FERRELL ENGINEERING, INC. Structural & Specialty Design

Ferrell Engineering, owned, operated, and based solely in the USA, provides structural steel design services to the steel fabrication industry and engineering design firms. We provide design services for all structural steel projects, commercial and industrial.

Ferrell Engineering's staff has practical experience in all phases of steel construction; fabrication, erection, detailing, estimating, project management, and design. Through our efficiency and economic skills learned from hands-on experience, we provide design solutions which can provide project savings in detailing, fabrication, and erection.

Our Services: Project Standard Connections, Special Connections for Braced Frames, Moment Frames, and Axial Transfer Forces, Seismic Bracing and Moment Connections, Structural Analysis of Stair and Handrail Systems, Engineering Review and Seal of Shop Drawings, Develop Welding Procedure Specifications (CWI), Litigation Support and Expert Witness Testimony
