[www.abrafast.com](http://www.abrafast.com)

As a Master Distributor of Blind Bolt North America, we offer solutions to meet your needs for bolting into hollow tube sections. We offer in-house manufactured Anchor Bolts and Tie Rods, and stock Pre Assembled A325 Hex Bolts to save you time and money. We are a Full Line Abrasive Distributor to meet all your needs, but specialize in Finishing and Polishing equipment and abrasives for a wide range of materials. We can take your project from a Brush all the way to mirror finish! We provide our customers with the best possible service! Come see our Full Product Line at [www.abrafast.com](http://www.abrafast.com).

**AceCad Software, Inc.**  
**Booth 933**

[www.beam-master.com](http://www.beam-master.com)

AGT is a manufacturer of machinery that automatically assembles and welds accessories on beams, channels and tubings. Using industrial robots and 3D scanning, this manufacturing cell employs Self Learning Technology that requires no specific file preparation and no human intervention.

**AISC Certification**  
**Booth 337**

Chicago, IL  
**Ph:** 312.670.7520  
**Fax:** 312.896.9022  
[www.aisc.org/certification](http://www.aisc.org/certification)

AISC Quality Management Systems (QMS) Certification sets the quality standard for the structural steel industry and is the most recognized national quality certification program for that industry. QMS Certification requires a comprehensive evaluation of a company's quality system, which will prevent errors from occurring instead of only inspecting and correcting them after the fact. Our program confirms that a company has the personnel, organization, experience, procedures, knowledge, equipment and commitment to meet the AISC Standards for a specific certification category.

[www.aws.org](http://www.aws.org)

The American Welding Society (AWS) was founded in 1919 as a multifaceted, nonprofit organization with a goal to advance the science, technology and application of welding and related joining disciplines. From factory floor to high-rise construction, from military weaponry to home products, AWS continues to lead the way in supporting welding education and technology development. Among the American Welding Society's activities are standard development, personal certification, trade show management, magazine and much more.

**Applied Bolting Technology, Inc.**  
**Booth 1219**

Bellows Falls, VT  
**Ph:** 802.460.3100  
**Toll Free:** 800.552.1999  
**Fax:** 802.460.3104  
[www.appliedbolting.com](http://www.appliedbolting.com)

Applied Bolting produces DTIs and Squirrel DTIs. They guarantee that structural bolts are installed to the specified TENSION, regardless of the torque required to get there. Our Squirrel DTIs provide a visual indication when the desired tension is achieved. Tens of millions of Squirrel DTIs have been used by the best EPC firms around the world. Squirrel DTIs improve the quality of bolted connections by making installation and inspection easier and more accurate.

**ArcelorMittal International**  
**Booth 1207**

Chicago, IL  
**Ph:** 312.899.3500  
**Fax:** 312.899.3766  
[www.arcelormittal.com](http://www.arcelormittal.com)

ArcelorMittal is the world's largest producer of structural steel shapes, having served the U.S. market for over 75 years. Our ASTM A913/50, 60 and now 70 steel offer superior beam characteristics, including higher yield strength, excellent toughness, and outstanding weldability—in most cases without preheating. We produce all domestically rolled WF beams in addition to numerous deep W36s and W40s unavailable domestically.

**Armadillo Noise & Vibration**  
**Booth 1609**

West Warwick, RI

Toll Free: 800.733.5683  
Fax: 773.646.6128  
[www.atlastube.com](http://www.atlastube.com)

Atlas Tube, a division of the JMC Steel Group, was founded in Harrow, Ontario in 1984 and has been manufacturing Hollow Structural Sections (HSS) for over three decades. It is the largest HSS producer in North America and makes sizes from 1"–20" round, up to 16" square, and up to 20" x 12" rectangles. Atlas Tube has five state-of-the-art production facilities in Chicago; Plymouth, Mich.; Blytheville, Ark.; Harrow, Ontario; and Winnipeg, Manitoba. Today, its steel tubing products are used in some of the most demanding applications, including commercial and industrial building columns, solar support structures, sports stadiums, bridges, mobile construction equipment, railcars and oil rigs.

Toll Free: 800.241.2260  
Fax: 205.424.7436  
[www.birminghamrail.com](http://www.birminghamrail.com)

Birmingham Rail's team of material handling professionals are highly motivated and an extremely effective group that offers the highest quality products and unparalleled services to the EOT crane runway systems industry. Consulting, design, experience, and product knowledge allows Birmingham Rail to have the solutions for all your crane rail and accessories. We operate with the philosophy of total quality commitment and outstanding customer service support offering proper crane rail runway system design, fabrication, and installation requirements. We

# NASCC THE STEEL CONFERENCE

St. Louis, MO | April 17–19, 2013

have all rail sections in ASCE and Crane Rail along with Joint bars, Clips, Pad, and custom design/special anchoring fasteners. Check us out in booth 1432 for the latest in rail-to-rail connections and how you can improve your rail system without having to greatly increase your operating and maintenance budgets. Go to [www.birminghamrail.com](http://www.birminghamrail.com) for more information.

## Blair Corporation Booth 735

Conroe, TX  
Ph: 832.928.9655  
Fax: 480.275.3356  
[www.blairwireurope.com](http://www.blairwireurope.com)

Blair Corporation specializes in the fabrication of stainless steel cables for hand rails in cable railing projects. We supply high-performance wire ropes, Casr and Bridon, as well as aircraft cable, cable clamps, and turnbuckles used in safety applications for steel erectors.

## Bluebeam Software, Inc. Booth 1433

Pasadena, CA  
Ph: 866.496.2140  
Fax: 626.398.9210  
[www.bluebeam.com](http://www.bluebeam.com)

Take paperless workflows to a whole new level with Bluebeam Revu. Create 2D and 3D PDFs from Revit, Navisworks and Tekla. Markup 3D model views of shop drawings with industry standard symbols and dynamic stamps. Use built-in measurement tools to perform electronic takeoffs, and collaborate with project partners in real time from your desktop, tablet, PC or iPad using Revu's cloud-based solution, Bluebeam Studio.

## Brown Consulting Services, Inc. Booth 1431

Houston, TX  
Ph: 281.260.9749  
Fax: 281.260.9771  
[www.steelconnectiondesign.com](http://www.steelconnectiondesign.com)

Professional structural engineering firm specializing in connection design calculations and shop drawing supervision for structural steel, steel stairs and miscellaneous steel projects. Licensed in 46 states and the U.S. Virgin Islands, Brown offers additional services including: structural design, forensic engineering, expert witness testimony, light-gauge steel calculations, project pricing and quick turnaround. Contact: [al@steelconnectiondesign.com](mailto:al@steelconnectiondesign.com). Make Brown "Your Engineering Connection."

## Buckner Companies Booth 830

Graham, NC  
Ph: 336.376.8888  
Toll Free: 800.848.6234  
Fax: 336.376.8855  
[www.bucknercompanies.com](http://www.bucknercompanies.com)

Since 1947, Buckner has provided quality workmanship, met demanding schedules, and completed complex projects in many industries. The Raleigh-Durham Airport Terminal Expansion and Boeing's 787 Dreamliner assembly building are recent accomplishments. Buckner is an AISC "Advanced" Certified Erector, ranked #5 by ENR with three "Projects of the Year" from both SEAA & SC&RA, and is a PCI Qualified Erector. Buckner HeavyLift Cranes has one of the largest Lattice Boom Crawler Crane fleets in the country ranging from 70-825 tons. We also offer industrial rigging services (Buckner Industrial Rigging) and miscellaneous iron fabrication and installation (Buckner Miscellaneous Iron).

## Bull Moose Tube Company Booth 844

Chesterfield, MO  
Ph: 636.537.2600  
Toll Free: 800.325.4467  
Fax: 636.537.5848  
[www.bullmoosetube.com](http://www.bullmoosetube.com)

Manufacturer of Hollow Structural Sections (HSS) from 2" square to 12" square, from 0.125" to 0.625" wall thickness and corresponding rectangles. Metric profiles are also available.

### CAMBCO

#### Booth 709

Houston, TX  
Ph: 713.781.9702  
Fax: 713.781.0193

[www.cambcoinc.com](http://www.cambcoinc.com)

CAMBCO—THE ORIGINAL CAMBERING MACHINE—SINCE 1984! Cambo offers eight cambering machine models to fulfill any cambering requirement from small commercial buildings to highway bridges. We offer the complete cambering machine as well as a "Do it Yourself Hydraulics Kit" for each model. Conveyor-fed and powered rollers also available on most models. Contact Matt Strum for additional information. We are looking forward to hearing from you!

### Canadian Institute of Steel Construction (CISC)

#### Booth 1604

Markham, ON  
Canada  
Ph: 905.946.0864  
Fax: 905.946.8574

[www.cisc-icca.ca](http://www.cisc-icca.ca)

The CISC is the voice of strength for Canada's steel construction industry. The CISC promotes the use and benefits of steel in construction, adds value to the construction and design community and supports the needs of the membership and industry through education and training, research and development, industry codes and standards, certification and advocacy.

### Canam United States, a division of Canam Group, Inc.

#### Booth 1203

Point of Rocks, MD  
Ph: 301.874.5141  
Toll Free: 800.638.4293  
Fax: 301.874.5685

[www.canam-construction.com](http://www.canam-construction.com)

Canam designs and fabricates open-web joists, structural trusses and steel deck for the U.S. market. Its experienced and innovative engineering and fabrication teams provide Canam with the advantages needed to excel in a highly competitive market that presents challenging designs and ambitious deadlines.

### Cast ConneX Corporation

#### Booth 1241

Toronto, ON  
Canada  
Ph: 416.806.3521

[www.castconnex.com](http://www.castconnex.com)

Cast ConneX is the supplier of off-the-shelf connection solutions for structural steel, including brace end connectors for use in SCBF (High-Strength Connectors), sculpted clevis-type connectors for architecturally exposed true-pin connections (Universal Pin Connectors), and high-ductility yielding braces end connectors for use in buckling-restrained braced frames (Scorpion Yielding Connectors). Cast ConneX also designs and supplies custom cast steel structural nodes and components for use in building and bridge structures.

### Cerabco, Ltd.

#### Booth 1331

Frenchtown, NJ  
Ph: 908.996.1333  
Fax: 908.996.0023

[www.cerbaco.com](http://www.cerbaco.com)

Cerabco's line of 500+ configurations of non-metallic weld backings permit finished-quality, full-penetration welds from one side. For use with structural steel, shipbuilding, pipeline, pressure vessel, and tank manufacturing. Backings work with MIG, TIG, Stick Electrode, Sub Arc and Flux Core welding processes to weld carbon and alloy steel, stainless, and aluminum. Where one-sided welding is not desirable, backings eliminate arc gouging or heavy grinding prior to second-side welding.

### Chatham Steel Corporation

#### Booth 1115

Savannah, GA  
Ph: 912.944.0222  
Toll Free: 800.546.2650  
Fax: 912.944.0680

[www.chathamsteel.com](http://www.chathamsteel.com)

A steel service center.

### Chicago Clamp Company

#### Booth 1334

Broadview, IL  
Ph: 708.343.8311  
Fax: 708.343.0215

[www.ChicagoClampCompany.com](http://www.ChicagoClampCompany.com)

Chicago Clamp Company provides an innovative method for framing roof openings and supporting rooftop loads with no welding or drilling. This standardized method for connecting joists and beams allows structural engineers to focus on load distribution rather than attachment apparatus or welding concerns. With up to 4,000-lb capacity per system, it is ideal for the safe and economical framing and installation of rooftop units, sky lights, exhaust fans and vents.

### Chicago Metal Rolled Products

#### Booth 1139

Chicago, IL  
Ph: 773.523.5757  
Toll Free: 800.798.4504  
Fax: 773.650.1439

[www.cmrp.com](http://www.cmrp.com)

Curving of every size of angle, bar, channel, tee, and beam up to W44x290# the hard way (x-x axis) on the world's largest beam bender. Tube and pipe bending up to 24"OD. Rectangular tubing up to 20"x12". Low deformation, thin wall bending. Single-radius bending in one plane, as well as off-axis and multi-axis bends; multi-radius bends; true, helical coils; and plumb, circular stair stringers. Hard way, easy way, and every way in between.

### Cleveland City Forge

#### Booth 839

Wellington, OH  
Ph: 440.647.5400  
Fax: 440.647.4185

[www.clevelandcityforge.com](http://www.clevelandcityforge.com)

Cleveland City Forge is a world leader in structural steel hardware. Products include clevises, turnbuckles, turnbuckle assemblies, threaded rod, adjustable yokes, eye nuts, eyebolts, and rod ends.

### Cleveland Punch & Die Company

#### Booth 611

Ravenna, OH  
Ph: 800.451.4342  
Fax: 800.451.6877

[www.clevelandpunch.com](http://www.clevelandpunch.com)

Established in 1880, The Cleveland Punch & Die Company manufactures Punches, Dies and Shear Blades for customers across the steel fabricating industry. All products are proudly manufactured in the USA. Our continuous desire is to serve every structural and steel fabricator on every job to the best of our ability, exemplifies our commitment to excellence. Our longevity is proof positive that this commitment builds quality and value into our products that cannot be under estimated.

### CMC Steel Products

#### Booth 1025

Rockwall, TX  
Ph: 972.772.0769  
Toll Free: 800.308.9925  
Fax: 972.772.0882

[www.cmsteelproducts.com](http://www.cmsteelproducts.com)

CMC Steel Products manufactures the SMARTBEAM—an innovative, economical, and sustainable alternative to other structural systems. The SMARTBEAM offers versatility and economy for all types of floor and roof structures. The beams are lightweight, have excellent load/deflection characteristics, and are manufactured from recycled steel. The SMARTBEAM is

an engineered product custom designed to meet the needs of your project. SMARTBEAM—The Intelligent Alternative.

### Combilift USA

#### Booth 1518

Greensboro, NC  
Ph: 336.378.8884  
Toll Free: 877.266.2456

[www.combilift.com](http://www.combilift.com)

The Combilift is an engine-powered four-directional forklift designed primarily for handling long loads in confined areas. Suitable for use both inside and out, the machine can operate in aisles as narrow as 80". The fully synchronised four-way steering system provides excellent maneuverability.

### COMEQ, Inc.

#### Booth 332

White Marsh, MD  
Ph: 410.933.8500  
Fax: 410.933.1600

[www.comeq.com](http://www.comeq.com)

Exclusive U.S. Distributor for Quality Metal Fabricating Machinery including GEKA Hydraulic Single-Cylinder and Dual-Cylinder Ironworkers, Automated Ironworkers and Automated Punching Systems. See us in Booth #332 and allow us to demonstrate how GEKA can save you money by decreasing your layout time and labor costs while increasing your accuracy. Also available are PARMIGIANI Angle and Plate Bending Rolls, SAFAN Electric Press Brakes, PRIMELINE Hydraulic Forming Centers, EURO-MAC CNC Punching Machines and more.

### COMETTO Industrie S.p.A.

#### Booth 1534

Borgo San Dalmazzo  
Italy  
Ph: 0039.017.126.3300  
Fax: 0039.017.126.6335

[www.cometto.com](http://www.cometto.com)

A manufacturer of towed and self-propelled transport solutions for heavy and abnormal loads since 1954. Applications: heavy haulage, heavy lifting, construction, precast concrete and steel beams, wind power, petrochemical, shipbuilding and steelworks. COMETTO is a leader in steelwork, offering the most economical solution for any transport and movement project.

### Commercial Metals Co. (CMC)

#### Booth 1025

Irving, TX  
Ph: 214.689.4300

[www.cmc.com](http://www.cmc.com)

Founded in 1915, Commercial Metals Company and its subsidiaries recycle, manufacture and market steel and metal products and related materials through a network of facilities throughout the United States and around the globe. CMC sets the standard for being an environmentally responsible, efficient, high-quality, and low-cost metal recycler, steel manufacturer and fabricator.

Ph: 855.787.1980

[www.comslab-usa.com](http://www.comslab-usa.com)

COMSLAB is a long-span and shallow composite floor system that helps structural steel compete with the low floor-to-floor concrete designs. COMSLAB is a lightweight assembly that has UL listed EXPOSED and UNRESTRAINED ratings of 1, 1½ and 2 hrs for spans of 30+ feet! It's ideal for all elevated floor construction such as hotels, schools, office, multi-residential and medical buildings.

# exhibitors

## Controlled Automation, Inc. Booth 425

Bryant, AR  
Ph: 501.557.5109  
Fax: 501.557.5618

[www.controlledautomation.com](http://www.controlledautomation.com)

Controlled Automation specializes in the manufacture of automated structural steel drilling, punching, and shape-cutting machinery. Material handling systems are also available to complement each type of machine we offer. As well as new machinery, Controlled Automation is the industry leader in retrofitting control systems and remanufacturing existing structural steel fabricating machinery. All machines, software, and controls are designed, manufactured, and supported entirely in the United States.

## ConXtech, Inc. Booth 819

Hayward, CA  
Ph: 510.264.9111  
Fax: 510.264.1181

[www.conxtech.com](http://www.conxtech.com)

ConXtech offers ConX, a "Chassis Based Modular" Structural Steel System enabling rapidly delivery of pipe rack, high-density residential, healthcare and commercial structures. ConXtech's lower and locking steel connections and components are manufactured in a highly automated factory where CNC machine centers and state-of-the-art manufacturing technologies accelerate delivery and greatly reduce waste. The company enables other AISC Certified Fabricators to streamline processes and automate their existing facilities by offering a turn-key ConX Modular Factory which includes proprietary fixturing, jigs, and documented processes and procedures to produce structures with unprecedented speed, precision and quality.

## Copper State Bolt & Nut Co. Booth 938

Phoenix, AZ  
Ph: 602.272.2384  
Toll Free: 800.603.6887  
Fax: 602.233.9182

[www.copperstate.com](http://www.copperstate.com)

Copper State is a distributor and manufacturer of fasteners, industrial and construction products, power tools, fluid sealing products, and related items. Our operations include 450 employees throughout 20 locations in Arizona, Texas, Colorado, New Mexico and Nevada, with production facilities in Phoenix, AZ. Our customer base includes mining, industrial, construction, utilities and telecommunications, automotive, maintenance and repair, OEM, and government accounts.

## Core Brace, LLC Booth 1138

West Jordan, UT  
Ph: 801.280.0701  
Fax: 801.280.3231

[www.CoreBrace.com](http://www.CoreBrace.com)

CoreBrace buckling-restrained braces (BRBs) are a cost-effective solution to improve the seismic performance of structures. This highly ductile system has been used in hundreds of projects for earthquake risk mitigation. CoreBrace's expert staff works closely with owners, architects, engineers, fabricators and erectors to meet their design and construction requirements and is committed to providing braces to the highest level of quality. CoreBrace means superior seismic performance and cost savings.

## Crest Steel Booth 708

Cypress, CA  
Ph: 714.822.5222  
Toll Free: 800.421.1111  
Fax: 714.822.5222

[www.creststeel.com](http://www.creststeel.com)

Crest Steel is one of the Southwest's leading steel distributors. Crest Steel supplies the full spectrum of steel products. Our clients include construction contractors, structural steel fabricators and manufacturers, as well as new and evolving industries such as solar and alternative energy.

## CS Unitec Booth 1118

Norwalk, CT  
Ph: 203.853.9522  
Toll Free: 800.700.5919  
Fax: 203.853.9921

[www.csunitec.com](http://www.csunitec.com)

CS Unitec specializes in pneumatic, electric and hydraulic power tools for the construction, metalworking, and petrochemical industries. Tools include portable magnetic drills, annular cutters, saws, grinders, drills, bevellers and much more.

## CSC, Inc. Booth 930

Chicago, IL  
Ph: 312.233.2912  
Toll Free: 877.710.2053  
Fax: 312.321.6489

[www.cscworld.com](http://www.cscworld.com)

CSC has developed leading structural engineering software worldwide for over 35 years. Tedds is powerful software to automate your daily structural calculations. You can access a large library of structural calculations or you can plan, write, store and distribute your own custom calculations. Fastrak is the definitive software for the design, documentation and BIM interoperability of structural steel buildings. Our expert teams support our software users with monthly updates, high-quality online training and technical support.

## The D.S. Brown Company Booth 712

North Baltimore, OH  
Ph: 419.257.3561  
Toll Free: 800.848.1730  
Fax: 419.257.2200

[www.dsbrown.com](http://www.dsbrown.com)

The D.S. Brown Company is a manufacturer of bridge and highway construction products and is based in North Baltimore, OH. D.S. Brown offers: Steelflex Modular, Strip Seal and Delcrete Expansion Joint Systems, Versiflex HLMR and Elastomeric Bearing Assemblies, Delastich Preformed Neoprene Compression Seals, Delpatch Elastomeric Concrete and a number of specialty products to the bridge and pavement markets.

## DACS, Inc. Booth 1430

Portsmouth, VA  
Ph: 757.393.0704  
Toll Free: 866.286.6215  
Fax: 757.393.9461

[www.dacsinc.com](http://www.dacsinc.com)

Manufacturer of steel roof, floor and form decks including deep roof decks (for long spans) and cellular (plated) decks. Plants in both Portsmouth, VA and Baltimore, MD. Fast lead times, great customer service and quality products. DACS, Inc. is the only manufacturer that mechanically fastens their cellular decking for a cleaner, stronger connection. DACS, Inc. also has one of the fullest lines of decking in the business.

## Daito U.S.A., Inc. Booth 217

Elk Grove Village, IL  
Ph: 847.437.6788  
Fax: 847.437.6789

[www.daitousa.com](http://www.daitousa.com)

Daito is focused on metal cutting, drilling and plasma cutting machines and has become the most technologically advanced machine producer in its field. Along with being the world's top manufacturer in its field, DAITO is geared toward customer satisfaction by supporting our customers with our knowledgeable and responsive sales, applications and our sales personnel.

# NASCC THE STEEL CONFERENCE

St. Louis, MO | April 17-19, 2013

## Danny's Construction Company Booth 1625

Throughout the U.S.  
Ph: 952.445.4143  
Fax: 952.445.4337

[www.dannysconstruction.com](http://www.dannysconstruction.com)

AISC Certified Advanced Structural Steel Erector specializing in fast-track, complex projects. Bridges, stadiums, arenas, retrofit, commercial and industrial.

## Davi, Inc. Booth 336

Dallas, TX  
Ph: 972.661.0288  
Toll Free: 888.282.3284  
Fax: 972.661.5676

[www.davi.com](http://www.davi.com)

More than ever, applied technology is being called upon to solve manufacturing's quest for global competitiveness. The challenge is to locate the best technology and to gather them in one place for consultation. Davi, unique in the Plate Roll and Angle Roll industry, makes this available at our own U.S. Customer Support Center, located in Dallas, TX.

## Delta Structural Steel Services Group Booth 808

Idaho Falls, ID  
Ph: 208.528.6110

[www.degroupp.com](http://www.degroupp.com)

Delta Structural Steel Services was established in 1991 and serves clients from Alaska to Virginia. Delta uses SDS-2 software to provide accurate detailing and design to our customers, and FabTrol in-house, to integrate with our client's needs and lower overall project costs. Delta's projects are as varied as the Arizona Cardinal Stadium to waste water facilities and range in size from 50 tons to 2,400 tons.

## Descon Plus, Ltd. Booth 1333

Chicago, IL  
Ph: 312.278.4420  
Toll Free: 888.8.DESCON

[www.desconplus.com](http://www.desconplus.com)

DesconWin and DesconBrace are the industry standard for Structural Steel Connection Design Software. With over 27 years of market dominance, Descon keeps moving forward. Recently, Descon was transitioned to Descon Plus, so our team can continue development and support for this great software. We are dedicated to providing customers with the best experience possible so as to continue the legacy of Descon.

## Design Data Booth 905

Lincoln, NE  
Ph: 402.441.4000  
Toll Free: 800.443.0782  
Fax: 402.441.4045

[www.sds2.com](http://www.sds2.com)

Design Data's SDS/2 software solutions are a unique, discipline-driven family of software products that provide the construction industry with a more intelligent way to increase both productivity and profits. SDS/2 software produces smarter models and diverse solutions that empower users to analyze structures, design connections, and detail steel to create the construction drawings.

### DGS Technical Services, Inc.

**Booth 1035**  
Chicago, IL  
**Ph:** 630.539.8200 x8204  
**www.dgst.com**

DGSTS Inc, Roselle, IL, has become a well-known name among the fabrication industry and is emerging as one of the leading detailing companies in the U.S. and Canadian markets. Currently we have 300+ detailers and several project management teams along with a separate team for quality assurance headed by a PE. Our most recent acquisition involving detailing operations of DEEGIT, Inc. has helped us expand our domain to platforms like SDS/2, Tekla and AutoCAD. Working with large fabricators like Cives, Schuff Steel, Steelfab, CMC, etc., has helped us in implementing the best industry standards and processes in the detailing industry, which in itself is a testimonial for our commitment to quality and delivery. This year our presence is bigger at NASCC, with our management team and detailing experts present at the show. We welcome you to visit us in booth 1035.

### Dlubal Engineering Software

**Booth 1032**  
Tiefenbach, Bavaria  
Germany  
**Ph:** 49.9673.9203.0  
**Fax:** 49.9673.9203.1  
**www.dlubal.com**

Dlubal offers user-friendly and powerful programs for structural, dynamic and Finite Element Analysis (FEA) in the areas of steel, concrete, timber, glass and aluminium structures, and plant and mechanical engineering. Dlubal programs allow design according to a wide range of standards—e.g., ANSI/AISC 360-05, AISC 318-08 or Eurocodes, and are seamlessly integrated in the BIM-oriented planning process by efficient interfaces.

### Dowco Consultants Ltd.

**Booth 1125**  
Surrey, BC  
Canada  
**Ph:** 604.606.5800  
**Toll Free:** 866.773.6926  
**Fax:** 604.606.574.3827  
**www.dowco.com**  
**www.dowcobim.com**

The Dowco Group has grown from a three-person operation to become the largest fully automated 3D modeling and Virtual Construction Service provider in the world. Established in 1970, Dowco employs more than 210 people in seven offices around the world. Dowco's Virtual Construction Services include BIM coordination, Workflow Management, Architectural and Structural 3D Modeling, Model Management and Hosting. We provide world-class steel detailing services and Tekla Software customization and productivity enhancement technologies.

### Duncan Galvanizing Corp.

**Booth 1235**  
Everett, MA  
**Ph:** 617.389.8440  
**Toll Free:** 800.638.1011  
**Fax:** 617.389.2831  
**www.duncangalvanizing.com**

Since 1890, Duncan Galvanizing, located in Everett, MA, has enjoyed a reputation as one of the finest hot-dip galvanizing companies in the United States. Today, we're the recognized leader in full-service architectural metal coatings. We provide the most effective form of corrosion protection combined with aesthetic enhancement for all metals including galvanized steel, "black" (non-galvanized) steel, and aluminum.

### Eastern Pneumatics & Hydraulics, Inc.

**Booth 1420**  
Salem, NH  
**Ph:** 603.893.7662  
**Toll Free:** 800.356.5624  
**Fax:** 603.893.7745  
**www.ephtools.com**

EPH specializes in torque-related tools for steel erectors. Tone

Electric, Norbar Pneumatics, Torcup Hydraulics, SPX Power Team for wind industry, Skidmore. Erector reamers, drift pins up to 1 1/16" and structural wrenches. Repairs, rentals, sales and recalibration to ISO 17025.

### eCADsystems, LLC

**Booth 1035**  
Chicago, IL  
**Ph:** 248-240-7912; 248-726-2360  
**Fax:** 248.659.1579  
**www.ecadsystems.com**

### Engineering Ministries International

**Booth 1631**  
Colorado Springs, CO  
**Ph:** 812.343.3108  
**Fax:** 719.633.2970  
**www.emiusa.org**

Engineering Ministries International (eMI) is an organization of engineers and architects who offer a free technical design service to Christian missionaries serving the poorest of the poor in third world countries. The volunteers pay their own trip expenses, don't charge for their design services, and come alongside a missionary who wants to build something that is complicated enough to require professional expertise. The services are offered on short-term mission trips.

### ESAB Welding & Cutting Products

**Booth 1111**  
Florence, SC  
**Ph:** 843.669.4411  
**Toll Free:** 800.ESAB.123  
**Fax:** 843.664.4459  
**www.esabna.com**

ESAB Welding and Cutting Products serves the structural steel industry with advanced welding and cutting solutions, including customized solutions for its customers and a complete range of Seismic Certified filler metals tested to meet the most stringent requirements for demand critical welds. To ensure customer satisfaction, many ESAB products carry a 100% satisfaction guarantee.

### Fab-Line Machinery, LLC

**Booth 641**  
Saint Charles, IL  
**Ph:** 630.587.0505  
**Toll Free:** 866.466.8298  
**Fax:** 630.587.5584  
**www.fab-line.com**

Fab-Line Machinery is the exclusive importer of the Baykal product line including press brakes, shears, and plasma machines. Full service in the USA is through Fab-Line Machinery and its trained distributors. Full showroom with training, parts, and service is located in Saint Charles, Illinois.

### Fabreka International, Inc.

**Booth 1134**  
Stoughton, MA  
**Ph:** 781.341.3655  
**Toll Free:** 800.322.7352  
**Fax:** 781.341.3983  
**www.fabreka.com**

Fabreka provides vibration isolation solutions including structural bearing pads and expansion bearings for bridges and buildings and thermal insulation material (TIM), a load-bearing thermal break, which prevents heat and cold bridging, while maintaining structural integrity. Fabreka's experience in vibration control includes the dynamic response of steel fabrications and support structures. Services include measuring building floor vibration, displacement response of floors/mezzanines and modeling of structures to predict performance. Capabilities include NASTRAN and finite element analysis.

### FabSuite, LLC

**Booth 1425**  
Williamsburg, VA  
**Ph:** 757.645.0842  
**Fax:** 757.645.0896  
**www.FabSuite.com**

FabSuite is a collection of comprehensive steel fabrication management software programs that can help you expedite and improve your speed and efficiency with regard to the everyday challenges you face as a steel fabricator. FabSuite will help support your every step in the job/contract bidding process, job input, production and shipment piece tracking, purchasing, inventory control, project scheduling and job cost accounting processes that every steel fabricator faces on every project.

### FabTrol Systems, Inc.

**Booth 1119**  
Eugene, OR  
**Ph:** 541.485.4719  
**Toll Free:** 888.FABTROL  
**Fax:** 541.485.4302  
**www.fabtrol.com**

FabTrol Systems, a global leader in steel fabrication management software since 1984, is a proud member of the Dowco Group. Founded by steel fabricators, and still built around a core team of former steel fabricators, the company continues its commitment to the industry by continuously researching fabricators' needs, developing new software solutions, actively seeking feedback from its customer companies—over 1,000 globally—and by working with other industry leaders to address existing and future needs.

# FabTrol Systems, Inc.

Proud member of the Dowco Group

### FEIN Power Tools, Inc.

**Booth 1519**  
Pittsburgh, PA  
**Ph:** 412.922.8886  
**Toll Free:** 800.441.9878  
**Fax:** 412.922.8767  
**www.feinus.com**

FEIN's magnetic drilling technology has achieved a peak of excellence. FEIN's 2011 acquisition of Jancy Engineering raised the bar, now offering the well-known Slugger trademarked system of portable magnetic drills and annular cutters. Slugger products can be used in any application that requires holes to be cut quickly and accurately. Applications such as bridge construction, steel erection, fabrication, machining, and maintenance are only a few of the possible places where Slugger products can be utilized.

### Fibercon International, Inc.

**Booth 1611**  
Evans City, PA  
**Ph:** 724.538.5006  
**Toll Free:** 800.521.9908  
**Fax:** 724.538.9118  
**www.fiberconfiber.com**

New! Fibercon's DeckMASTER using steel fibers was developed to meet all the engineer's and contractor's requirements for temperature/shrinkage reinforcement on composite steel decks. In accordance with the Steel Deck Institute's "Standard for Composite Steel Deck," ASI/SDI C1.0-2011, steel fibers are now permitted for use on these structures. This standard has now been accepted for the future 2015 *International Building Code*. Do not wait until 2015 if you're looking for improved performance, productivity, safety and lower costs.

### Ficep Corporation

**Booth 624**  
Forest Hill, MD  
**Ph:** 410.588.5800  
**Fax:** 410.588.5900  
**www.ficepcorp.com**

Ficep Corporation is currently the largest manufacturer of structural steel and plate fabrication systems and software. Ficep offers over 100 different CNC systems to achieve the optimum solution to any specific fabricator's application. In addition to the different CNC work centers, Ficep totally integrates custom designed material handling systems for full system automation without the requirement for operator involvement.

# exhibitors

# NASCC THE STEEL CONFERENCE

St. Louis, MO | April 17-19, 2013

## **Freedom Tools, LLC** **Booth 1406**

Mesa, AZ  
**Ph:** 480.250.5266  
**Fax:** 480.471.8017

[www.FreedomToolsLLC.com](http://www.FreedomToolsLLC.com)

Set 50% MORE Steel Bar Joists each day... with far greater safety... at half the cost per joist... with Freedom Tools' E-Z Joist Release... Typically pays for itself in a single week of operation!... Named a HOT PRODUCT by MSC, "Highly Recommended," by SEAA President Charlie Johnson. OSHA Compliance Officer (Ret.) Ernest Miller says you'll "achieve significant savings in employee injury experience factors, and enhance employee safety and security." General laborer Kurt Zulner, EvCo LLC says, "It's probably saved us about 200 hours on this job alone." Bottom line: If you set steel bar joists, you need this tool.

## **G.W.Y., Inc.** **Booth 1339**

Greenfield, NH  
**Ph:** 603.547.3800  
**Toll Free:** 888.838.6500  
**Fax:** 603.547.3801

[www.gwyinc.com](http://www.gwyinc.com)

G.W.Y., Inc. is a woman-owned, small business supplying installation tools to the steel construction industry for over 35 years. Our constant speed, non-impacting electric wrenches can be used for Snug Tightening, Calibrated Wrench Tightening, Turn of Nut Tightening as well as DTI Tightening. Our new Model TN wrenches (Turn of Nut) are designed for Turn of Nut installation and are programmable in increments of 1°.

## **Gantrex, Inc.** **Booth 1503**

Pittsburgh, PA  
**Ph:** 412.655.1400  
**Toll Free:** 800.242.6873  
**Fax:** 412.655.3814

[www.gantrex.com](http://www.gantrex.com)

Gantrex, Inc. is the North American office of the worldwide Gantrex Group. We provide solutions to crane runway problems by producing products including crane rail, rail clips, rail pad, crane girder tiebacks and hydraulic bumpers. The Gantrex Soft Mount Solution is the leading rail and runway fastening system in the world. Come by our booth and see the new RailLok™ engineered, adjustable rail clip.

## **Gerard Daniel Worldwide Architectural Products Group** **Booth 1511**

Hanover, PA  
**Toll Free:** 800.232.3332  
**Fax:** 717.633.7095

[www.gerarddaniel.com/architectural](http://www.gerarddaniel.com/architectural)

Gerard Daniel Worldwide is the largest domestic manufacturer of woven and welded wire mesh products, providing virtually unlimited design choices. GDW formed a one-of-a-kind Architectural Products Group, uniquely dedicated to the design assistance, manufacturing and installation of infill/insert panels, complete railing packages, architectural systems, decorative systems and fences and gates. From our integrated fabrication facilities in Pennsylvania, California and Oklahoma, we offer steel, stainless steel and aluminum capabilities.

## **Gerdau** **Booth 813**

Midlothian, TX  
**Toll Free:** 800.527.7979  
**Fax:** 972.299.5212

[www.gerdau.com/longsteel](http://www.gerdau.com/longsteel)

Gerdau is the leading producer of long steel in the Americas and is one of the largest recyclers around the world, transforming millions of tons of scrap metal into steel products every year. In North America, the annual manufacturing capacity is over 10 million tons of finished steel products. Gerdau employs 12,000 people in 29 states and two Canadian provinces at over 125 North American locations. Globally, the company has more

than 45,000 employees and industrial operations in 14 countries with operations in the Americas, Europe and Asia, which together represent an installed capacity of more than 25 million metric tons of steel per year.

## **Girder-Slab Technologies, LLC** **Booth 1013**

Cherry Hill, NJ  
**Ph:** 856.424.7880  
**Toll Free:** 888.478.1100  
**Fax:** 856.424.6880

[www.girder-slab.com](http://www.girder-slab.com)

Recent improvements in the evolution of The Girder-Slab System are now available in Design Guide V2.0. More D-Beams and a new online D-Beam Calculator Reference Tool have made the Girder-Slab System even more user-friendly for structural engineers. In the field, simplified grouting will cut construction costs. Available for use by design professionals, and distributed competitively by steel fabricators, the Girder-Slab System has become the premier slim floor structural steel solution for multi-story residential construction.

## **Graitec** **Booth 1131**

Montréal, QC  
Canada  
**Ph:** 450.674.0657  
**Toll Free:** 800.724.5678  
**Fax:** 450.674.0665

[www.graitec.com](http://www.graitec.com)

Graitec provides cutting-edge technology solutions improving customers' business activities and design processes. Our innovative BIM (Building Information Modeling) technology automatically dramatically increases user productivity and safety thanks to automation, embedded design and control procedures. Through its capacity of exchanging smart data, Graitec Structural BIM Solution also highly facilitates collaboration between construction design, engineering and building professionals for faster, smarter and more effective communication.

## **Grating Fasteners, LLC** **Booth 1629**

New Orleans, LA  
**Ph:** 504.361.3471  
**Toll Free:** 800.227.9013  
**Fax:** 504.362.9059

[www.gclips.com](http://www.gclips.com)

Grating Fasteners, LLC specializes in producing the G-Clip line of grating fasteners. G-Clips are used to attach grating materials to structural members using simple hand tools. The entire G-Clip line of fasteners are noted industry-wide as being a cost-effective, fast, and dependable way to fasten grating.

## **GT STRUDL** **Booth 834**

Atlanta, GA  
**Ph:** 404.894.2260  
**Fax:** 404.894.8014

[gtstrudl.gatech.edu](http://gtstrudl.gatech.edu)

GT STRUDL Structural Design & Analysis program developed by the Georgia Tech-CASE Center offers a wide range of frame and finite element capabilities. Linear/nonlinear static and dynamic analysis features include moving load generation. Response spectrum, transient, and pushover analysis, plastic hinges, tension and compression-only members, and nonlinear connections. Steel and reinforced concrete design, graphical modeling and result display capabilities. Multi-Processor Solver feature (for models with over 300,000 DOF) and Base Plate Analysis Module are also available.

## **Haydon Bolts, Inc.** **Booth 1213**

Philadelphia, PA  
**Ph:** 215.537.8700  
**Fax:** 215.537.5569

[www.haydonbolts.com](http://www.haydonbolts.com)

Haydon Bolts, Inc. is a 149-year-old leading manufacturer and distributor of all kinds of structural bolts and electric tools to the

heavy steel and concrete construction industries. Haydon also manufactures large diameter (9/8" to 2 1/2") hot forged headed bolts of all grades as well as bent anchor rods and rod and plate anchors. Haydon operates out of its 60,000 square foot manufacturing and distribution facility in Philadelphia. Haydon is a charter member of the Industrial Fasteners Institute (IFI), the trade organization of the leading fastener manufacturers in North America, as well as an associate member of AISC.

## **Hercules Bolt Company** **Booth 1238**

Madison, TN  
**Ph:** 615.321.5020  
**Toll Free:** 877.321.5020  
**Fax:** 615.321.2401

[www.herculesbolt.com](http://www.herculesbolt.com)

Since 1998, Hercules Bolt Company has been a leading manufacturer and distributor of heavy fasteners and customized products for fabricators and contractors by providing competitive pricing, superior service, and an in-depth knowledge of the industry. Our quality standards and reputation makes us a sought-after supplier for custom fasteners. We provide mill certification, unmatched one-day service and delivery to most cities, quick turns on Hot Dip Galvanized parts, in-house welding, fabrication of rod assemblies, threading and bending of rods. We are the Blind Bolt Distributor.

## **HGG Profiling Equipment** **Booth 639**

North Charleston, SC  
**Ph:** 330.461.6855

[www.hgg-group.com](http://www.hgg-group.com)

HGG Profiling Equipment supplies a wide range of innovative and high-quality CNC cutting machines for profiling complex beveled edges and 3D profiles. HGG develops these cutting machines for cutting pipes, beams, hollow sections, profiles and various other (thick-walled) shapes. Depending on the needs of our customers, we can supply either oxyfuel (flame cutting) and/or plasma cutting machines.

## **Hilti Inc.** **Booth 1438**

Tulsa, OK  
**Ph:** 918.872.3210

[www.hilti.com](http://www.hilti.com)

Innovation Solutions for the Construction Industry. Sales of construction tools and consumables.

**Fax:** 215.741.5973

[www.infra-metals.com](http://www.infra-metals.com)

Infra-Metals Co. is one of the largest structural steel service centers in the United States. We are well-positioned to satisfy your needs in New England, the Mid-Atlantic, the Midwest, and Florida. As a subsidiary of a leading international company, Infra-Metals is provided with secure financing and has a strong commitment to steel distribution and processing. Infra-Metals offers unparalleled service with on-time delivery and a substantial lineup of processing equipment. Our qualified operators maintain a high level of expertise, and we constantly evaluate additions or replacements to our processing equipment that will allow us to accommodate your changing needs.

**Intelligent Engineering: SPS**  
**Booth 939**

Guelph, ON  
Canada  
**Ph:** 519.400.1376

[www.ie-sps.com](http://www.ie-sps.com)

Intelligent Engineering was incorporated in 1996. The Sandwich Plate System (SPS) technology is a simple alternative to stiffened steel and reinforced concrete. SPS is a composite material comprising of two metal plates bonded with a polyurethane elastomer core. SPS allows for the elimination of stiffeners and precluding local faceplate buckling. SPS delivers high stiffness to weight ratio, simpler fabrication, improved performance and increased safety. SPS is currently used in maritime, offshore, civil engineering, machinery and military fields.

# NASCC THE STEEL CONFERENCE

St. Louis, MO | April 17-19, 2013

## Kloekner Metals Booth 1302

Roswell, GA  
Ph: 678.259.8800  
Fax: 678.436.5698  
[www.kloeknermetals.com](http://www.kloeknermetals.com)

The Company is headquartered in Roswell, Georgia, and consists of three business segments: Flat Rolled Group, Heavy Carbon Group and Special Products Group. Together, Kloekner Metals can bring more value to our customers by shipping carbon and non-ferrous metals, from extensive inventories, stocked in 57 locations throughout North America and Puerto Rico. We are striving to exceed our customers' expectations by investing in technology and processing equipment, to meet the evolving needs in today's demanding business environment.

## LARSA, Inc. Booth 1434

Melville, NY  
Ph: 212.736.4326  
Toll Free: 800.LARSA.01  
Fax: 631.454.5252  
[www.larsa4d.com](http://www.larsa4d.com)

LARSA 4D analysis and design software addresses the specialized needs of cable-stay, suspension, curved, skewed, and other bridge forms, as well as structures requiring geometric nonlinearity or a staged analysis. Standard in leading U.S. firms for bridge design and construction analysis, LARSA 4D continues to lead innovation in analysis and support.

## LeJeune Bolt Company Booth 1231

Burnsville, MN  
Ph: 952.890.7700  
Toll Free: 800.872.2658  
Fax: 952.890.3544  
[www.LeJeuneBolt.com](http://www.LeJeuneBolt.com)  
[www.TightenRight.com](http://www.TightenRight.com)

Get your tight right! with LeJeune's TnA Torque and Angle Fastening System, it's never been simpler, safer, or more cost effective. Our patented fastening system is the single biggest advancement in structural bolting in the last 30 years. Don't take our word for it, stop by our booth and see it for yourself.

## Lincoln Electric Booth 805

Cleveland, OH  
Ph: 216.481.8100  
Fax: 216.486.1751  
[www.LincolnElectric.com](http://www.LincolnElectric.com)

The Lincoln Electric Company, headquartered in Cleveland, Ohio, is the world leader in the design, development and manufacture of arc welding products, robotic arc welding systems, fume control systems and plasma and oxyfuel cutting equipment. The company holds a leading global position in the brazing and soldering alloys market.

## Lindapter USA Booth 1325

Ph: 610.590.2160  
Fax: 610.590.0457  
[www.LindapterUSA.com](http://www.LindapterUSA.com)

For more than 75 years, Lindapter has earned a respected reputation as the inventor and pioneer of Structural Steel Clamping Systems and HSS Blind Fasteners. High-strength connections are quickly achieved by clamping two structural sections together and eliminating the need for time-consuming drilling or welding in the field. Lindapter's unique Steel Connections reduce time and labor costs and are specified across the globe for securing structural beams, HSS, flooring and pipe supports.

## LNA Solutions Booth 707

Ann Arbor, MI  
Ph: 888.724.2323  
Fax: 734.677.2339  
[www.LNASolutions.com](http://www.LNASolutions.com)

LNA Solutions provides structural steel connections methods without the need of field drilling or field welding. These methods provide savings in installation time and cost. LNA Solutions provides products and service out of offices and warehouses based in the USA. Service includes free designs for the use of BeamClamp Structural Steel Connections as well as BoxBolt Blind Structural Steel Connections. LNA Solutions has provided pre-engineered, high-quality structural steel connections in North America for over 20 years.

## Lohr Structural Fasteners, Inc. Booth 1034

Humble, TX  
Ph: 281.446.6766  
Toll Free: 800.782.4544  
Fax: 281.446.7805  
[lohfasteners.com](http://lohfasteners.com)

Lohr Fasteners will be introducing our All-New Redesigned SMARTEX TC. Stop by and ask us about all the new design changes. Visit us at Booth 1034 and say hello.

## LS Industries Booth 726

Wichita, KS  
Ph: 316.265.7997  
Toll Free: 800.835.0218  
Fax: 316.265.0013  
[www.LSindustries.com](http://www.LSindustries.com)

LS Industries manufactures many models of air and airless blasting systems, aqueous washing systems, vibratory deburring equipment, dust collectors, and conveyors, as well as custom engineered equipment to meet our customers' specifications.

## LTC, Inc. Booth 724

West Salem, WI  
Ph: 608.786.1761  
Fax: 608.786.1768  
[www.ltcsteeldetailers.com](http://www.ltcsteeldetailers.com)

LTC, Inc. is an innovative, progressive structural steel detailing company that has provided quality shop drawings to the fabrication industry since 1985. We are committed to creating and maintaining strong customer relationships through quality and professionalism. We use Tekla Structures to prepare shop drawings for commercial projects including hospitals, stadiums, high-rise structures, multi-story office buildings, schools, airports, churches, and industrial buildings. We specialize in BIM and IPD services to the construction industry and offer all electronic data necessary for fully automated shops.

## The M.K. Morse Company Booth 738

Canton, OH  
Ph: 330.453.8187  
Toll Free: 800.733.3377  
Fax: 330.453.9379  
[www.mkmorse.com](http://www.mkmorse.com)

The M. K. Morse Company is a manufacturer of industrial quality band saw blades, as well as a broad range of metal cutting circular saw blades, portable band saw blades, hole saws, reciprocating and jig saw blades, and hack saw blades and frames. To see these and other Morse products contact The M. K. Morse Company, P.O. Box 8677, Canton, OH 44711, telephone 330.453.8187 or visit our website at [www.mkmorse.com](http://www.mkmorse.com).

## Madison Chemical Industries, Inc. Booth 1630

Milton, ON  
Canada  
Ph: 905.878.8863  
Toll Free: 800.624.8207  
Fax: 905.878.1449  
[www.madisonchemical.com](http://www.madisonchemical.com)

Since 1973, Madison Chemical Industries, Inc. has manufactured high-performance polyurethane infrastructure coatings, including CorroCote, the recognized brand for water transmission and storage, waste treatment, fuel and chemical storage, utility structures and renewable energy, among others. More recently, Madison's unique 'No-Blast' system redefines the way in which high-performance coatings are applied to galvanized steel. Our customers extend from North America to Europe to Asia. Come visit us at booth 1630 and let us show you how we can provide a solution to your most difficult coating challenges.

## The Magni Group Booth 745

Birmingham, MI  
Ph: 248.647.4500  
Fax: 248.647.7506  
[www.themagnigroup.com](http://www.themagnigroup.com)

The Magni Group, Inc. is the leading industry supplier of protective metal coatings with over 100 varieties of specifically engineered coatings available worldwide. Since 1974, top manufacturing companies have chosen Magni for superior corrosion resistance, product ingenuity and commitment to high service standards. Magni has grown over the last four decades to include more than 20 company-owned operations in North America, Japan, China, India, Europe and Brazil and over 100 applicator licensed partners located across six continents.

## Marubeni-Itochu Steel America, Inc. (MISA) Booth 1403

New York, NY  
Ph: 212.660.6051  
Fax: 212.660.6070  
[www.misa.com](http://www.misa.com)

Marubeni-Itochu Steel America Inc. (MISA) supplies structural steel products to fabricators and service centers throughout the U.S., Canada, and Mexico. We offer heavy wide flange beams from 12" to 40" and up to 808 lbs. per foot. Monthly rolling/shipment is available for a quick delivery to meet your project needs.

## Max Weiss Co., LLC Booth 1411

Milwaukee, WI  
Ph: 414.355.8220  
Toll Free: 888.649.3477  
Fax: 414.355.4698  
[www.maxweiss.com](http://www.maxweiss.com)

Our unique structural rolling/forming process and skilled craftsmen provide exceptional quality and tight radius bending with very minimal distortion or marring. We have the capability of rolling and forming a wide variety of sizes of structural steel sections and tubing easy way, hard way, and off-axis to accommodate the most difficult and unique projects. We also offer many value-added fabrication services including splitting, notching, straightening, trimming, drilling, and much more.

## MDX Software Booth 1539

Columbia, MO  
Ph: 573.446.3221  
Fax: 573.446.3278  
[www.mdxsoftware.com](http://www.mdxsoftware.com)

Curved and straight steel girder bridge design and rating software for AASHTO LRFD, LRF, LFD, and ASD specifications.

### Mecco Marking & Traceability Booth 840

Cranberry Township, PA  
Ph: 724.779.9555  
Toll Free: 888.369.9190  
Fax: 724.779.9556  
[www.mecco.com](http://www.mecco.com)

Mecco provides innovative designs for part identification and traceability application. We serve the needs of the semiconductor, defense, medical, automotive, industrial and oil and gas industry by offering a full line of laser and dot peen marking solutions.

### Metal Dek Group, a unit of CSI Booth 1130

Columbia, SC  
Ph: 803.771.7920  
Toll Free: 800.654.1912  
Fax: 803.799.6811  
[www.metaldak.com](http://www.metaldak.com)

The Metal Dek Group, a unit of CSI is a global provider of Engineered Solutions for the architectural and construction communities. Metal floor, roof, and wall Dek systems are supported with design partnering and design-assisted engineering. Product enhancements can include Versa-Steel optimized painted metal systems and acoustical treatments (contributing to LEED credits).

### Metal Improvement Company Booth 1415

Paramus, NJ  
Ph: 201.843.7800  
Fax: 201.843.3460  
[www.cwst.com](http://www.cwst.com)

Metal Improvement Company is a world leader in providing metal treatment services for critical components operating in aerospace, automotive, power generation, chemical processing and specialty industrial applications. The metal treatment services we offer enhance the performance and extend the life of critical components by helping to prevent premature fatigue and corrosion failures. The services we provide are engineered coatings, shot peening, laser peening and thermal spray through a network of over 70 facilities worldwide.

### Metals Supply Co., Ltd. Booth 1410

Houston, TX  
Ph: 713.330.8080  
Toll Free: 866.638.2574  
Fax: 713.330.8222  
[www.metalsupply.com](http://www.metalsupply.com)

Metals Supply Co., Ltd. (MSC), a wholly-owned subsidiary of Reliance Steel and Aluminum Co. (NYSE:RS), is a leading supplier of a diversified range of metal products along the Gulf Coast and beyond. Our value-added services include precision saw cutting, production plasma and oxy-fuel burning, T-splitting and shearing. We also provide other services as needed. MSC is proud of our "on time" delivery service and is committed to exceeding our customer expectations.

### Metals USA Booth 619

Langhorne, PA  
Ph: 267.580.2100  
Toll Free: 800.523.3340  
Fax: 267.580.2121  
[www.metalsusa.com](http://www.metalsusa.com)

Metals USA inventories, processes and distributes structural steel and plate products throughout the United States. Material Grades supplied include ASTM A992, ASTM A572, ASTM A588, ASTM A500 and ASTM A36. Our inventories of shapes, bars, plates and hollow structural members are commonly used in building and bridge applications. Services include cutting to length, tee splitting, cambering, forming, bracing, connection materials and project management. Metals USA inventories, combined with our many years of experience, provide structural steel consumers with efficient supply solutions.

### Meyer Borgman Johnson Booth 1507

Minneapolis, MN  
Ph: 612.338.0713  
Fax: 612.337.5325  
[www.mbjeng.com](http://www.mbjeng.com)

Meyer Borgman Johnson (MBJ) provides steel connection design and other construction engineering, BIM, and IPD services to the structural steel community. These services are a subset of our broad structural engineering services in the built environment. MBJ has shown its leadership in this industry through progressive integrated processes, such as digital joist procurement, which was highlighted on our webinar on Steel-Day 2011. We have 50 engineers and are licensed throughout the country.

### Millennium Torque & Tensioning, Inc. Booth 1514

Eighty Four, PA  
Ph: 724.229.5020  
[www.milltorc.com](http://www.milltorc.com)

Millennium Torque & Tensioning is a manufacturer of pneumatic, electric and hydraulic torque and tensioning equipment that is used to loosen and tighten threaded fasteners. These tools are used on numerous applications throughout various industries. The industries include electric utility, mining, petrochemical, transportation, ship building and heavy manufacturing. MTT has a specialized engineering department and customizes many of its products to fit end users applications and needs. Oftentimes standard tooling can be customized to perform a specific task. MTT has a complete sales, repair, service, and calibration facility located in Eighty Four, PA with tools ranging from 50-50,000 ft. lbs.

### Miscellanea, by Contract Services Corporation Booth 1312

Kansas City, MO  
Ph: 816.353.3171  
Fax: 816.353.1132  
[www.cscassd.com](http://www.cscassd.com)

Miscellanea 360° fabrication services project solutions. Your miscellaneous fabrication requirements are our business: Architectural Exposed Steel, Architectural Canopies, Stairs, Railing Systems, Ladders, Platforms, Hatches. When it comes to miscellaneous fabricated materials, components and specialty buy-out items, we provide problem solutions customized to your project to save time, and provide value. Our "Can Do" partnering provides specialized knowledge, and solutions to every stage of your construction project—when your schedule is also your bottom line.

### Mitsui & Co. (USA), Inc. Booth 1403

Los Angeles, CA  
Ph: 213.896.1142  
Fax: 213.688.1138  
[www.mitsui.com](http://www.mitsui.com)

Mitsui USA's Iron & Steel Products Division is a leading provider of steel products to manufacturers, fabricators and service centers throughout North and South America. The Division maintains strong alliances with global steel makers and regional processors to provide unique supply solutions to customers. Mitsui-USA is a supplier of structural steel beam (incl. jumbo beams up to 808lbs/ft), HSS tubing and large-diameter column products to the U.S. steel construction industry.

### Modern Steel Construction magazine Booth 1545

[www.modernsteel.com](http://www.modernsteel.com)

### Mold-Tek Technologies Ltd. Booth 1303

Akron, OH  
USA; India  
Ph: 330.867.4505  
Fax: 330.867.4506  
[www.moldtekindia.com](http://www.moldtekindia.com)

Mold-Tek is a Structural Design and Detailing company offering Engineering, Estimation, Design and Detailing Solutions and provides IT support to its customers worldwide. Mold-Tek offers these services through its network of strategically located offices, three of which are located in the U.S., and three execution facilities in India supporting and/or directly serving clients in the U.S., Canada and Europe.

### National Institute of Steel Detailing, Inc. Booth 1606

Oakland, CA  
Ph: 510.568.3741  
Fax: 510.568.3781  
[www.nisd.org](http://www.nisd.org)

The National Institute of Steel Detailing (NISD) is an international association that advocates, promotes and serves the interests of the steel detailing industry. NISD is an association of unified company owners and individuals at the local, regional and international levels. It promotes to fabricators, architects, engineers and contractors a better understanding of the importance of detailing services in the construction process. NISD fosters a professional approach to business, by advocating improved quality through member networking, education and certification.

### National Steel Bridge Alliance Booth 1045

[www.steelbridges.org](http://www.steelbridges.org)

### New Millennium Building Systems Booth 1225

Butler, IN; Salem, VA; Lake City, FL;  
Hope, AR; Fallon, NV; Juarez, Mexico  
Ph: 260.868.6000  
Fax: 260.868.6002  
[www.newmill.com](http://www.newmill.com)

Striving to anticipate customer needs and proactively working to meet them is the essence of our company. We exhibit AGILITY, the physical and mental nimbleness to achieve goals, by being dynamic, personal, promoting teamwork and living up to higher standards. We know our partners and customers count on us to be reliable and trustworthy. It is our agility, integrity and hard work that make the difference in supplying steel joist and deck products—so we remain "Flexible to the Finish."

### New Rule Products Booth 1505

Saint Charles, MO  
Ph: 636.946.2627  
Fax: 636.946.7910  
[www.newruleproducts.com](http://www.newruleproducts.com)

Our improved stud welding system allows Ironworkers to place ferrules and studs as well as weld studs perpendicular to the steel from the standing position at a constant, sustainable rate. Value-added benefits include increased safety, efficiency and quality assurance while decreasing injuries, workers compensation claims, stud knock-offs, equipment repairs and overall in-place costs. We've also perfected a Time, Current, Lift, Plunge Analyzer that provides real time feedback at the weld site, which prevents a worker from continuing to weld if any of the four functions of the weld breach high or low presets.

### Nippon Steel & Sumitomo Metal Booth 1403

Tokyo  
Japan  
Ph: 312.751.0800 (Chicago)  
Fax: 312.751.0345 (Chicago)  
[www.nssmc.com/en/index.html](http://www.nssmc.com/en/index.html)

Nippon Steel Corporation and Sumitomo Metal Industries, Ltd. have merged as of Oct. 1, 2012. We are one of the world's leading steel manufacturers boasting the world's most advanced steelmaking technologies. Our products have been used in the construction of buildings and industrial plants around the world. We produce wide-flange beams with dimensions beyond conventional products as well as jumbo H-shapes and structural steel plates standardized by ASTM and other global standards.

# NASCC THE STEEL CONFERENCE

St. Louis, MO | April 17-19, 2013

## Nitto Kohki U.S.A., Inc. Booth 838

Roselle, IL  
Ph: 630.394.9393  
Toll Free: 800.323.8828  
Fax: 630.924.0303  
[www.nittokohki.com](http://www.nittokohki.com)

We manufacture the automatic feed magnetic base drills that self-regulate feed speed for optimum cutting with a number of safety features. These machines with JetBroach carbide-tipped cutters can significantly increase production while reducing labor hours and hazardous work. We also manufacture many other metalworking tools including portable Hydraulic Punches, Bevelers, Pneumatic and Electric power tools.

## Nucor - Corporation Booths 1005 & 1105

Charlotte, NC  
Ph: 704.366.7000  
Fax: 704.362.4208  
[www.nucor.com](http://www.nucor.com)

Nucor and affiliates are manufacturers of steel products, with operating facilities primarily in the U.S. and Canada. Products produced include: carbon and alloy steel-in bars, beams, sheet and plate; steel joists and joist girders; steel deck; fabricated concrete reinforcing steel; cold finished steel; steel fasteners; metal building systems; steel grating and expanded metal; and wire and wire mesh. Nucor is North America's largest recycler.

## Nucor - Fastener Division Booth 1005 & 1105

St. Joe, IN  
Ph: 260.337.1600  
Toll Free: 800.955.6826  
Fax: 260.337.1726  
[www.nucor-fastener.com](http://www.nucor-fastener.com)

Manufacturer of 100% made in the USA carbon and alloy steel hex head cap screws, heavy hex structural bolts, dome head Tru-Tension tension control assemblies, nuts and build-to-print specials in inch and metric sizes in various grades with finishes & thread coatings to meet fastening requirements.

## Nucor - Fisher & Ludlow Grating Products Booths 1103

Florence, KY  
Ph: 859.282.7767  
Toll Free: 800.334.2047  
Fax: 859.282.7702  
[www.fisherludlow.com](http://www.fisherludlow.com)

Fisher & Ludlow is a full line manufacturer of Bar Grating, Safety Grating and Expanded Metal Products. Our 10 locations provide rapid delivery of both standard panels and custom gratings that are fabricated specifically for your project. Fisher & Ludlow manufactures bar grating in more North American locations than any other grating company ensuring timely delivery to your job site, where ever it is located.

## Nucor - Plate Mill Group Booths 1005 & 1105

Cofield, NC; Tuscaloosa, AL  
Ph: 252.356.3700  
Toll Free: 877.626.8267  
Fax: 252.356.3770  
[www.nucorhertford.com](http://www.nucorhertford.com)  
[www.nucortusk.com](http://www.nucortusk.com)

Manufacturer of carbon, alloy, high strength low alloy (HSLA), pressure vessel and heat treated (normalized and quench and tempered plate) that is available as discrete, cut-to-length and coiled plate. Nucor Steel Hertford County produces discrete plate through 3 inches thick, 124 inches wide and 1,035 inches long. Nucor Steel Tuscaloosa Inc. produces hot rolled coil and temper-leveled plate up through 1" thickness, 96 inches wide and 720 inches long.

## Nucor - Vercor Decking, Inc. Booths 1005 & 1105

Phoenix, AZ  
Ph: 602.272.1347  
Fax: 602.269.1758  
[www.vercodeck.com](http://www.vercodeck.com)

Vercor Decking, Inc. is a manufacturer of steel roof and floor deck products, located in the western United States. Vercor currently has manufacturing plants in Phoenix, AZ and the California cities of Fontana (near Los Angeles) and Antioch (near San Francisco). Vercor features the PunchLok system, which utilizes the patented PunchLok tool to achieve higher shear values at a lower cost through high-quality side seam attachments.

## Nucor - Vulcraft Group Booths 1005 & 1105

Fort Payne, AL  
Ph: 256.845.2460  
Fax: 256.845.2823  
[www.vulcraft.com](http://www.vulcraft.com)

Steel joists, joist girders, composite floor joists, special profile steel joists, and floor & roof deck. Vulcraft facilities are located in South Carolina, Nebraska, Alabama, Texas, Indiana, Utah & New York.

## Nucor - Yamato Steel Company Booths 1005 & 1105

Blytheville, AR  
Ph: 870.762.5500  
Toll Free: 800.289.6977  
Fax: 870.763.9107  
[www.nucoryamato.com](http://www.nucoryamato.com)

Manufacturer of wide flange structural steel shapes (up through W14x730 columns, and W44 beams), H-piles (including HP16 and HP18), sheet piling, angles, channels, and car building shapes. Grades include ASTM A36, ASTM A572, ASTM A588, ASTM A690, ASTM A709 and ASTM A992.

## Ocean Machinery, Inc. Booth 404

Fort Lauderdale, FL  
Ph: 954.956.3131  
Toll Free: 800.286.3624  
Fax: 954.956.3199  
[www.oceanmachinery.com](http://www.oceanmachinery.com)

Ocean Machinery is a world leader in cost-effective CNC steel fabricating solutions for the small to medium structural steel fabricator looking to improve productivity, reduce dependence on labor and eliminate errors. While the Ocean Avenger has continued to be the world's fastest-selling CNC drill line, the Ocean Clipper is now the world's most affordable CNC angle line, and the Ocean Liberator is the world's most affordable CNC beam coping solution.

## P2 Programs Booth 1419

Dripping Springs, TX  
Ph: 512.858.2007  
Toll Free: 800.563.6737  
Fax: 512.858.2008  
[www.p2programs.com](http://www.p2programs.com)

P2 Programs sets the industry standard when it comes to barcoding and tracking your structural steel from raw material receipt to erection at the job site. Since 1986 we have been using Auto-ID technology to improve manufacturing process tracking. Using our "real-time" update capabilities with Fab-Suite, FabTrol and Romac, P2 Programs is the company with the knowledge, installation history and experience you need for a successful solution to the challenges in your manufacturing operation.

## Pacific Stair Corporation Booth 1344

Salem, OR  
Ph: 503.390.8305  
Toll Free: 888.4R.STAIR  
Fax: 503.390.3864  
[www.pacificstair.com](http://www.pacificstair.com)

Pacific Stair Corporation (PSC) is celebrating nearly 25 years of leading advanced manufacturing techniques of Pre-Engineered steel stair systems for general commercial class applications. Located in Salem, Oregon, PSC has performed on projects primarily in the West Coast and has shipped internationally from West Coast Dock Port locations. PSC is expanding its reach to the East Coast USA. Please stop in and visit us to discuss your stair needs.

## Pan Gulf Technologies Pvt. Ltd. Booth 1330

Mumbai, Maharashtra  
India  
Ph: 91.22.6156.6256  
Fax: 91.22.6156.6257  
[www.pangulftech.com](http://www.pangulftech.com)

Pan Gulf Technologies Pvt. Ltd. is an ISO 9001 certified Engineering Service provider based in India with a staff strength of 200+, catering to customers worldwide. Our main activities are Design and Detail Engineering in the fields of: Civil RCC Design and Rebar Detailing, Structural Steel Design and Detailing (3D Modeling), Static Equipment and FEA, Piping, Electrical and Instrumentation.

## Pannier Corporation Booth 731

Pittsburgh, PA  
Ph: 412.323.4900  
Toll Free: 877.PANNIER  
Fax: 412.323.4962  
[www.pannier.com](http://www.pannier.com)

Pannier offers a wide variety of marking systems for permanent identification of structural steel. Automatic, heavy-duty stampers make deep marks that remain legible after cleaning and coating. Embossed metal tags withstand galvanizing and painting. Industrial ink jet systems ensure easy, reliable piece marking. With over 100 years of experience, we can help you solve your most challenging product identification needs. Visit [www.pannier.com/steelfab](http://www.pannier.com/steelfab) for more information.

## Paramount Roll & Forming, Inc. Booth 1404

Santa Fe Springs, CA  
Ph: 562.944.6151  
Toll Free: 888.400.3883

**Fax:** 562.941.8102

**www.paramount-roll.com**

Since 1963, our company specializes in rolling, bending and forming beams, as well as bending pipes and angles. We also earned a reputation for providing outstanding quality, dependability, and customer service.

**PDM Steel Service Centers, Inc.**

**Booth 739**

Stockton, CA

**Ph:** 209.943.0513

**Toll Free:**

800.800.4736

**Fax:** 209.466.8420

**www.PDMSteel.com**

PDM Steel is an established heavy carbon steel and steel processing supplier in the Western U.S. PDM carries an extensive inventory of most steel products and specializes in plate processing for a multitude of structural and manufacturing applications. With ten locations in the west, PDM has the experienced professionals, ideal inventory, preferred equipment, and strategic locations to provide you extraordinary steel solutions—When and Where You Need It!

**Peddinghaus Corporation**

**Booth 405**

Bradley, IL

**Ph:** 815.937.3800

**Fax:** 815.937.4003

**www.peddinghaus.com**

Established in 1903, Peddinghaus Corporation is the acknowledged global leader providing innovative machine tool technology for structural steel and plate fabrication. Peddinghaus maintains four international manufacturing facilities to insure our business partners receive timely deliveries and superior customer service. With the strongest warranty, training, and service support program, Peddinghaus offers our customers every opportunity for success. Our current business partners report increased shop productivity, which enhances new market opportunities, and that leads them to bottom line profitability.

**Pieresearch**

**Booth 1234**

Arlington, TX

**Ph:** 817.277.8566

**Toll Free:** 800.656.0472

**Fax:** 817.275.2335

**www.pieresearch.com**

Pieresearch manufactures specialized concrete accessories to keep a rebar cage centered and off the floor of a drilled shaft, e.g. drilled pier, caisson, cast-in-place-hole, etc.

**Platte Anchor Bolt Co.**

**Booth 744**

Denver, CO

**Ph:** 303.321.5100

**Toll Free:** 800.621.2658 (BOLT)

**Fax:** 303.321.5110

**www.platteanchorbolt.com**

We manufacture all grades of anchor bolts and rods from 3/8" to 4 1/2" diameter. We also carry a full line of structural bolts, headed anchor studs and expansion anchors.

**Prodevco Industries**

**Booth 213**

St. Georges, QC

Canada

**Ph:** 418.226.4480

**Toll Free:** 866.876.4480

**Fax:** 418.226.4481

**www.prodevcoind.com**

The PCR42 Robotic Plasma Coping system is the most advanced coping system available on the market today. With 3D Vision and non-contact encoder for measuring, the PCR42 is fast, reliable and precise. Whether it's copes, holes, notches, weld access holes,

slots, weld preps, compound angles, T-beams, marking or scribing you're wanting to produce, the PCR42 does it all on all four faces in a single pass. Very easy to operate, it takes DSTV files directly from your detailing software. H-beams, channels, angles, HSS and plate, the PCR42 will take anything you throw at it.

**PythonX - Burlington Automation**

**Booth 631**

Burlington, ON

Canada

**Ph:** 905.689.7771

**Fax:** 905.689.7773

**www.PythonX.com**

The PythonX Structural Fabrication System is the #1 all-in-one robotic plasma system in the world with over 130 installations. The PythonX simply takes in your detailing files and automatically processes beams, channels, HSS, angle and strip plate all on one machine. The PythonX can produce AISC-approved bolt holes, copes, slots, cutouts, cut to length, miter cut, produce T-beams, and scribe part/layout marks all in one place, eliminating countless hours of material handling in between operations. Also, because everything is done on one machine, you save valuable shop space. The PythonX instantly automates every structural steel fabrication operation in your plant. Four-week delivery.

**Quebec Detailing Connection**

**Booth 719**

Montreal, Quebec

Canada

**Ph:** 866.677.6161

**www.quebecconnection.com**

This group of experienced professional North American detailers and engineers will maximize your profits by providing ultimate quality management, modeling and detailing, using SDS/2 and Tekla Structures platforms, delivering on-time, all the time... job after job, whether simple or extreme, small or large. Guaranteed to be a pleasurable and profitable experience!

**Radley Corporation**

**Booth 1315**

Grand Rapids, MI

**Ph:** 616.554.9060

**Fax:** 616.554.9008

**www.radley.com**

From raw materials receipts through an error-proofed shipping process, now you can track material and assemblies with a simple barcode scan. Integrated with FabTrol MRP and FabTrol PRO, Radley's WorkForce Productivity Solutions incorporate an easy-to-use mobile data collection system that provides real-time labor data so you can compare actual hours to your estimates. Visit Booth 1315 at 2013 NASCC and find out how Radley's solutions can help streamline your operations, ensure traceability and increase productivity.

**Real Technology, LLC**

**Booth 1515**

Houston, TX

**Ph:** 832.251.9400

**Toll Free:** 866.397.9400

**Fax:** 713.456.2513

**www.realtchcad.net**

A 100% owned subsidiary of Fedders Lloyd Group (500M USD-Corp), one of the oldest industrial houses in India. Providing high-quality, cost effective, structural detailing for steel fabrication worldwide. X-Steel (Tekla) and AutoCAD used supporting .dwf, .dwg, .dxf, .cnc, .kss files, for a wide range of deliverables, including 3D and BIM modeling. Receiving architectural drawings and scope sheets in our Houston, TX office by email, fax or with a secure FTP site for quick quotes.

**RISA Technologies**

**Booth 725**

Foothill Ranch, CA

**Ph:** 949.951.5815

**Toll Free:** 800.332.RISA

**Fax:** 949.951.5848

**www.risa.com**

RISA Technologies has been developing leading edge structural design and optimization software for over 25 years. Our products are used by 24 of the top 25 U.S. design firms in over 70 countries around the world for towers, skyscrapers, airports, stadiums, petrochemical facilities, bridges, roller coasters and everything in between. The seamless integration of RISAFloor, RISA-3D and RISAFoundation creates a powerful, versatile and intuitive structural design environment, ready to tackle almost any design challenge.

**Ronstan Tensile Architecture**

**Booth 1623**

Portsmouth, RI

**Ph:** 401.293.0539

**Fax:** 866.218.8125

**www.ronstantensilearch.com**

Ronstan Tensile Architecture is a world leader in the manufacture and supply of specialty architectural tendons; offering a complete range of stainless steel and carbon steel structural cables, tension and compression rods to the steel industry. Ronstan Tensile Architecture also provides design, engineering and installation support to architectural/engineering communities worldwide.

**SE University by SE Solutions, LLC**

**Booth 1044**

Holland, MI

**Ph:** 616.546.9420

**www.LearnWithSEU.com**

SE University is a web-based Continuing Education Resource for Structural Engineers, focused on helping you improve your business. SE University provides regularly scheduled live web seminars on a wide variety of topics, to help you increase productivity and profitability. SE University attendees come away with new information and innovative ideas that they can use right away to be more successful. Provide the benefit of ongoing education to your engineers by participating in SE University!

**S-Frame Software**

**Booth 1033**

Richmond, British Columbia

Canada

**Ph:** 604.273.7737

**Fax:** 604.273.7731

**www.s-frame.com**

S-FRAME Structural Office—The shortest path to optimized structural designs. Since 1981, structural engineers worldwide choose to use S-Frame, S-Steel, and S-Concrete on the simplest and most complex projects in terms of geometry, material models, loading conditions, analysis and design requirements because of the products' depth of capabilities, ease-of-use, accuracy and detailed reports coupled with the simplicity of the product portfolio and the industry's best customer support.

**Sherwin-Williams Protective and Marine**

**Booth 1319**

Cleveland, OH

**Ph:** 216.566.2000

**Toll Free:** 800.524.5979

**Fax:** 440.826.1909

**www.sherwin-williams.com/protective**

Sherwin-Williams Protective & Marine Coatings' low-VOC and low-HAPs coatings are ideal for shop application and available through its 4,000 distribution locations. The Specifier Services Group at Sherwin-Williams offers NACE and SSPC-certified Corrosion Specification Specialists to ensure that your project uses technologies that reduce the critical planned timeline and achieves its expected service life. For more information, visit us at booth #1319.

# exhibitors

## Shop Data Systems, Inc.

**Booth 613**  
Garland, TX  
**Ph:** 972.494.2719  
**Fax:** 972.272.7062  
[www.shopdata.com](http://www.shopdata.com)

Shop Data Systems (SDS) has been servicing the steel fabrication industry for more than 30 years with CAD/CAM software solutions. The system will import flat plate components directly from your structural design software. System features: imports file-embedded quantity and material; import multiple files in seconds; import DSTV or DXF files; machine tool paths are applied automatically; tools with or without piece mark; automatic shape nesting; chain cutting; common line cutting; automatic plate trim; personalized training and support; and remnant inventory tracking.

## Short Span Steel Bridge Alliance

**Booth 1340**  
Washington, DC  
**Ph:** 202.452.7100  
**Fax:** 202.452.1039

[www.ShortSpanSteelBridges.org](http://www.ShortSpanSteelBridges.org)

The Short Span Steel Bridge Alliance (SSSBA) is a group of bridge and culvert industry leaders who have joined together to provide educational information on the design and construction of short-span steel bridges in installations up to 140 feet in length. The SSSBA now has a free preliminary design web-based software, eSPAN140, available on the website. It provides standard designs and details, pre-fabricated solutions, and industry contact information for short-span bridges.

## SidePlate Systems, Inc.

**Booth 918**  
Laguna Hills, CA  
**Ph:** 949.305.7889  
**Toll Free:** 800.475.2077  
**Fax:** 949.305.6395  
[www.sideplate.com](http://www.sideplate.com)

SidePlate Systems creates steel frame solutions for structures in all design environments. With the advent of SidePlate FRAME connection technology, superior performance now comes with the least cost. No CJP Welds and No UT Inspection = Shorter Construction Schedule. Saves 1-4psf in steel frame tonnage, 50% Less Shop Labor than before. Saves time and money on virtually any project when compared to alternative structural systems, regardless of whether wind, seismic or blast/progressive collapse governs.

## Simsona Corp.

**Booth 1506**  
Silver Spring, MD  
**Ph:** 301.774.0880  
**Fax:** 301.260.0239  
[www.simsona.com](http://www.simsona.com)

Simsona Corp. provides Structural Steel detailing, Misc Metal detailing, Light Gauge detailing, Rebar detailing, BIM and Steel Design Services. We provide integrated 3D modeling and BIM solutions to clients using Tekla and many other programs. We have office in USA and India. We provide material take-off for estimating services. We provide on-screen takeoff for various trades. We provide our services to Material fabricators, suppliers, architects, General Contractors, design professionals, and construction managers. Our Geographical coverage includes North America, South America, UK, Middle East, Australia, Africa and Asia.

## Skidmore Wilhelm

**Booth 1418**  
South Euclid, OH  
**Ph:** 216.481.4774  
**Fax:** 216.481.2427  
[www.skidmore-wilhelm.com](http://www.skidmore-wilhelm.com)

Made in the USA at our facility outside Cleveland, OH. For more than 60 years Skidmore Wilhelm has been the standard in bolt

tension calibration. Recently we have begun revamping our product line. Stop by to see what's new!

## SKM Industries, Inc.

**Booth 1530**  
Olyphant, PA  
**Ph:** 570.383.3062  
**Toll Free:** 800.851.8464  
**Fax:** 570.383.9482  
[www.skmproducts.com](http://www.skmproducts.com)

SKM Industries Inc. is a major manufacturer of industrial-grade paint markers since 1980. Our markers are ideal for use on all surfaces including metal, steel, wood, rubber, plastic, or any hard to mark on surface. SKM is the inventor of the METAL PRO galvanizing marker, a product that solved a major problem for the galvanizing industry. SKM Industries makes many formulas, and different sized markers, to suit the needs of all other industries.

## SRG Onesource

**Booth 1215**  
Mission, KS  
**Ph:** 913.291.2901  
**Fax:** 913.951.2929  
[www.srgonesource.com](http://www.srgonesource.com)

SRG originated in 1996 to aid conventional steel fabricators and metal building manufacturers with their additional workloads required for structural detailing services. Projects range from 5-2,500 tons utilizing SDS/2 software. Our diverse expertise, NISD QPP and IDC certifications, advanced computer technologies, experienced personnel, and client commitment result in a proven record of success and resource to our clients. AISC Members. Visit [www.srgonesource.com](http://www.srgonesource.com) for examples of projects and drawings. Call Doug Letsch 913.291.2901 for additional information.

## St. Louis Screw & Bolt

**Booth 1211**  
Madison, IL  
**Ph:** 314.389.7500  
**Toll Free:** 800.237.7059  
**Fax:** 314.389.7510  
[www.stlouisscrewbolt.com](http://www.stlouisscrewbolt.com)

In continuous operations since 1887 St. Louis Screw & Bolt is the oldest structural bolt manufacturer in the USA. We specialize in the manufacture of ASTM A325 and A490 heavy hex structural bolts in types I and III, plain, mechanically galvanized, hot dip galvanized and DACROMET coated. Other products include: ASTM F1852 and F2280 tension control bolts, ASTM F1554 anchor bolts, sag and brace rods as well as many other construction fasteners. We sell direct to structural steel fabricators and offer complete project support.

## Stainless Structural, LLC

**Booth 1019**  
Jacksonville, FL  
**Ph:** 904.781.6447  
**Toll Free:** 877.739.6057  
**Fax:** 904.781.6444  
[www.sss.us.com](http://www.sss.us.com)

Stocking stainless steel structural sections in carbon steel profiles. Beams up to 16", channels to 15", unequal leg angle, tee bar, and select sizes of equal angle in both 304/L and 316/L. Custom profiles on application.

## Star Seismic LLC

**Booth 810**  
Park City, UT  
**Ph:** 415.940.9222  
**Fax:** 435.655.0073  
[www.starseismic.net](http://www.starseismic.net)

Star Seismic is a pioneer in the engineering and design of buckling restrained braces, the nation's most rapidly growing seismic system. Star Seismic BRBs have many applications: building and non-building structures; retrofit and new construction; hidden or aesthetically exposed; and myriad innovative uses. Through every step of the project lifecycle, Star Seismic is your partner and shares your interest in design ease, reducing costs, and meeting construction schedules. Our end goal is the same

# NASCC THE STEEL CONFERENCE

St. Louis, MO | April 17-19, 2013

as yours: increasing the safety of structures and saving lives in the event of an earthquake.

## Steel City Bolt & Screw

**Booth 1621**  
Birmingham, AL  
**Ph:** 205.942.4567  
**Toll Free:** 800.522.2658  
**Fax:** 205.940.9727  
[www.boltscrew.com](http://www.boltscrew.com)

Founded in 1968, Steel City Bolt & Screw has become a leader in the specialty fastener industry. We serve a broad range of industries including utilities, construction, railroad, telecommunications, steel fabricators, marina hardware, equipment manufacturers, and fastener distributors across the United States and abroad.

## Steel Deck Institute

**Booth 1038**  
Fox River Grove, IL  
**Ph:** 847.458.4647  
**Fax:** 847.458.4648  
[www.sdi.org](http://www.sdi.org)

Founded in 1939, the Steel Deck Institute is a nonprofit trade association of manufacturers of steel floor and roof decks and manufacturers of related products used in the production or erection of steel decks. Steel decks are used to support finished roofing materials or to serve as a permanent form and/or positive reinforcement for concrete floor slabs. SDI provides uniform industry standards for the engineering, design, manufacture and field usage of steel decks.

## Steel Erectors Association of America

**Booth 941**  
Greensboro, NC  
**Ph:** 336.294.8880  
**Fax:** 413.208.6936  
[www.seaa.net](http://www.seaa.net)

Founded in 1972, the Steel Erectors Association of America (SEAA) is the largest nonprofit trade organization of its kind for steel erectors, bringing members access to the industry's most essential technical information, networking opportunities, and career development tools. The Steel Erectors Association of America provides support and representation on steel erection issues that serves the global needs of industry, government, and the public. Because of its strong membership, the SEAA is proactive in meeting industry needs and responsive to worldwide steel erection and construction issues.

## Steel Founders' Society of America

**Booth 1504**  
Crystal Lake, IL  
**Ph:** 815.455.8240  
**Fax:** 815.455.8241  
[www.sfsa.org](http://www.sfsa.org)

SFSA, akin to AISC, is a technical association. Members of SFSA are steel foundries who supply a range of cast steel products for demanding environments such as railroad, mining, construction, military, and nuclear. SFSA can assist you in utilizing steel castings for building construction. Steel castings offer performance, aesthetics, design freedom, and green manufacturing.

## Steel Joist Institute

**Booth 1510**  
Florence, SC  
**Ph:** 843.407.4091  
**Fax:** 843.407.4044  
[steeljoist.org](http://steeljoist.org)

The Steel Joist Institute, a nonprofit organization of active joist manufacturers was founded in 1928 to address the lack of uniform joist standards within the industry. In addition to setting standards and developing regulations for the steel joist industry, the Institute invests thousands of dollars in ongoing research and offers a complete library of training and research aids. The Institute also holds continuing education webinars, provides technical information and promotes the use of steel joists through a national communications program.

### Steel Mergers & Acquisitions LLC Booth 845

San Antonio, TX  
Ph: 210.240.7300

[www.steelmergers.com](http://www.steelmergers.com)

Build a long-term competitive advantage for your company's profitability and understand how you can plan the long-term strategy that will maximize your company's value when the day comes to sell.

### Steel Projects Booth 624

[www.steel-projects.com](http://www.steel-projects.com)

### Steel Studio Inc. Booth 1610

East Weymouth, MA

[www.steelconnectionstudio.com](http://www.steelconnectionstudio.com)

Steel Studio Inc. is involved in structural steel engineering and detailing. It's also known for its recent SCS (patent pending), a software with great flexibility, born to help engineers design connections.

### Steel Tube Institute Booth 1245

Chicago, IL

Ph: 847.461.1701

Fax: 847.660.7981

[www.hss-steel tubing.org/](http://www.hss-steel tubing.org/)

Steel Tube Institute's HSS Committee includes the majority of the leading producers of HSS in the United States and Canada. The group has been active as an Institute committee for more than 20 years, providing technical and design help for the industry, and promoting the features, benefits and uses of steel hollow structural sections (HSS).

### Steel Works Bolt Company LLC Booth 845

[www.steelworkbolts.com](http://www.steelworkbolts.com)

### Steelmax Tools LLC Booth 718

Englewood, CO

Ph: 303.690.9146

Toll Free: 877.284.2928

Fax: 303.690.9172

[www.steelmax.com](http://www.steelmax.com)

Steelmax Tools offers a range of products and equipment designed and built for the Welder, Steel Fabricator, and MRO. All of our tools provide solutions to reduce costs and increase productivity; they are designed and engineered for long term heavy industrial use. The Steelmax product line includes: Portable Magnetic Drills, Annular Cutters, Metal Cutting Saws and Blades, Beveling Machines for Pipe and Plate, Lifting Magnets, and Welding/Cutting Automation Equipment.

### SteelOrbis Booth 1619

Del Mar, CA

Ph: 713.589.6049

Fax: 713.589.6049

[www.steelorbis.com](http://www.steelorbis.com)

SteelOrbis is a unique e-marketplace and content provider that offers up-to-date news on the steel industry and steel trading from one single source. SteelOrbis content service enables steel companies to access daily price reports derived from actual transactions, market analyses, statistics, price archives, import/export data, and expert views, all of which constitutes critical information affecting daily business decisions. SteelOrbis is also a neutral trading platform at equal distance from both buyers and sellers.

### Strand7 Pty. Ltd. Booth 1439

Sydney, NSW

Australia

Ph: 61.2.9264.2977

[www.strand7.com](http://www.strand7.com)

Strand7 is an advanced, general purpose, FEA system used worldwide by engineers for a wide range of structural analysis applications. It comprises preprocessing, solvers (linear, nonlinear, dynamic and thermal) and post processing. Release 2.4's features

include staged construction, a moving load module, a quasi-static solver for shrinkage and creep/relaxation problems.

### StruCIM Booth 1602

Blacksburg, VA

Ph: 888.634.6020

[www.strucim.com](http://www.strucim.com)

StruCIM is a fully-automated system for robotic cutting and welding that takes your structural designs from engineering data to fabricated assemblies within a single, powerful, easy-to-use solution. StruCIM workcells are flexible and designed to fit your operations regardless of floorspace or material handling needs. User-friendly and easy to integrate into your operations, StruCIM systems have already produced dramatic results for fabricators worldwide.

### Structural Desktop Booth 835

Van Buren, AR

Ph: 479.471.5227

Toll Free: 866.296.8394

Fax: 479.471.5225

[www.structuraldesktop.com](http://www.structuraldesktop.com)

Structural Desktop integrates STAAD Pro, RISA 3D/RISAFloor, GT STRUDL, and SAP2000 with AutoCAD. Build your analytical model in AutoCAD and export to your analytical program. Bring the finished model back to SDT for automatic creation of annotated plan and elevation drawings, material reports, and 3D solid models. Structural Desktop reduces cost, increases accuracy, and minimizes miscommunication. Version 5 contains installs compatible with AutoCAD 2000-2013 and includes 64-bit versions for 2010-2013.

### Structural Engineer/ZweigWhite Booth 1613

Chicago, IL

Ph: 800.466.6275

[www.gostructural.com](http://www.gostructural.com)

*Structural Engineer* magazine is the voice of the structural engineering community. Because it is the only magazine published exclusively for structural engineers that is not affiliated with a member-driven organization or association, it serves as an unbiased voice and an agent of change through editorial leadership. In addition, *Structural Engineer* provides sound, technical information about structural design, rehabilitation, inspection, and construction. Each issue provides in-depth exposure: cover story profile of a prominent structural engineer, project features, industry news, legal concerns, specification and software guide, new products, success stories, and codes.

### Structural Engineering Institute of ASCE Booth 1338

Reston, VA

Toll Free: 800.548.2723

[www.asce.org/SEI](http://www.asce.org/SEI)

Join more than 20,000 members of the Structural Engineering Institute of ASCE to advance your career and build the future of the structural engineering profession. SEI provides resources that advance the profession through research, education and standards development; and networking opportunities that drive the practical application of cutting-edge research. Visit our booth to learn more, and join us at Structures 2013 Congress "Bridging Your Passion with Your Profession", May 2-4, 2013 in Pittsburgh, PA.

### Structural Engineer's Association of Kansas and Missouri (SEAKM)

Booth 1532

Shawnee Mission, KS

Ph: 816.803.8940

[www.seakm.com](http://www.seakm.com)

The vision of SEAKM is to hold paramount the safety, health and welfare of the public with respect to the design, analysis, construction and inspection of structures. We provide continuing education programs to aid structural engineers in their ongoing technical advancement. SEAKM also advocates appropriate legislation and regulations that will positively affect structural engineers in Kansas and Missouri, including the development

of codes, adoption of public policies, requirements for continuing education, and many other issues important to the profession.

### Structural Stability Research Council Booth 945

Rolla, MO

Ph: 573.341.6610

Fax: 573.341.4476

[www.stabilitycouncil.org](http://www.stabilitycouncil.org)

The council provides support and technical counsel for stability research, holds regular meetings to report on research activities, and publishes the definitive work, *Guide to Stability Design Criteria for Metal Structures*. The SSRC Annual Stability Conference provides up-to-date information and identifies where inefficiencies exist in present understanding of structural behavior. Conference proceedings represent a primary source of highlights of the latest solutions to structural problems before they are eventually published in technical journals.

### Sugar Steel Corporation Booth 1412

Chicago Heights, IL

Ph: 708.757.9500

Fax: 708.757.9900

[www.sugarsteel.com](http://www.sugarsteel.com)

Sugar Steel has been in business since 1966 serving our customers with exceptional service. We provide our customers with large inventory of structural steel, quick delivery times, and many first stage processing. Processing services include cutting-to length, plate burning and drilling, shot blasting, cambering, tee splitting, and anglemaster all to our customers' specifications. "For the sweetest deal, call Sugar Steel."

### Taylor Devices, Inc. Booth 1521

North Tonawanda, NY

Ph: 716.694.0800

Fax: 716.695.6015

[www.taylordevices.com](http://www.taylordevices.com)

Taylor Devices is the world leading manufacturer of Fluid Viscous Dampers, Lock-up Devices, Shock Transmission Units, Shock Absorbers, Cable Dampers and custom Tuned Mass Damping systems. These devices and systems can be used to protect building and bridge structures from the devastating vibrations caused by earthquakes, wind, hurricanes and other vibrational disturbances.

### TDS Industrial Services, Ltd. Booth 1031

Prince George, British Columbia

Canada

Ph: 250.561.1646

Fax: 250.562.8549

[www.tdsindustrial.com](http://www.tdsindustrial.com)

Steel Detailers since 1979. Industrial and commercial structures, plate-work and bridges. Small miscellaneous steel jobs to mega projects.

### TechFlow, Inc. Booth 1221

Duluth, GA

Ph: 770.495.1446

Fax: 770.495.1448

[www.techflowengg.com](http://www.techflowengg.com)

Techflow, Inc. is a globally recognized Structural Steel Detailing Company located at Duluth, Georgia with a back office for operations at Mumbai (Bombay) India. Our staff is comprised of a team of 150+ professionals, consisting of detailers, checkers and engineers. We currently are in possession of 25 StruCad and 102 Tekla Licenses. Our project list includes some of the most renowned, admired structures, requiring some of the most unique composition of tasks ever found, be it a part of any commercial project or an industrial one like gold mine Conveyors. Our customers are based at Australia, South Africa, USA, Canada, India, UAE and many more places.

# exhibitors

## **Tekla, Inc.** **Booths 925 & 931**

Kennesaw, GA  
**Ph:** 770.426.5105  
**Toll Free:**  
877.835.5265  
**Fax:** 770.919.0574  
[www.tekla.com](http://www.tekla.com)  
[www.teklabimsight.com](http://www.teklabimsight.com)

With an ambition to multiply its customers' potential to think and achieve big, Tekla provides an accurate, detailed, and data-rich 3D BIM (Building Information Modeling) software environment that can be shared by contractors, structural engineers, steel detailers and fabricators, as well as concrete detailers and manufacturers. Centralizing building information into the model allows for more collaborative and integrated project management and delivery. This translates into increased productivity and elimination of waste, thus making construction and buildings more sustainable.

## **Tennessee Galvanizing** **Booth 1135**

Jasper, TN  
**Ph:** 423.942.1020  
**Toll Free:** 877.242.5848  
**Fax:** 423.942.1040  
[www.tennesseegalvanizing.com](http://www.tennesseegalvanizing.com)

We are a leading provider hot-dip galvanizer for fabricated steel and fastener hardware for the steel industry. Four kettles to handle any lead time you need. Our largest kettle is 42' long by 5' wide and 7' deep. We can galvanize a 3/8" diameter bolt up to a 60" beam. Same day service is available, if set up in advance. ISO 9001:2008 and ISO 14001:2004. Introducing a new high-efficiency spinner plant for small parts opening in March.

## **Totten Tubes, Inc.** **Booth 1404**

Azusa, CA  
**Ph:** 626.812.0220  
**Toll Free:** 800.882.3748  
**Fax:** 626.812.0113  
[www.tottentubes.com](http://www.tottentubes.com)

Totten Tubes stocks the largest range of HSS in North America at its four stocking locations in California and Arizona. Virtually every HSS size shown in the AISC *Steel Construction Manual* is either stocked or can be obtained ASAP. The company also hosts a variety of processing capabilities in-house or with a contract outside processor. These value-added services include saw cutting, laser cutting, bending and galvanizing.

## **Triad Metals International** **Booth 1603**

Columbia City, IN  
**Ph:** 260.244.9500  
**Toll Free:** 877.401.8283  
**Fax:** 260.244.2786  
[www.triadmetals.com](http://www.triadmetals.com)

Triad Metals International is one of the largest structural steel, tubing and mini mill distributors east of the Mississippi River. Our wholesale distribution centers are located in Pittsburgh, PA, Petersburg, VA, and Columbia City, IN. Triad also processes hot rolled coil and floor plate in Camden, New Jersey and Brooklyn, Ohio. We look forward to reaffirming our already strong relationships with our employees, customers and suppliers. This will be demonstrated with the continual implementation of new state of the art processing equipment, constant updating of our hardware and software requirements, and the future addition of distribution facilities.

## **Trilogy Machinery, Inc.** **Booth 831**

Belcamp, MD  
**Ph:** 410.272.3600  
**Fax:** 410.272.3601  
[www.TrilogyMachinery.com](http://www.TrilogyMachinery.com)

Trilogy Machinery, Inc. is the Exclusive North American distributor for ROUND O Angle and Plate bending rolls and USA Distributor for SUNRISE Ironworkers including CNC Models. Trilogy is pleased to be the United States distributor for LEMAS 3-Roll and 4-Roll Plate Bending rolls. TRILOGY offers sales, service and support for

every brand they sell including UNMATCHED experience selling, servicing and supporting Bending Rolls including over 100 years of experience with ROUND O Bending Rolls.

## **Turnasure, LLC** **Booth 1311**

Langhorne, PA  
**Ph:** 215.750.1300  
**Toll Free:** 800.525.7193  
**Fax:** 215.750.6300  
[www.turnasure.com](http://www.turnasure.com)

TurnaSure LLC is the manufacturer of a comprehensive range of Direct Tension Indicators strictly adhering to the ASTM F959 Standard. Now TurnaSure introduces the revolutionary TurnAnut fastener. This ingenious new tensioning device links a TurnaSure DTI to an ASTM A563 DH nut. The benefits for users are immense. Now the nut, hardened washer and Direct Tension Indicator become one piece, saving costs in transport, ease and speed of assembly in the field without assembly errors.

## **TurnaSure LLC**

## **Tuttle Railing Systems** **Booth 1618**

Fishers, IN  
**Ph:** 317.842.2420  
**Toll Free:** 800.328.4496  
**Fax:** 317.845.1328  
[www.tuttlerailings.com](http://www.tuttlerailings.com)

Tuttle is the United States' largest custom fabricator of non-ferrous handrails and railings for the water and sewage treatment, industrial and commercial markets. Founded in 1955, Tuttle has three facilities nationwide (two in Indianapolis, IN and one in Denver, CO) and over 100 employees.

## **Unbonded Brace** **Booth 1405**

Los Angeles, CA  
**Ph:** 213.896.1142  
**Fax:** 213.688.1138  
[www.unbondedbrace.com](http://www.unbondedbrace.com)

Unbonded Brace started the buckling-restrained brace revolution in the U.S. thirteen years ago and is now the most rigorously reviewed and approved BRB system in the world. Manufactured in the United States, Unbonded Braces are fabricated to the highest quality standards in our state-of-the-art facility. With over 20 years development and 850+ applications, Unbonded Brace is the most widely used BRB in the world. Want to learn more? Come to our booth to discuss how we can help with your next project.

## **Unibor** **Booth 1313**

Lombard, IL  
**Ph:** 630.495.9940  
**Toll Free:** 800.969.9644  
**Fax:** 630.495.9941  
[www.unibor.com](http://www.unibor.com)

Universal Drilling is an industry leader in the manufacture of magnetic drill presses and annular cutters. Made in England, the Unibor brand of cutters are available in M35 cobalt and M2 high-speed steel, and warehoused throughout the USA. Unibor magnetic drills are available in electric, hydraulic, and pneumatic.

## **V & S Galvanizing** **Booth 1531**

Columbus, OH  
**Toll Free:** 800.801.3648  
**Fax:** 614.449.8851  
[www.hotdipgalvanizing.com](http://www.hotdipgalvanizing.com)

V & S Galvanizing is a leader in the Hot-Dip Galvanizing industry, with many locations on the East Coast and Midwest, and over 70 locations worldwide. Specializing in corrosion protection of steel with zinc by Hot-Dip Galvanizing. We offer the DUROZINQ program of galvanizing, packaging, tagging and guaranteed service. We also offer our COLORZINQ system (paint over galva-

# NASCC THE STEEL CONFERENCE

St. Louis, MO | April 17-19, 2013

nizing) that adds brilliant color to a base of corrosion protection. V & S offers trucking and many other value added services. Call us for all of your corrosion protection needs.

## **Valmont Coatings** **Booth 1318**

Omaha, NE  
**Ph:** 402.359.6145  
[www.valmont.com](http://www.valmont.com)

As a full-service coatings company, Valmont Coatings provides quality surface finishes that extend the service life and improve the appearance of metal products throughout the country. In fact, Valmont Coatings is one of the largest custom galvanizers in North America. Our processes and transportation capacities are designed to efficiently handle steel products of all shapes and sizes for customers anywhere in the country.

## **Virginia Tech Department of Civil and Environmental Engineering** **Booth 1512**

Blacksburg, VA  
**Ph:** 540.231.6635  
**Fax:** 540.231.7532  
[www.cee.vt.edu](http://www.cee.vt.edu)

The Charles E. Via, Jr. Department of Civil and Environmental Engineering at Virginia Tech is one of the top CEE programs in the United States. The Department has 54 full-time faculty, approximately 600 undergraduate and 400 graduate students. Educational programs in all areas of civil engineering practice are offered within the CEE Department including a very strong emphasis on steel design and behavior for both buildings and bridges.

## **Voortman Corporation** **Booth 324**

Manteno, IL  
**Ph:** 815.468.6300  
**Fax:** 815.468.6333  
[www.voortman.net](http://www.voortman.net)

Voortman the global technology leader established over 40 years ago has been manufacturing machine tools for our business partners to increase productivity and profitability. Voortman partners experience cutting edge CNC machinery that processes profiles and plate utilizing high-speed precision processing technologies that ensures reliability and durability, backed by Voortman's advanced remote and field support. Voortman only uses reputable components suppliers to ensure part availability and future support.

## **Voss Engineering, Inc.** **Booth 1627**

Lincolnwood, IL  
**Ph:** 847.673.8900  
**Toll Free:** 800.323.3935  
**Fax:** 847.673.1408  
[www.vossengineering.com](http://www.vossengineering.com)

Voss Engineering, Inc. provides expansion/slide bearing assemblies, bearing pads, and isolation materials for highway bridges, industrial structures, machines, process piping, and commercial buildings. Our product line includes the following structural bearing pad materials: SORBTEX (preformed fabric pad/cotton duck pad/CDP), NEOSORB (AASHTO grade polychloroprene), VSB Slide Bearings (PTFE and steel plate), and FIBERLAST or VOSSCO (random oriented fiber pads).

## **Walker Magnetics** **Booth 711**

Worcester, MA  
**Ph:** 508.853.3232  
**Toll Free:** 800.962.4638  
**Fax:** 508.852.8649  
[www.walkermagnet.com](http://www.walkermagnet.com)

Walker Magnetics is one of the global leaders in magnetic solutions for work-holding, lifting, and separation applications. Our expertise in electro, electro-permanent, and permanent magnetic systems enable us to accommodate our customers with the most appropriate magnetic system for their specific application. We have been in business since 1896.
