Galvanizing. We offer the DUROZINQ® program of galvanizing, packaging, tagging and guaranteed service. We also offer our COLORZINQ® system (paint over galvanizing) that adds brilliant color to a base of corrosion protection. V & S offers trucking and many other value added services. Call us for all of your corrosion protection needs.

## Valmont Industries

**Booth 1501**  
Valley, NE  
**Ph:** 402.359.2201 x3558  
**Toll Free:** 800.825.6668 x3558  
**Fax:** 402.359.4481

[www.valmont.com](http://www.valmont.com)

HSS SuperStruct custom steel tubular sections are manufactured to meet all of your design needs. We produce square and rectangle HSS tubes ranging from 12" to 50", wall thicknesses from 5/16" to 1", and lengths up to 55 ft. long. Challenge us with any of your custom tubular needs.

## Vector Corrosion Technologies

**Booth 1130**  
Tampa, FL  
**Ph:** 813.830.7566  
**Fax:** 813.830.7565

[www.vector-corrosion.com](http://www.vector-corrosion.com)

Vector offers a portfolio of solutions for concrete corrosion repair and protection. Innovative solutions include electrochemical chloride extraction, cathodic protection, and an array of galvanic protection systems, including embedded galvanic anodes, galvanic jackets, and activated arc-spray zinc metalizing. Vector also provides evaluation, repair and mitigation services for post-tension corrosion and temperature resistant composite strengthening systems.

## Viking Blast & Wash Systems

**Booth 1500**  
Wichita, KS  
**Ph:** 316.634.6699  
**Toll Free:** 800.835.1096  
**Fax:** 316.634.6658

[www.vikingcorporation.com](http://www.vikingcorporation.com)

Viking Blast and Wash Systems manufactures and distributes a full line of industrial cleaning equipment including abrasive shot blast machines, parts washers and vibratory deburring equipment. This equipment cleans and removes mill scale, dirt, rust and is ideal for the preparation of large numbers or exceptionally complex parts for painting or other finishing operations. Machine types offered include indexing spinner hangers, and belt and basket style tumble, and table batch style blasters; chainbelt, monorail, skew roll, and roller table flow through blast systems; 13 different styles of parts washers including both batch and flow through models, all available in numerous sizes and configurations; tub and bowl vibratory deburring machines; and dust collection systems. Viking machines can be found in numerous industries operating in over 25 countries.

## Visual Frame Inc.

**Booth 1427**  
San Francisco, CA  
**Ph:** 415.775.1875  
**Toll Free:** 866.876.1744  
**Fax:** 415.775.1875

[www.visual3dframe.com](http://www.visual3dframe.com)

Visual Frame Inc. develops VisualFrame, an AutoCAD® based structural drafting application. VisualFrame imports your RAM Structural System™, ETABS®, or SAP2000® model in AutoCAD® and creates framing plans, elevations, and a 3D model automatically. Depending on whether you look at a drawing in plan view, elevation view, or isometric view, the VisualFrame structural member objects display themselves as single line, double line, or 3D graphics. VisualFrame can export steel members to detailing applications via a CIS2 file.

## Voortman Corporation

**Booth 114**  
Manteno, IL  
**Ph:** 815.468.6300  
**Fax:** 815.468.6333

[www.voortmancorp.com](http://www.voortmancorp.com)

Voortman Corporation is one of the world's leading manufacturers of CNC fabricating systems such as band saws, high speed drills, plasma/gas coping systems, angle lines, plate punching and shearing systems, plate drilling and plasma/gas cutting systems, shot blasting, painting systems and unmanned fully automated beam and plate processing systems. Voortman also produces approximately 30,000 tons per year in its own fully automated structural fabrication/demonstration facility.

## Voss Engineering, Inc.

**Booth 1513**  
Lincolnwood, IL  
**Ph:** 847.673.8900  
**Toll Free:** 800.323.3935  
**Fax:** 847.673.1408

[www.vossengineering.com](http://www.vossengineering.com)

Voss Engineering, Inc. provides expansion/slide bearing assemblies, bearing pads, and isolation materials for highway bridges, industrial structures, machines, process piping, and commercial buildings. Our product line includes the following structural bearing pad materials: SORBTEX (preformed fabric pad/cotton duck pad/CDP), NEOSORB (AASHTO grade polychloroprene), VSB Slide Bearings (PTFE and steel plate), and FIBERLAST or VOSSCO (random oriented fiber pads).

## Walker Magnetics

**Booth 608**  
Worcester, MA  
**Ph:** 508.853.3232  
**Toll Free:** 800.962.4638  
**Fax:** 508.353.8649

[www.walkermagnet.com](http://www.walkermagnet.com)

Walker Magnetics is the industrial leader in manufacturing magnetic lifting systems for the steel industry. They are designed to lift plates, slabs, and billets of all sizes. Walker magnets are used in shipyards, metalworking plants, and service centers, moving large plates to and from cutting tables, fabricating areas, welding departments, and receiving/shipping areas.

**Wheeling Corrugating Company**  
**Booth 1008**  
 Wheeling, VA  
**Ph:** 304.234.2300  
**Toll Free:** 800.922.3325  
**Fax:** 304.234.2330  
[www.wheelingcorrugating.com](http://www.wheelingcorrugating.com)

Choose a proven leader in steel decking! Wheeling Corrugating has the distinction of being our nation's most experienced decking manufacturer, with over 117 years of quality and performance and a future focused on innovation and customer service. Wheeling Corrugating has grown to 14 facilities nationally, which are strategically located throughout the country. Our NASCC booth in Phoenix will feature The Gator, our new ICC Approved Seismic ShearLoc System for pneumatically crimping decking side laps.

**World Engineering Services Pvt. Ltd.**  
**Booth 1106**  
 Mumbai, Maharashtra  
 India  
**Ph:** 91.22.66960415  
**Fax:** 91.22.66960418  
[www.worldengg.com](http://www.worldengg.com)

WES provides structural steel detailing services from its center in Mumbai, India. All our detailers and checkers are engineers specially trained to AISC and OSHA standards. For our N. American clients, we use latest version 7.148 of SDS/2 and are continuously expanding our team. StruCad detailing is offered to our European clients. Apart from detailing, we also provide rebar detailing, machine design, and a host of other engineering services.

**Zeman Bauelemente Produktionsgesellschaft mbH**  
**Booth 436**  
 Vienna, Austria  
**Ph:** 43.0.1.814.14.0  
**Fax:** 43.0.1.812.27.13  
[www.zebau.com](http://www.zebau.com)

The Austrian company Zeman founded in 1965 has become an international steel construction group and a successful multi-utility supplier. Since steel beams have been mostly processed manually, Zeman machinery branch has devoted itself to "fully automated steel construction processing". The two revolutionary developments invented by Zeman are high-tech lines which allow fully automated positioning, welding and assembling of structural steel elements. Substantial advantages of these equipment consist in a profound shortening of throughput times of appr. 75%, considerable assembly space saving, reduced noise, more efficient use of energy and material resources as well as the significant reduction of labour and production costs with identical quality and quantity.

## exhibitors arranged by booth number

(Exhibitors current as of March 5, 2010.)

114	Voortman Corporation	809	Southwest Detailers Association	1210	American Galvanizers Association
122	Cosen Saws	811	FabSuite LLC	1211	Quincy Joist Company
